5.0 ADDITIONAL INFORMATION

5.1 Training and Education (not Competition)

- This Guideline is to be read in conjunction with all EA Coaching and Official Guidelines and principles. This document only references the equestrian virtual education and training activities and forms part of EA overall Health and Safety Management System-Risk Management.
- All videoed sessions cannot be classed as a “competition”, given Official status, or used for future qualifications, leaderboard calculations or annual awards. However they can be used for training purposes with review and feedback provided by a judge.
- Due to the lack of usual controls afforded to an official competition, it is not possible for these on-line activities to assure participants of a level playing field in terms of assessment. For this reason the awarding of placings, rankings or prizes as per a typical competition is not appropriate.
