6.2 Competition Criteria

In addition to Clause 6.1, and in evaluating the performances of Combinations, the NESP will take into account the following.

a) Competition Considerations

- i. Results achieved at CCI5*, CCI4*-L, CCI4*-S and CNC4* (or equivalent) competitions during 2025 and 2026;
- ii. consideration of performances prior to 2025 but they will generally carry less weight; and
- iii. in some limited circumstances, consideration of performances at CCI3*-L during 2025 and 2026.

b) Objective Considerations

In assessing the competition performances of combinations, the NESP will consider the following objective measures:

- i. the final score (across all three phases of the competition);
 - ii. the scores achieved in each individual phase;
 - iii. the final placing of the Combination (the NESP note that the score and placing of each Combination will be considered but do not automatically position one Combination above another for Nomination purposes); and
 - iv. the NESP will, in its sole discretion, consider (but not rely on) data and analysis provided by the external providers including (but not limited to) the Australian Institute of Sport and EquiRatings. Any rankings or ratings provided by external providers will not automatically position one Combination ahead of another for Nomination purposes.
- c) Combinations must be, and remain, until the conclusion of the Championship, positive ambassadors for the Sport, the National Federation and the

Championship.

6.3 Discretionary Considerations

For the purposes of assessing the performances of Combinations, the NESP will consider Competition-based factors. These factors include, but are not restricted to:

- Demonstrated potential to contribute to Team success at the World Championships and looking ahead to the Olympic Games.
- Consistency and progression of the Combinations performances.
- Suitability of the Combination for the World Championship environment.

The NESP will observe:

- a) the performance of each Combination in relation to the quality and number of Competitors; and
- b) the technical features of the competition, in particular (but not limited to):
 - i. the dressage judging (including the breakdown of scores across multiple judges);
 - ii. the technical difficulty and dimensions of the cross-country fences;
 - iii. the cross-country terrain;
 - iv. the relative difficulty of the show jumping;
 - v. the atmosphere of the competition; and
 - vi. the general conditions under which the performance is achieved, such as the weather, surface and footing.
- c) the suitability of the Combination for the expected conditions of the World Championships (taking into account the objective of the Team and Individual competition) including but not limited to:
 - i. the anticipated technical difficulty and the size of the cross-country fences;
 - ii. the anticipated terrain; and
 - iii. the anticipated climatic conditions.
- d) the overall balance of the Combination that have been selected; and
- e) demonstrated experience/success at international events;
- f) the ability or potential of the Combination to perform under the stress and pressure of an event such as the Championship;
- g) the ability of the Combination to compete successfully at high level international competition. Consideration will be given to:

- i. demonstrated experience/success at Championship level;
 - ii. the ability or potential of the Combination to perform under the stress and pressure of an event such as the Championship;
 - iii. the ability of the Athlete to prepare their Horse to peak condition for a major campaign/Championship;
 - iv. exceptional ability of a Combination (and the potential to achieve an individual medal). This factor may, in the National Federation's sole discretion, place a Combination with less experience or consistency ahead of another Combination; and
 - v. the ability of the Athlete and his/her support personnel to operate and perform in a Championship Environment which is highly regulated and pressurised.
- h) the ability of the Athlete to contribute to an effective and harmonious national Team; and
- i) the advice of EA High Performance Director, Chef d'Equipe and Team Veterinarians, particularly concerning the fitness of the Combination to perform at the required level.
- 6.4** The NESP has the discretion to place greater or lesser emphasis on any one or more of the factors outlined in Clause 6.3.
- 6.5** In determining whether a Combination has satisfied the criteria set out in Clause 3 and Clause 6, 6.2 to 6.3 above, EA may have regard to Extenuating Circumstances.
