SECTION 1:
WORLD CUP JUMPING AUSTRALIAN LEAGUE RULES
AUSTRALIAN LEAGUE - WORLD CUP ADDENDUM

Australian League will commence ~~one week after WC Final~~ **18th March 2023** and finish 31st December **2023** each year.

These rules are to be read in conjunction with the FEI rules for the World Cup for Jumping Riders.

Where these rules are silent, FEI Rules prevail.

Competition:

1. Entries

- 1.1. All athletes and horses must be registered with the Federation Equestre Internationale (FEI) and Equestrian Australia (EA) for the year in which the competition takes place. This must be renewed annually
- 1.2. All entry fees must be paid prior to the horse inspection/trot up of the event
- 1.3. Horses are not eligible to start in the World Cup qualifying competition and the Mini Prix if the Mini Prix is a stand-alone competition. If the Mini Prix has qualifying rounds and a final, a horse starting in the World Cup may take part in the qualifying competitions but not the final.
- 1.4. Horses cannot start in any other class on the day of the World Cup class
- 1.5. All World Cup riders must send their nominated entries to the Organising Committee 14 days prior to the start of the event. This nominated entry is only a nomination and withdrawals & substitutions can be made prior to the competition, of which the rider must inform the Organising Committee.
 - Withdrawals can be made up to the start of competition
 - Substitution of the horses entered, can be made up to 1 hour after the completion of the final horse inspection, provided the substitution horse has passed the horse inspection
- 1.6. Horses must complete the first round of a competition of 1.30m or above at the current World Cup event prior to starting in the World Cup. **Horses may take part in National Events up to two hours prior to the start of the international event's horse inspection.**
- 1.7. Riders must wear protective headgear in accordance with Equestrian Australia (EA) rules and their dress must be according to FEI rules.
- 1.8. It is currently recommended that stabling as stated in the FEI schedule is provided for horses competing in the World Cup Class.

2. Class Size

- 2.1. The maximum number of nominations in each World Cup competition is 50.
- 2.2. If there are more than 50 nominations the organisers have the right to restrict riders to one horse. If, on the day of the competition, there are fewer than 50 starters, the Organising Committee may decide to allow up to two horses per rider to start, provided they have presented at and passed the Horse Inspection, and met the requirements of Article 1.6.
- 2.3. A rider can be competitive on a maximum of two horses in the World Cup Class.
- 2.4 In such cases the horse to be ridden for World Cup points must be declared before the start of the competition and the athlete must ride this horse first. Once the competition has begun an athlete may not change his World Cup nominated horse. However, prior to the beginning of the competition, a competitor may change his World Cup nominated horse, only if his originally declared World Cup nominated horse is withdrawn from the

competition and the newly declared World Cup nominated horse competes in the same position in the starting order, as the originally declared World Cup nominated horse. *FEI Jumping World Cup Rules*. Art 655.4.4 ~~If the FEI World Cup Competition is run under JRs Art. 273.3, the FEI World Cup Horse must also be ridden first of the two horses in the second round, regardless of the result in the first round.~~ **Athletes with two Horses must ride the FEI Jumping World Cup™ Horse in the first group. If the FEI Jumping World Cup™ Competition is run under JRs Art. 273.3, the FEI Jumping World Cup™ Horse must be ridden in the position in the draw where the first of the two qualified horses are placed for the second round draw, regardless of the result in the first round, even if the non World Cup Horse is withdrawn from the second round.**

Twelve horses or all clear rounds are eligible for the second round.*
 - 3.1.3. **Must be at least 25% return for second round.**
- 3.2. The height of the obstacles is to be between 1.45m and **1.60m** maximum. (Refer *FEI Jumping World Cup Rules* Art 655.5), with spreads of not more than 2.0m. There must be at least one vertical at 1.50m, one vertical at 1.55m, and one oxer at 1.45m by 1.70m and one oxer at 1.50m by 1.60m.

FEI Online Entry System

Entries at all CSI events, including FEI WC Events in Australia, must be submitted to EA for submission into the FEI Online Entry System 14 days before the event

You can still accept entries and payment for these entries by your preferred method as **NO payment** is taken by the FEI online System or EA. Once you have finalised these entries you must submit the list with FEI numbers for both horse and rider to Equestrian Australia so they can be uploaded onto the FEI online system to sit with your schedule and event details.

Therefore, it is recommended for the Organising Committee close their nominated entries 2 weeks prior to the event, to allow time for the list to be uploaded onto the system 10 days prior to the event.

Once all entries have been uploaded into the system the OC will need to login to the FEI online Entry System to 'accept' the entries before the class. If this is not done before the event then the competitors will not be listed as starting in the class and results will not be recorded.

Any additional entries or substitutions which apply after the nomination date can be added to the FEI Online System by EA but it will be up to the organisers to inform EA with the details of the entry.
