**SECTION 1:
WORLD CUP JUMPING AUSTRALIAN LEAGUE RULES
AUSTRALIAN LEAGUE - WORLD CUP ADDENDUM**

These rules are to be read in conjunction with the FEI rules for the World Cup for Jumping Riders.

Where these rules are silent, FEI Rules prevail.

Competition:

1. Entries

- 1.1. All athletes and horses must be registered with the Federation Equestre Internationale (FEI) and Equestrian Australia (EA) for the year in which the competition takes place. This must be renewed annually
- 1.2. Entry fee and all additional levies must be paid prior to the horse inspection/trot up of the event
- 1.3. Horses may be nominated for the World Cup (CSI-W) and the Mini Prix class at the same event. However they can participate in only one of these classes.
- 1.4. Horses cannot start in any other class on the day of the World Cup class
- 1.5. All World Cup riders must send their nominated entries to the Organising Committee 14 days prior to the start of the event. This nominated entry is only a nomination and withdrawals & substitutions can be made prior to the competition, of which the rider must inform the Organising Committee.
 - Withdrawals can be made up to the start of competition
 - Substitution of the horses entered, can be made up to 1 hour prior to the start of the competition, provided the substitution horse has passed the horse inspection
- 1.6. Horses must have the opportunity to participate in a warm up class within 2 days prior to the World Cup Class
- 1.7. Riders must wear protective headgear in accordance with Equestrian Australia (EA) rules and their dress must be according to FEI rules.
- 1.8. It is currently recommended that stabling as stated in the FEI schedule is provided for horses competing in the World Cup Class

2. Class Size

- 2.1. The maximum number of nominations in each World Cup competition is 50.
- 2.2. If there are more than 50 nominations the organisers have the right to restrict riders to one horse. If, on the day of the competition, there are fewer than 50 starters, the Organising Committee may decide to allow up to two horses per rider to start.
- 2.3. A rider can be competitive on a maximum of two horses in the World Cup Class.
- 2.4. In such cases, where the rider has two horses, the horse to be ridden for World Cup points must be declared before the start of the competition and the athlete must ride this horse first. Once the competition has begun an athlete may not change his World Cup nominated horse. However, prior to the beginning of the competition, a competitor may change his World Cup nominated horse, only if his originally declared World Cup nominated horse is withdrawn from the competition and the newly declared World Cup nominated horse competes in the same position in the starting order, as the originally declared World Cup nominated horse.

3. Choice of Competition.

- 3.1. Organisers have a choice of two competition formats and the selected format should be described in the Schedule as below:
- 3.1.1. **Article 238.2.2:** *A Competition against the clock, but in the event of equality of penalties for first place, there will be one jump-off only against the clock.* Other athletes are placed according to their penalties and time in the first round.
- 3.1.2. **Article 273.3.3.1 4.3:** *A competition over two rounds without a jump-off, with the time in the first round determining the start order in the second round and the time in the second round determining places in case of equality of penalties. Twelve horses or all clear rounds will be invited to participate in the second round.*
- 3.2. The height of the obstacles is to be between 1.40m and 1.60m, with spreads of not more than 2.0m. There must be at least one vertical at 1.50m, one vertical at 1.55m, and one oxer at 1.45m by 1.70m and one oxer at 1.50m by 1.60m.
- 3.3. Top rails 3.5m or greater in length, should have 20mm cups. Rails less than 3.5m may have deeper cups.
- 3.4. The time allowed is to be based on a minimum speed of 350 meters/minute. Outdoor competitions should be run at 375 meters/minute where conditions permit.
- 3.5. Electronic timing with a visual display which displays the 45 second countdown is compulsory. All times are to be recorded in one hundredths of a second. The FEI still accept the use of FarmTek electronic timing.
- 3.6. For a full list of acceptable timing equipment please use the link:
<http://www.fei.org/fei/your-role/organisers/jumping/safety-timing>

4. Swabbing

- 4.1. Medication Control sampling (“swabbing”) is compulsory at all World Cup shows and is at the expense of the FEI. Athletes must provide the horse’s FEI passport or FEI Recognition Card for the swabbing procedure; failure to do so will entail elimination from the competition and forfeiture of prize money.
- 4.2. Medication Control is to be conducted in accordance with the FEI Veterinary Regulations. A swabbing box with clean bedding is to be provided in a quiet area. A table and chairs should be available.

5. Horse Arrival and Inspection

- 5.1. Nominated horses must be present on the ground, been allocated numbers and in their allocated stables, not later than 12 midday on the day prior to the World Cup competition and must not leave the grounds between that time and the World Cup competition.

Any horses requiring re-presentation to be re-inspected one hour after completion of the initial Trot-up. The Horse Inspection must be held on a firm, level and clean non-slip surface. The area has to be large enough to safely hold stallions.
- 5.6. The Horse Inspection is to be conducted in the presence of the FEI Vet, a member of the Ground Jury and the Chief Steward. While having no official capacity at the Trot-Up the riders rep may attend at their option. The FEI Stewards are responsible for setting up the 'inspection' area.

- 5.8. If any horse has a peculiar gait or movement that raises concern but in the opinion of an FEI Veterinarian has no impact on the horse's fitness to compete, it is appropriate that the FEI Veterinary Delegate prepares a written statement to this effect. When an invitation is accepted, arrangements will be made for a comprehensive veterinary examination to be carried out (at the expense of EA) by the National Team Veterinarian or his appointed nominee.
- 8.10. No owner will receive funding to compete at the World Cup Final unless his/her horse has passed such a Veterinary examination. All funding support is contingent upon World Cup Committees acceptance of the veterinary report deeming the horse fit to compete at the FEI World Cup Final. In the event that the rider does not compete at the FEI World Cup Final, all funding received must be refunded to Equestrian Australia within 60 days. If the horse is injured before the start of the FEI World Cup Final, the World Cup Committee will determine requirements to refund any payment based on production of a signed veterinary certificate and any other relevant documents.

You can still accept entries and payment for these entries by your preferred method as **NO payment** is taken by the FEI online System or EA. Once you have finalised these entries you must submit the list with FEI numbers for both horse and rider to Equestrian Australia so they can be uploaded onto the FEI online system to sit with your schedule and event details.

Therefore it is recommended for the Organising Committee close their nominated entries 2 weeks prior to the event, to allow time for the list to be uploaded onto the system 10 days prior to the event.

Once all entries have been uploaded into the system the OC will need to login to the FEI online Entry System to 'accept' the entries before the class. If this is not done before the event then the competitors will not be listed as starting in the class and results will not be recorded.

Any additional entries or substitutions which apply after the nomination date can be added to the FEI Online System by EA but it will be up to the organisers to inform EA with the details of the entry.
