## PREAMBLE

The following rules have been adopted by Equestrian Australia (EA) and must be followed by all affiliated organisations conducting dressage events on behalf of EA or under EA rules. They follow as closely as possible the rules laid down by the Fédération Equestre Internationale (FEI). Some FEI rules have been modified to suit Australian conditions. If issues arise which are not covered in the EA rules then the FEI rules apply. In the event of a conflict between EA rules and FEI rules, the FEI rules will prevail. Any modified EA rules do not apply in a FEI-sanction event.

These rules cannot provide for every eventuality. In any unforeseen or exceptional circumstances, it is the duty of the appropriate official(s) to make a decision in a sporting spirit and adhere as closely as possible to the intention of these rules

Notwithstanding anything stipulated in these rules, the Equestrian Australian Dressage Committee (EADC) has full discretion and complete authority to omit, amend and interpret these rules in their absolute discretion and to give or to withhold any explanation of its decision.

These rules refer to EA dressage, FEI dressage at EA events, and Eventing dressage. For the rules relating to FEI-sanctioned dressage events refer to the FEI rules at [www.fei.org](http://www.fei.org).

These Rules & Regulations cannot be used either in principle, in whole, or in part for the judging of Competition unless the Organising Committee or body is affiliated to Equestrian Australia.

## I.2 Code of Conduct for the Welfare of the Horse

The following code has been developed by the FEI and adopted by the EA:

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands
  - a) good horse management — Stabling, feeding and training must be compatible with good horse management and must not compromise welfare of the horse. Any practices that could cause physical or mental suffering, in or out of competition, will not be tolerated
  - b) training methods — horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to any training methods which are abusive, cause fear or for which they have not been properly prepared
  - c) farriery and tack — Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury
  - d) transport — During transportation, horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent staff. Competent handlers must always be available to manage the horses
  - e) transit — All journeys must be planned carefully, and horses permitted regular rest periods with access to food and water in line with FEI guidelines
2. Horses and riders must be fit, competent and in good health before they are permitted to compete
  - a) fitness and competence — Participation in competition must be restricted to fit horses and riders of proven competence
  - b) health status — No horse showing symptoms of disease, lameness, significant ailments or pre-existing clinical conditions should compete or continue to compete if its welfare would be compromised. Veterinary advice must be sought whenever there is any doubt
  - c) doping and medication — Abuse of medication and doping is a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be permitted for the horse's full recovery before competition
  - d) surgical procedures — Any surgical procedures that threaten a competing horse's welfare or the safety of other horses and/or riders must not be permitted
  - e) pregnant/Recently foaled mares — A mare must not compete after their fourth month of pregnancy or with foal at foot
  - f) misuse of aids — Abuse of a horse using natural riding aids or artificial aids (e.g. whips, spurs, etc) will not be tolerated

3. Events must not prejudice horse welfare
  - a) competition areas — horses must only be trained and compete on suitable and safe surfaces. All obstacles must be designed with the safety of the horse in mind
  - b) ground surfaces — All ground surfaces which horses walk, train or compete on must be designed and maintained to reduce factors that could lead to injuries. Particular attention must be paid to the preparation, composition and upkeep of surfaces
  - c) extreme weather — Competitions must not take place in extreme weather conditions if the welfare or safety of the horse may be compromised. Provision must be made for cooling horses quickly after competing in hot or humid conditions. (Refer to [Annex C EA Hot Weather Policy](#))
  - d) stabling at events — Stables must be safe, hygienic, comfortable, well-ventilated and of sufficient size for the type and disposition of the horse. Appropriate feed and clean bedding, fresh drinking water and washing-down water must always be available
  - e) fitness to travel — After competition a horse must be fit to travel in accordance with the FEIs guidelines
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over
  - a) veterinary treatment — Veterinary expertise must always be available at an event. If a horse is injured or exhausted during a competition, the rider must dismount and a veterinarian must check the horse
  - b) referral centres — Wherever necessary, the horse should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured horses must be given full supportive treatment before transport
  - c) competition injuries — The incidence of injuries sustained in competition should be monitored. Ground surface conditions, frequency of competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries
  - d) euthanasia — If injuries are sufficiently severe, the horse may need to be euthanised by a veterinarian as soon as possible on humane grounds and with the sole aim of minimising suffering
  - e) retirement — Every effort should be made to ensure that horses are treated sympathetically and humanely when they retire from competition
5. The FEI urges all those involved in equestrian sport to attain the highest possible levels of education in their areas of expertise relevant to the care and management of the competition horse

### **1.3 Abuse of the horse (Article 142, FEI General Regulations and EA rules)**

No person may abuse a horse during an event or at any other time. 'Abuse' means an action or omission that causes or is likely to cause pain or unnecessary discomfort to a horse, including without limitation, any of the following:

- a) whipping or beating a horse excessively
- b) subjecting a horse to any kind of electric shock device
- c) using spurs excessively or persistently
- d) jabbing the horse in the mouth with the bit or any other device
- e) competing on an exhausted, lame or injured horse
- f) 'rapping' a horse
- g) abnormally sensitise or desensitise any part of a horse
- h) leaving a horse without adequate food, drink or exercise
- i) using any device or equipment which causes excessive pain to the horse if it knocks down an obstacle

#### **1.3.1 Reporting of abuse**

Anyone witnessing an incident of abuse must report it to the OC immediately who will refer the matter without delay to officials at the event with the appropriate time and authority to deal with it or, if such officials are not available, to the State CEO to initiate action.

Competitors are alerted to the fact that, as well as FEI and EA General Regulation 142, cruel application of spurs, whips or bits is illegal in some Australian states and territories.

### 1.3.2 Unable to fulfil the requirements of the test

Where the Judge at C is of the opinion that the horse and rider combination are not able to fulfil the requirements of the level of the test; and/or the performance is not in the best interests of the horse's welfare due to extreme tension; and/or clearly shows abusive riding, the combination will be eliminated. There is no appeal against this decision.

## 1.4 Bleeding

- a) if the Judge at C sights fresh blood anywhere on the horse during the test, they will stop the horse to check. If the horse shows fresh blood, it will be eliminated. The elimination is final. If the judge clarifies through examination that the horse shows no fresh blood, the test may resume
- b) if the Steward or approved representative of the steward discover fresh blood in the horse's mouth or in the area of the spurs at the end of the test, they inform the Judge at C, who will eliminate the horse. If the Steward or approved representative of the steward discover fresh blood anywhere else on the horse's body at the end of the test, the horse is not automatically eliminated, but the Judge at C may eliminate the horse
- c) a veterinarian may inspect the horse after elimination to decide if the horse is fit to continue in another test and inform the OC in writing of the decision prior to that test. The veterinarian's opinion is final

### 1.4.1 Protective covering

Any form of protective skin covering on the horse such as plaster/tape/belly band covering or towel, whether the skin is broken or not, is strictly forbidden at an event and will entail elimination if used. Refer to 5.17.

2. A Horse's sensory hairs may not be clipped and/or shaven or otherwise modified in any way nor may the hair in the auricles (ears) be removed or shortened within the rims of the auricle under penalty of elimination from the event. Individual sensory hairs may be removed by a veterinarian to prevent pain or discomfort for the Horse.
3. Areas of hair that must be clipped, shaven or removed to allow veterinary treatment are exempt from this rule. Veterinary treatments are exempt from this rule.
4. Horses found competing with clipped/shaven/otherwise modified sensory hairs will be eliminated from the event.
5. From 1st January 2025, horses found competing with hair in the auricles removed or shortened within the rims of the auricle will be issued a recorded warning and from 1st July 2025 will be eliminated from the event.

- 1.6.8** A Yellow Warning Card or Recorded Warning Card is a decision arising from the field of play and as such there is no Appeal against the issuing of such a warning.

## **1.7 Anti-doping and medication control**

Horses and riders may be subject to random in-competition testing. Refer to the EA and FEI Equine Anti-doping and Medication Control Rules (EADMC) and the EA (Rider) Anti-doping Policy. ## SECTION 2 PACES AND MOVEMENTS

This section details the paces and movements required in dressage and are taken from the FEI Rules for Dressage Events. Please refer to the FEI Dressage Handbook Guidelines for Judging for further assistance for judges and riders.

The Training Scale is a German-based training system. It is the most important guideline for trainers and riders for developing correctly trained dressage horses. It consists of 6 parts, or building blocks, that must be taken in conjunction with each other. The 6 parts are outlined below:

### 1. Rhythm (Takt)

This refers to the regularity, which is the correct sequence and timing of the footfalls.

### 2. Suppleness (Losgelassenheit)

Suppleness and relaxation. The complete absence of tension and is an essential aim of the preliminary training phase. Relaxation is meant in both the mental and physical sense.

### 3. Contact (Anlehnung)

Contact is a soft, steady, connection between the rider's hands and horse's mouth. The horse should go rhythmically forward from the rider's driving aids and 'seek' a contact with the rider's hands.

### 4. Impulsion (Schwung)

This term is used to describe the transmission of energy from the hindquarters being transmitted into the athletic movement of the horse.

### 5. Straightness

A horse is said to be straight when its forehead is in line with its hindquarters; that is, when its longitudinal axis is in line with the straight or curved track it is following.

### 6. Collection

To enable a horse to be collected correctly, all the former criteria must be fulfilled. The aim of collection is to improve the balance and equilibrium of the horse, and to develop and increase the horse's ability to lower and engage the quarters for the benefit of the lightness and mobility of the forehand. If the carrying capacity of the hindquarters is sufficiently developed, the horse is then in a position to move in balance and self-carriage in all three paces.

## 2.1 Objects and general principles

The object of dressage is the development of the horse into a happy athlete through harmonious education. As a result it makes the horse calm, supple, loose and flexible, but also confident, attentive and keen, thus achieving perfect understanding with its rider. These qualities are demonstrated by:

- the freedom and regularity of the paces
  - the harmony, lightness and ease of the movements
  - the lightness of the forehand and the engagement of the hindquarters, originating in a lively impulsion
  - the acceptance of the bridle, with submissiveness throughout and without any tenseness or resistance
- a) the horse thus gives the impression of doing of its own accord what is required of him. Confident and attentive, submitting generously to the control of the rider; remaining absolutely straight in any movement on a straight line and bending accordingly when moving on curved lines
  - b) the walk is regular, free and unconstrained
  - c) the trot is regular, free, supple and active
  - d) the canter is united, light and balanced. The hindquarters are never inactive or sluggish. They respond to the slightest indication of the rider and thereby give life and spirit to all the rest of its body
  - e) by virtue of a lively impulsion and the suppleness of the joints, free from the paralysing effects of resistance, the horse obeys willingly and without hesitation and responds to the various aids calmly and with precision, displaying a natural and harmonious balance both physically and mentally
  - f) in all the work, even at the halt, the horse must be 'on the bit'. A horse is said to be 'on the bit' when the neck is more or less raised and arched according to the stage of training and the extension or collection of the pace, accepting the bridle with a light and consistent, soft, submissive contact. The head should remain in a steady position, as a rule slightly in front of the vertical, with a supple poll as the highest point of the neck, and no resistance should be offered to the rider
  - g) cadence is shown in trot and canter and is the result of the proper harmony that a horse shows when it moves with well-marked regularity, impulsion and balance. Cadence must be maintained in all the different trot or canter exercises and in all the variations of these paces
  - h) the regularity of the paces is fundamental to dressage

## 2.2 The halt

- a) at the halt, the horse should stand attentive, engaged motionless, straight and square with the weight evenly distributed over all four legs. The neck should be raised, the poll as the highest point and the nose line slightly in front of the vertical. While remaining 'on the bit' and maintaining a light and soft contact with the rider's hand, the horse may quietly chew the bit and should be ready to move off at the slightest indication of the rider
- b) the halt must be shown for at least 3 seconds
- c) the halt should be shown throughout the salute
- d) the halt is obtained by the displacement of the horse's weight to the hindquarters by a properly increased action of the seat and legs of the rider, driving the horse towards a softly closed hand, causing an almost instantaneous but not abrupt halt at a previously fixed place. The halt is prepared by a series of half halts
- e) the quality of the paces before and after the halt is an integral part of the assessment

*The Halt*

## 2.3 The walk

- a) the walk is a marching pace in a regular 4-time beat (left hind, left fore, right hind, right fore) with equal intervals between each beat. This regularity combined with full relaxation must be maintained throughout all walk movements
- b) when the foreleg and the hind leg on the same side move almost on the same beat, the walk tends to become an almost lateral movement. This irregularity, which might become an ambling movement, is a serious deterioration of the pace
- c) the following walks are recognised: Collected, Medium, Extended and Free
- d) there should always be a clear difference in the attitude and over-tracking in these variations
- e) a 'step' in walk constitutes one step by a foreleg

### 2.3.1 Medium walk

Medium walk is a clear, regular and unconstrained walk of moderate lengthening. The horse, remaining 'on the bit', walks energetically but relaxed, with even and determined steps, the hind feet touching the ground in front of the hoof prints of the fore feet. The rider maintains a light, soft and steady contact with the mouth, allowing the natural movement of the head and neck.

### 2.3.2 Collected walk

In the collected walk, the horse, remains 'on the bit', moves resolutely forward, with its neck raised and arched and showing a clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hind legs are engaged with good hock action. The pace should remain marching and vigorous, the feet being placed in regular sequence. The steps cover less ground and are higher than at the medium walk, because all the joints bend more markedly. The collected walk is shorter than the medium walk, although showing greater activity.

### 2.3.3 Extended walk

In the extended walk, the horse covers as much ground as possible, without haste and without losing the regularity of the steps. The hind feet touch the ground clearly in front of the footprints of the fore feet. The rider allows the horse to stretch out the head and neck (forward and downwards) without losing contact with the mouth and control of the poll. The nose must be clearly in front of the vertical.

### 2.3.4 Free walk on a long rein

The walk is a pace in 4-beat rhythm with 8 phases - (numbers in circles indicate the beat)

*The free walk on a long rein is a pace of relaxation in which the horse is permitted enough freedom to lower and stretch out his head and neck while the rider maintains a light contact through the rein.*

### 2.3.5 Stretching on a long rein

In order to execute the exercise 'stretching on a long rein' correctly:

- a) the rider allows the horse to take the reins gradually and smoothly as the horse stretches his neck forward and downward
- b) the mouth should reach more or less to the horizontal line corresponding with the point of the shoulder
- c) a light, elastic and consistent contact with the rider's hands must be maintained
- d) the horse covers as much ground as possible, without haste and with losing the regularity of his steps, the hind feet touching the ground clearly in front of the foot prints of the forefeet
- e) during the retake of the reins the horse must accept the contact without resistance in the jaw, mouth or poll

## 2.4 The trot

- a) the trot is a 2-beat pace of alternate diagonal legs (left fore and right hind leg together and vice versa) separated by a moment of suspension
- b) the trot should show free, active and regular steps
- c) the quality of the trot is judged by the general impression, i.e. the regularity and elasticity of the steps, the cadence and impulsion in both collection and extension. This quality originates from a supple back and well-engaged hindquarters, and by the ability to maintain the same rhythm and natural balance within all variations of trot
- d) all trot-work is executed 'sitting', unless otherwise indicated in the test concerned
- e) the following trots are recognised: Working, Lengthening of Steps, Collected, Medium and Extended

### 2.4.1 Working trot

The working trot is a pace between collected and medium trot, in which a horse's training is not yet developed enough and ready for collected movements. The horse, showing proper balance and remaining 'on the bit', goes forward with even elastic steps and good hock action with the hind feet touching the ground in front of the hoof prints of the front feet. The expression 'good hock action' underlines the importance of an impulsion originating from the activity of the hindquarters.

### 2.4.2 Collected trot

The horse, while remaining 'on the bit', moves forward with the neck raised and arched. The hocks, being well engaged and flexed, must maintain an energetic impulsion, enabling the shoulders to move with greater mobility, thus demonstrating complete self-carriage. The horse's steps are shorter than in the other trots, but elasticity and cadence are not lessened.

### 2.4.3 Medium trot

The medium trot is a pace of moderate lengthening compared to extended trot, but 'rounder' than the latter. Without hurrying the horse goes forward with clearly lengthened steps and with impulsion from the hindquarters. The rider allows the horse to carry the head a little more in front of the vertical than at the collected and the working trot, and to lower the head and neck slightly. The steps should be even, and the whole movement balanced and unconstrained.

### 2.4.4 Extended trot

In the extended trot, the horse covers as much ground as possible. Without hurrying the steps are lengthened to the utmost as a result of great impulsion from the hindquarters. The rider allows the horse to lengthen the frame with a controlled poll, and to gain ground. The fore feet should touch the ground on the spot towards which they are pointing. The movement of the fore and hind legs should reach equally forward in the moment of the extension. The whole movement should be well balanced and the transition to collected trot should be smoothly executed by taking more weight on the hindquarters.

#### 2.4.5 Lengthening of steps

In the national (EA) tests for Preliminary and Novice and the test for 4-year-old horses, 'lengthening of steps' is required. This is a variation between the working and medium trot in which a horse's training is not developed enough for medium trot.

*The trot is a pace in 2-beat rhythm with 4 phases - (Numbers in circles indicate the beat.)*

#### 2.4.6 Stretching on a long rein

- the 'stretching on a long rein' exercise gives a clear impression of the 'throughness' of the horse and proves its balance, suppleness, obedience and relaxation. In order to execute the exercise 'stretching on a long rein' correctly, the rider must lengthen the reins as the horse stretches gradually forward and downward
- as the neck stretches forward and downwards, the mouth should reach more or less to the horizontal line corresponding with the point of the shoulder
- an elastic and consistent contact with the rider's hands must be maintained
- the pace must maintain its rhythm, and the horse should remain light in the shoulders with the hind legs well engaged
- during the retake of the reins the horse must accept the contact without resistance in the mouth or poll

## 2.5 The canter

- a) the canter is a 3-beat pace where, in canter to the right, the footfalls are as follows: left hind, left diagonal (simultaneously left fore and right hind), right fore, followed by a moment of suspension with all four feet in the air before the next stride begins
- b) the canter should be moved into without hesitation, and always with light, cadenced and regular strides
- c) the quality of the canter is judged by the general impression, i.e. the regularity and lightness of the steps and the uphill tendency and cadence originating from the acceptance of the bridle with a supple poll and in the engagement of the hindquarters with an active hock action – and by the ability of maintaining the same rhythm and a natural balance, even after a transition from one canter to another. The horse should always remain straight on straight lines and correctly bent on curved lines
- d) the following canters are recognised: Working, Lengthened Strides, Collected, Medium, Extended and including Counter Canter, Simple Change of Leg and Flying Change of Leg.

*The canter is a pace in 3-beat rhythm with 6 phases - (Numbers in circles indicate the beat.)*

### 2.5.1 Working canter

The working canter is a pace between the collected and the medium canter, in which a horse's training is not yet developed enough and ready for collected movements. The horse shows natural balance while, remaining 'on the bit', and goes forward with even, light and active strides and good hock action. The expression 'good hock action' underlines the importance of an impulsion originating from the activity of the hindquarters.

### 2.5.2 Collected canter

In the collected canter the horse, remaining 'on the bit', moves forward with its neck raised and arched. The hocks, being well engaged, maintain an energetic impulsion, enabling the shoulders to move with greater mobility thus demonstrating complete self-carriage and an uphill tendency. The horse's strides are shorter than in the other canters, without losing elasticity and cadence.

### 2.5.3 Medium canter

The medium canter is a pace between working and extended canter. Without hurrying the horse goes forward with clearly lengthened strides and impulsion from the hindquarters. The rider allows the horse to carry the head a little more in front of the vertical than in the collected and working canter and at the same time allows him to lower the head and neck slightly. The strides should be balanced and unconstrained.

### 2.5.4 Extended canter

In the extended canter the horse covers as much ground as possible. Without hurrying, the strides are lengthened to the utmost. The horse remains calm, light and straight as a result of great impulsion from the hindquarters. The rider allows the horse to lengthen the frame with a controlled poll and to gain ground. The whole movement should be well balanced and the transitions to collected canter should be smoothly executed by taking more weight on the hindquarters.

### 2.5.5 Lengthening of strides

In the national (EA) Novice tests and the test for 4-year-olds, 'lengthening of strides' is required. This is a variation between the working and medium canter in which a horse's training is not developed enough for medium canter.

### 2.5.6 Counter-canter

The counter-canter is a balancing and straightening movement that must be executed in collection. The horse canters in correct sequence with the outside foreleg leading with positioning to the side of the leading leg. The foreleg should be aligned to the same track as the hind leg.

### 2.5.7 Simple change of leg at the canter

Simple change of leg at the canter is a movement which, after a direct transition out of the canter into a walk, with 3 to 5 clearly defined walk steps, a transition is made into the other canter lead.

### 2.5.8 Flying change of leg

- a) the flying change is performed in one stride with the front and hind legs changing at the same moment. The change of the leading front leg and hind leg takes place during the moment of suspension. The aids should be precise and unobtrusive
- b) the aim of the flying changes is to show the reaction, sensitivity and obedience of the horse to the aids for the change of leg
- c) flying changes of leg can also be executed in series, for instance at every 4th, 3rd, 2nd or at every stride
- d) the horse, even in the series of changes, remains light, calm and straight with lively impulsion, maintaining the same rhythm and balance throughout. In order not to restrict or restrain the lightness and fluency and groundcover of the flying changes of leg in series, enough impulsion must be maintained

### 2.5.9 Give and retake the reins in canter

Giving and retaking the reins is a test of self-carriage and whether or not the contact is correct.

In order to execute the exercise correctly, the rider moves his hands forward along the neck for the number of strides specified in the test, giving up the contact with the horse's mouth. The horse maintains the same position of head and neck throughout the exercise.

## 2.6 The rein back

- a) the rein back is a rearward diagonal movement with a two-beat rhythm but without a moment of suspension
- b) each diagonal pair of legs is raised and returned to the ground alternatively, with the forelegs aligned on the same track as the hind legs
- c) during the entire exercise, the horse, should remain 'on the bit', maintaining its desire to move forward.
- d) anticipation or precipitation of the movement, resistance to or evasion of the contact, deviation of the hindquarters from the straight line, spreading or inactive hind legs and dragging forefeet are serious faults
- e) the steps are counted as each foreleg moves back
- f) after completing the required number of steps backward, the horse should show a square halt, or move forward in the required pace immediately
- g) in tests where a rein back of one horse's length is required, it should be executed with 3 or 4 steps
- h) a rein back series (Schaukel or see-saw) is a combination of two rein backs with walk steps in between. It should be executed with fluent transitions and the required number of steps

## 2.7 The transitions

The changes of pace and variations within the paces should be exactly performed at the prescribed marker. The cadence (except in walk) should be maintained up to the moment when the pace or movement is changed or the horse halts. Transitions within the pace must be clearly defined whilst maintaining the same rhythm and cadence throughout. The horse should remain light in hand, calm and maintain a correct position. The same applies to transitions from one movement to another, for instance from the passage to the piaffe and vice-versa.

## 2.8 The half-halts

Every movement or transition should be invisibly prepared by barely perceptible half-halts. The half-halt is an almost simultaneous, coordinated action of the seat, the legs and the hand of the rider, with the object of increasing the attention and balance of the horse before the execution of the movements or transitions to lower and higher paces. In shifting slightly more weight onto the horse's hindquarters, the engagement of the hind legs and the balance on the haunches are improved for the benefit of the lightness of the forehand and the horse's balance as a whole.

## 2.9 Changes of directions

In changes of direction, the horse should adjust the bend of its body to the curvature of the line it follows, remaining supple and following the indications of the rider, without any resistance or change of pace, rhythm or speed. Changes of direction can be executed in the following ways:

- a) right angle turns including riding through the corner (one quarter of a volte of approx 6 m diameter)
- b) short and long diagonal
- c) half-voltes and half-circles, with changes of rein
- d) half-pirouettes and turn on the haunches
- e) serpentine loops
- f) counter changes of hand in zigzag\* where the horse should be straight for a moment before changing direction.

\* Zigzag: a movement containing more than two half-passes with changes of direction. [See rule 2.12.5](#)

## 2.10 Figures

The figures asked in dressage tests are the voltes, serpentines and the figures of eight.

### 2.10.1 Volte

The Volte is a circle of 6, 8 or 10 metres diameter. If larger than 10 metres it is a circle.

### 2.10.2 Serpentine

The serpentine with several loops touching the long side of the arena consists of half-circles connected by a straight line. When crossing the centre line the horse should be parallel to the short side (a). Depending on the size of the half-circles, the straight connection varies in length. Serpentine with one loop on the long side of the arena are executed with a 5 m or 10 m distance from the track (b). Serpentine around the centre line are executed between the quarter lines (c).

### 2.10.3 Figure of eight

This figure consists of two voltes or circles of equal size as prescribed in the test, joined at the centre of the eight. The rider should make the horse straight an instant before changing direction at the centre of the figure.

## 2.11 Leg-yielding

- a) the aim of leg-yielding is to demonstrate the suppleness and lateral responsiveness of the horse
- b) the exercise is performed in working trot
- c) the horse is almost straight, except for a slight flexion at the poll away from the direction in which it moves, so that the rider is just able to see the eyebrow and nostril on the inside
- d) the inside legs pass and cross in front of the outside legs
- e) leg-yielding should be included in the training of the horse before it is ready for collected work
- f) Later on, together with the more advanced shoulder -in movement, it is the best means of making a horse supple, loose and unconstrained for the benefit of the freedom, elasticity and regularity of its paces and the harmony, lightness and ease of its movements
- g) leg-yielding can be performed 'on the diagonal', in which case the horse should be as nearly as possible parallel to the long sides of the arena, although the forehand should be slightly in advance of the hindquarters. It can also be performed 'along the wall', in which case the horse should be at an angle of about 35 degrees to the direction in which they are moving

Leg yielding along the wall

Leg yielding on the diagonal

## 2.12 The lateral movements

- a) the main aim of lateral movements (except leg-yielding) is to develop and increase the engagement of the hindquarters and thereby also the collection
- b) in all lateral movements (i.e. shoulder-in, travers, renvers, half-pass) the horse is slightly bent and moves with the forehand and the quarters on different tracks
- c) the bend or flexion must never be exaggerated so that it impairs the rhythm, the balance and fluency of the movement
- d) in the lateral movements, the pace should remain free and regular, maintaining a constant impulsion, yet it must be supple, cadenced and balanced. The impulsion is often lost because of the rider's preoccupation with bending the horse and pushing it sideways

### 2.12.1 Shoulder-in

The shoulder-in exercise is performed in collected trot. The horse is ridden with a slight but uniform bend around the inside leg of the rider, maintaining engagement and cadence at a constant angle of approximately 30 degrees. The horse's inside foreleg passes and crosses in front of the outside foreleg; the inside hind leg steps forward under the horse's body weight following the same track of the outside fore leg, with the lowering of the inside hip. The horse is bent away from the direction from which it is moving (see Illustration 1).

### 2.12.2 Travers

- a) the aim of the travers is to show a fluent collected trot movement on a straight line and a correct bend. Front and hind legs are crossing, balance and cadence are maintained
- b) this exercise can be performed in collected trot or collected canter
- c) the horse is slightly bent around the inside leg of the rider but with a greater degree of bend than the shoulder-in
- d) a constant angle of approximately 35 degrees should be shown (from the front and from behind one sees 4 tracks)
- e) the forehand remains on the track and the quarters are moved inwards
- f) the horse's outside legs pass and cross in front of the inside legs. The horse is bent in the direction of movement
- g) to start the travers, the quarters must leave the track or, after a corner or circle, are not brought back onto the track
- h) at the end of the travers, the quarters are brought back on the track (without any counter-flexion of the poll/neck) as one would finish a circle (see illustration 2)

Shoulder in (illustration 1)

Travers (illustration 2)

### 2.12.3 Renvers

- a) the aim of renvers is to show a fluent, collected trot movement on a straight line with a greater degree of bend than in shoulder-in. The fore and hind legs cross, balance and cadence are maintained
- b) in the renvers the hindquarters remain on the track while the forehand is moved inward.
- c) this is the inverse movement in relation to travers
- d) to finish the renvers the forehand is aligned with the quarters on the track. Otherwise, the same principles and conditions that apply to travers are applicable as at renvers (see illustration 3)
- e) the horse is slightly bent around the leg of the rider
- f) the horse's outside legs pass and cross in front of the inside legs
- g) the horse is bent in the direction in whilst it is moving (see illustration 3)

#### 2.12.4 Half-pass

The half-pass is a variation of travers, executed on a diagonal line instead of along the wall. It can be performed in collected trot or collected canter.

- a) the aim of half-pass in trot is to show a fluent, collected trot movement on a diagonal line with a greater degree of bend than in shoulder-in
- b) in the half-pass the fore and hind legs cross, balance and cadence are maintained
- c) the aim of half-pass in canter is to both demonstrate and develop the collection and suppleness of the canter by moving fluently forwards and sideways without any loss of rhythm, balance or softness and submission to the bend
- d) the horse should be slightly bent in the direction in which it is moving and bent around the inside leg of the rider
- e) the horse should maintain the same cadence throughout the whole movement. In order to give more freedom and mobility to the shoulders, it is of great importance that the impulsion is maintained, especially the engagement of the inside hind leg
- f) in the half-pass the horse's body is nearly parallel to the long side of the arena with the forehand slightly in advance of the hindquarters (see illustration 4)

Renvers (illustration 3)

Half-Pass (illustration 4)

### 2.12.5 Counter changes of hand

This is a change of direction within half pass whether in trot or canter

- a) a single counter change is when the horse goes, for example, in half pass to the right and then changes direction and goes in half pass to the left (Diagram a below)
- b) two counter changes in trot or canter would mean that the horse goes for example to the right, to the left and then again to the right (Diagram b below)

In the Grand Prix, the zig zag in canter is 5 half passes either side of centre line which is 4 counter changes of hand.

## 2.13 The pirouette, the half-pirouette and turn on the haunches

### 2.13.1 Pirouette/Half-pirouette

The aim of the pirouette and half-pirouette in canter is to demonstrate the willingness of the horse to turn around the inside hind leg on a small radius, slightly bent in the direction of the turn while maintaining the activity and the clarity of the canter, the straightness and the balance before and after the figure, and clear canter strides during the turn. In the pirouette or half-pirouette in canter, the judges should be able to recognise a real canter stride although the feet of the diagonal – inside hind leg, outside front leg – are not touching the ground simultaneously.

- a) the pirouette is a turn of 360 degrees/180 degrees executed on 2 tracks, with a radius equal to the length of the horse and the forehand moving round the haunches
- b) pirouettes/half-pirouettes are usually carried out at collected walk or canter but can also be executed at piaffe
- c) in the pirouette/half-pirouette the fore feet and outside hind foot move round the inside hind foot. The inside hind leg describes a circle as small as possible
- d) at whatever pace the pirouette/half-pirouette is executed, the horse is slightly bent in the direction in which it is turning, remaining 'on the bit' with a light contact, turning smoothly around, maintaining sequence and timing of footfalls of that pace. The poll stays the highest point during the entire movement
- e) during pirouettes/half -pirouettes the horse should maintain its activity (walk also included) and never move backwards or sideways
- f) in executing the pirouette or the half-pirouette in canter, the rider should maintain lightness of the horse while accentuating the collection. The hindquarters are well engaged and lowered and show a good flexion of the joints. An integral part of the movement is the canter strides before and after the pirouette. The strides should show an increased activity and collection before the pirouette and the balance being maintained at the end of the pirouette
- g) the quality of pirouettes/half-pirouettes is judged according to the suppleness, lightness, cadence and regularity, and the precision and smoothness of the entrance and exit
- h) pirouettes/half-pirouettes at canter should be executed in 6 to 8 strides (full pirouette) and 3 to 4 strides (half-pirouette)

A full pirouette (illustration 5)

### 2.13.2 Half-pirouette in walk (180 degrees)

The half-pirouettes in walk (180 degrees) are executed out of collected walk with the collection being maintained throughout the exercise. When the horse exits the half-pirouette it returns to the initial track without crossing the hind legs.

A half pirouette (illustration 6)

### 2.13.3 Turn on the haunches from walk (180 degrees)

For younger horses that are still not able to show collected walk, the 'turn on the haunches' is an exercise to prepare the horse for collection. The 'turn on the haunches' is executed out of medium walk prepared by half halts to shorten the steps a little to improve the ability to bend the joints of the hindquarters. The horse does not halt before or after the turn. The 'turn on the haunches' can be executed on a larger radius (approx. 0.5 m) than the pirouette in walk, but the demands of the concerning rhythm, contact, activity and straightness are the same.

### 2.13.4 Turn on the haunches from halt to halt (180 degrees)

To maintain the forward tendency of the movement, 1 or 2 forward steps at the beginning of the turn are permitted. The same criteria apply as for the turn on the haunches from walk.

## 2.14 The passage

The passage is a measured, very collected, elevated and cadenced trot. The aim of passage is to demonstrate the highest degree of collection, cadence and suppleness in the trot.

- the passage is characterised by a pronounced engagement of the hindquarters, a more accentuated flexion of the knees and hocks, and the graceful elasticity of the movement. Each diagonal pair of feet is raised and returned to the ground alternately, with cadence and a prolonged suspension
- in principle, the height of the toe of the raised foreleg should be level with the middle of the cannon bone of the other foreleg. The toe of the raised hind leg should be slightly above the fetlock joint of the other hind leg
- the neck should be raised and gracefully arched with the poll as the highest point and the nose line close to the vertical. The horse should remain light, and soft 'on the bit' without altering the cadence. The impulsion remains lively and pronounced
- Irregular steps with the hind or front legs, swinging the forehand or the hindquarters from one side to the other as well as jerky movements of the forelegs or the hind legs or dragging the hind legs or double beat in the moment of suspension are serious faults

## 2.15 The piaffe

The piaffe is a highly collected, cadenced, elevated diagonal movement giving the impression of remaining in place. The aim of piaffe is to demonstrate the highest degree of collection while giving the impression of remaining in place.

- a) in the piaffe the horse's back is supple and elastic. The hindquarters are lowered; the haunches with active hocks are well engaged, giving great freedom, lightness and mobility to the shoulders and forehand. Each diagonal pair of legs is raised and returned to the ground alternately, with spring and an even cadence
- b) in principle, the height of the toe of the raised foreleg should be level with the middle of the cannon bone of the other supporting foreleg. The toe of the raised hind leg should reach just above the fetlock joint of the other supporting hind leg
- c) the neck should be raised and gracefully arched, with the poll as the highest point. The horse should remain 'on the bit' with a supple poll, maintaining a contact. The body of the horse should move in a supple, cadenced and harmonious movement
- d) piaffe must always be animated by a lively impulsion and characterised by perfect balance. While giving the impression of remaining in place there may be a visible inclination to advance, this being displayed by the horse's eager acceptance to move forward as soon as it is asked
- e) moving even slightly backwards, irregular or jerky steps with the hind or front legs, no clear diagonal steps, crossing either the fore or hind legs or swinging either the forehand or the hindquarters from one side to the other, getting wide behind or in front, moving too much forward or double-beat rhythm are all serious faults.

## 2.16 Impulsion

- a) impulsion is the term used to describe the transmission of an eager and energetic, yet controlled, propulsive energy generated from the hindquarters into the athletic movement of the horse. Its ultimate expression can be shown only through the horse's soft and swinging back guided by a gentle contact with the rider's hand
- b) speed, of itself, has little to do with impulsion; the result is more often a flattening of the paces. A visible characteristic is a more pronounced articulation of the hind leg, in a continuous rather than staccato action. The hock, as the hind foot leaves the ground, should first move forward rather than being pulled upwards, but certainly not backwards
- c) a prime ingredient of impulsion is the time the horse spends in the air rather than on the ground. Impulsion is, therefore, seen only in those paces that have a period of suspension
- d) impulsion is a precondition for a good collection in trot and canter
- e) if there is no impulsion, then there is nothing to collect

### 2.16.1 Submission

- a) fulfilling successfully the main requirements/movements of a dressage test is the main criterion for submission
- b) submission does not mean subordination, but an obedience revealing its presence by a constant attention, willingness and confidence in the whole behaviour of the horse, as well as by the harmony, lightness and ease that is displayed in the execution of the different movements
- c) the degree of submission is also demonstrated by the way the horse accepts the bit with light and soft contact and a supple poll. Resistance to, or evasion of, the rider's hand by being either 'above the bit' or 'behind the bit' demonstrates lack of submission. The main contact with the horse's mouth must be through the snaffle bit
- d) putting out the tongue, keeping it above the bit or drawing it up altogether, as well as grinding the teeth or agitation of the tail, are mostly signs of nervousness, tension or resistance on the part of the horse and must be taken into account by the judges in their marks for the movement concerned, as well as the collective mark for 'submission'
- e) the guiding thought for judges when considering submission is willingness; the horse understands what is being asked of it and is confident enough in the rider to react to the aids without fear or tension
- f) the horse's straightness, uphill tendency and balance enable it to stay in front of the rider's legs and go forward into an accepting and self-carrying contact with the bit. This is what really produces the picture of harmony and lightness

## 2.17 The collection

- a) the aim of the collection is to:
  - further develop and improve the balance and equilibrium of the horse, which has been more or less displaced by the additional weight of the rider
  - develop and increase the horse's ability to lower and engage its hindquarters for the benefit of the lightness and mobility of its forehand
  - add to the 'ease and carriage' of the horse and to make it more pleasurable to ride
- b) collection is characterised by the 'ease and carriage' of the horse, as well as a lively impulsion, originating from the activity of the hindquarters
- c) collection is developed through the use of half halts and the use of the lateral movements shoulder-in, travers, renvers and half-pass
- d) collection is improved and achieved by the use the seat and legs and containing hands to engage the hind legs. The joints bend and are supple so that the hind legs can step forward under the horse's body
- e) however, the hind legs should not be engaged so far forward under the horse that they shorten the base of support excessively, thereby impeding the movement. In such a case, the line of the back would be lengthened and raised too much in relation to the supporting base of the legs, the stability would be impaired and the horse would have difficulty in finding a harmonious and correct balance
- f) on the other hand, a horse with an over-long base of support, which is unable or unwilling to engage its hind legs forward under its body, will never achieve acceptable collection
- g) the position of the head and neck of a horse at the collected paces is naturally dependent on the stage of training and, to some degree, on its conformation. It is distinguished by the neck being raised without restraint, forming a harmonious curve from the withers to the poll, with the poll being the highest point, and the nose slightly in front of the vertical
- h) at the moment the rider applies his aids to obtain a momentary and passing collecting effect, the head may become more or less vertical
- i) the arch of the neck is directly related to the degree of collection

Illustration of collection

## 2.18 The position and aids of the rider

- a) all the movements should be obtained with imperceptible aids and without apparent effort of the rider. The rider should be well balanced, elastic, sitting deep in the centre of the saddle, smoothly absorbing the movement of the horse with their loins and hips, supple thighs with the legs steady and stretched well down. The heels should be the lowest point. The upper part of the body should be tall and supple. The contact should be independent from the rider's seat. The hands should be carried steadily close together, with the thumb as the highest point and a straight line from the supple elbow through the hand to the horse's mouth. The elbows should be close to the body. All of these criteria enable the rider to follow the movements of the horse smoothly and freely
- b) the effectiveness of the rider's aids determine the precise fulfilment of the required movements of the tests
- c) there shall always be the impression of harmonious cooperation between horse and rider.
- d) riding with both hands is obligatory in tests. Apart from the halt and salute, where the rider must take the reins in one hand, a discreet 'pat on the neck' for a well performed exercise, or for reassurance, is perfectly acceptable (as is the situation of a rider needing to wipe a fly from their eye, or other situations such as adjusting clothing, saddle pads etc)
- e) however, if the rider intentionally takes the reins into one hand in order to use either the reins or the other hand to produce more impulsion from the horse, or to promote applause from the spectators during the test, it will be considered a serious fault and will be reflected in the mark for both the movement and the collective mark for 'Rider'
- f) riding with reins in one hand is permitted, however, in the Freestyle tests
- g) when leaving the arena at a walk on a long rein after having finished the test, the rider may, at their own discretion, ride with only one hand

### 2.18.1 Use of voice

The use of the voice or clicking the tongue repeatedly as an aid is a serious fault, which will incur a penalty as per [3.16](#)

## SECTION 3

## DRESSAGE EVENTS

### 3.1 Approval of Official events

Application for permission to hold an Official dressage event or competition, including any Competitive and/or Participation dressage event, must be made in writing to the EA State Branch or SDA.

### 3.2 Competitions

In regards to holding Official competitions:

- a) only the current Official EA tests may be used
- b) only current accredited judges are eligible to officiate at Competitive and Participation competitions
- c) there is to be a maximum of 35 horses per competition

### 3.3 Statement of liability

The following disclaimer must be printed on entry forms, schedules and programs:

‘Neither the Organising Committee of any competition to which these rules apply, or the EA, accepts any liability for any accident, damage, injury or illness to horses, owners, riders, grounds, spectators or any other person or property whatsoever.’

### 3.4 Timing of the draw

- a) it is strongly recommended to allow 60 to 90 minutes between tests for the same horse, and at least 90 minutes at the FEI levels as these are more strenuous tests
- b) where a rider has more than one horse in a competition, 90 minutes should be timetabled between rides to allow rider to go from one horse to the other; however riders may opt for less on the day of event
- c) combinations should be listed in random order on the draw, the same combinations should not follow each other in draws if possible
- d) every effort should be made to not have the same combination drawn first in more than one test at any one event

### 3.5 Conducting same test for different categories

When organising the range of tests to be offered:

- a) if the same test is offered for more than one category, as for example in Competitive and Participation competitions, or horse and pony competitions, each entire competition must be judged separately
- b) each category may be conducted consecutively

### 3.6 Arena requirements

Arenas should be set out to the dimensions shown in the diagram in [Annex A](#). The arena(s):

- a) should be level and separated from the public (including photographers and video operators) by a distance all round of 15 metres if possible but at least 10 metres
- b) must consist of a low continuous surround/fence about 0.3 metres high
- c) are to be placed at least 10 metres apart, preferably 15 metres if room permits
- d) should be positioned where judges are not facing the sun
- e) the letters placed around the arena should be clearly visible and be placed approximately 0.5 metres outside the arena fence
- f) the centre line must have the letter A placed in line (not offset) with C at least 10 metres (preferably 15 metres) back from the arena to allow horses a straight track to enter the arena. The width of the entrance must be at least 2 metres and not greater than 4 metres

- g) should include a marker on the continuous arena surround/fence, level with, and in addition to, the letter concerned

The following are not permitted in the construction of an arena:

- h) stakes which are driven into the ground
- i) unbreakable rope
- j) unbreakable chain
- k) unbreakable tape
- l) line marking or rope on the ground
- m) thin poles on the ground (e.g. jumping rails)

### **3.7 Entering the arena (See Annex D Arena Familiarisation)**

Riders and event organisers must be aware of the following:

- a) when presenting to the judge before a test, riders do not have to stop and report to the judge but must make sure the judge has clearly seen their Horse Identification Number
- b) for competitions where it is not practical or safe to ride around the outside of the arena prior to entering, the rider is permitted to enter the arena as soon as the previous rider has exited and before the bell is sounded. After the bell has sounded the new rider starts the test from within the arena
- c) under special circumstances and conditions, the OC may also permit riders to ride within an outdoor arena
- d) for outdoor competitions, if the area surrounding the competition arena is unsuitable for riding on, then the Chief Judge, in consultation with the OC, will make a decision as to whether it is permitted to allow the competitors to enter the arena and complete one lap each way prior to commencing their test. Such a decision must be announced at least 30 minutes prior to the commencement of the competition. Once the bell has been rung the competitor is required to come down the centre line at A (via the shortest route) and judging commences once the rider is on the centre line
- e) after the bell has sounded, the competitor must enter the arena at A as soon as possible
- f) failure to enter the arena within 45 seconds of the bell being sounding will entail a technical fault of 0.5% per judge. Should a rider continue and not enter within a further 45 seconds they will be eliminated
- g) entering the arena at A before the bell signal has been given may entail a technical fault of 0.5% from each judge
- h) judging commences with the rider's entry at A
- i) judging is not influenced by any actions of the competitor prior to their entrance at A
- j) at the first halt and final halt competitors must take the reins in one hand to salute. Failure to salute will entail a technical fault of 0.5% from each judge
- k) a whip may be held in either hand at the salute
- l) judging ceases when the horse moves forward from the final salute
- m) after the final salute the competitor should leave the arena in walk on a long rein at A
- n) the competitor must be mounted on leaving the arena at A
- o) if the entry at A is open for the first horse of a competition then it must remain open for the rest of the competition

### 3.8 Dismounting/Fall during test

In regards to dismounting or falling during a test:

- a) riders must be mounted on entering and leaving the arena on penalty of elimination. Refer to 3.8e for an exception for a fall after the final salute
- b) if a rider dismounts after entering the arena without a reason acceptable to the judge, no marks will be given to the movement. A dropped whip, hat, spectacles, etc, may be handed to a rider. However, in the case of a dropped whip it is preferable this is done at the end of the test when the rider has left the arena
- c) any fall of the horse and/or rider between the entry at A and the end of the test at the final salute, will entail elimination from that test, and the rider may not remount to leave the arena
- d) if a rider dismounts after the final halt and salute without a reason acceptable to the judge this will entail elimination
- e) if there is a fall of horse and/or rider after the final halt and salute this will not entail elimination and the rider may not remount to leave the arena
- f) before the horse and rider may continue at the event, the Chief Judge or representative of the OC
  - must send the rider to the designated first aid official for assessment of injury. Refer to [rule 3.23](#) and the EA Concussion Policy
  - may send the horse to be assessed for injury by a vet or horse welfare officer

### 3.9 Test time

With the exception of Freestyles, dressage tests are not timed. The times printed on the test sheets are to be used only as a guide.

### 3.10 Resistance/Disobedience

In regards to a horse showing resistance or disobedience the following will apply:

- a) any resistance which prevents the continuation of the test for a period exceeding 20 seconds shall be penalised by elimination. This also applies to any resistance before entering the dressage arena and within the arena surrounds. However, resistance that may endanger rider, horse, judges or the public will be eliminated for safety reasons earlier than 20 seconds. There is no appeal against this decision
- b) a horse leaving the arena with all four feet during a test between the beginning and the end of the test will be eliminated (except in 4-year-old Young Horse competitions at State qualifying events where there is minus 0.5% per judge, see [rule 9.1](#))
- c) should a horse leave the arena with all four feet after the final halt and salute this will not entail elimination

### 3.11 Unauthorised assistance

Any intentional outside intervention is considered assistance to a rider or horse and is penalised by elimination. This includes but is not limited to:

- a) assistance by voice, signs, etc
- b) where background music is provided by organisers riders are not permitted to request specific music, or music at specific times
- c) any assistance to get the horse into the dressage arena or the area directly around the arena including being led by another horse around the arena
- d) mounted riders may have their horse attached to a lead line when at walk when proceeding to or from the warm up area or competition area but not in or around the competition arena. This will be considered outside assistance and will entail elimination
- e) not applicable for riders with exemption cards. Refer to [rule 5.18](#)

### 3.12 Movement and access of horses at competition grounds

#### 3.12.1 Access to competition grounds

Horses that are not entered in the event are permitted on the grounds at the discretion of the OC.

#### 3.12.2 Riding in competition, warm-up and exercise areas – refer to [Annex D](#)

- a) competition rules apply once a competitor arrives at the event venue
- b) access to arenas for the purpose of familiarisation is recommended. Access to competition arenas is at the discretion of the Chief Judge for the competition or the OC. Riding in or entering the competition arena without permission will entail elimination
- c) the above rule applies also when competition arena(s) are erected on the day(s) preceding an event
- d) where an arena is a permanent fixture this rule applies from the time the OC has deemed it to be a competition arena and this time should be publicly advertised
- e) from twenty-four hours prior to the event starting, a horse may be ridden only by its nominated rider on the competition grounds. However, a groom may walk the horse on a long rein only. Grooms when riding must wear approved footwear (smooth sole with heel) and approved safety helmet with chin strap done up
- f) all competitors are to be given equal warm-up time around the competition arena. Therefore, riders are not to enter the area around the competition arena until their start time
- g) only horses entered in the event are permitted to use the warm-up area
- h) any horse on the grounds that is not entered in the event is not permitted in the warm-up area (either ridden or led) until after the completion of competitions for that day
- i) riders may not be led when mounted in the warmup area. Horses can be led into and out of the warmup arena but once in the warmup arena the groom is to take the horse off the lead line
- j) a maximum duration of pre-competition warm-up or training of one hour is the standard; riders require permission from the Chief Steward (which will be granted only in exceptional circumstances) to extend a training session beyond one hour. The warm-up or training session must include relaxation periods, they do not include walking on a loose rein, to or from stables, or for exercise prior to or post warmup.

Riders are also reminded that post-test repetition of movements may not exceed 10 minutes

NOTE: Chief Steward in consultation with OC may reduce maximum duration due to welfare of horse e.g., extreme weather conditions.

#### 3.12.3 Lungeing in warm up and exercise areas:

Wherever possible a designated area should be set aside for lungeing. Non-compliance with lungeing in a designated area or with non-permitted equipment will entail elimination. Ideally organizing committees should provide a clearly marked and designated lungeing area, preferably enclosed so there is no risk of an escaping horse.

- a) lungeing by someone other than the nominated rider is permitted
- b) work in-hand by someone other than the nominated rider is not permitted
- c) wherever possible a designated area should be set aside for lungeing
- d) non-compliance with lungeing in a designated area will entail elimination
- e) the lungeing of a rider mounted in the saddle is not permitted anywhere at the event

Also see [5.13 Lungeing equipment](#)

### 3.13 Scale of marks

Under both EA and FEI rules, the scale of marks is as follows:

10 – excellent	5 – marginal (EA) (sufficient – FEI)
9 – very good	4 – insufficient
8 – good	3 – fairly bad
7 – fairly good	2 – bad
6 – satisfactory	1 – very bad
0 – not executed (means practically nothing was performed)	

- all half marks from 0.5 to 9.5 may also be used both for movements and collective marks, at the discretion of the judge – this also includes freestyle competitions
- whole marks should be written as 6.0, 7.0, 8.0, etc
- in freestyle tests 0.1 decimals may be used for the artistic marks

### 3.14 Called tests

In regards to a test being called:

- tests may not be called
  - at any level above Advanced at any event
  - in any competition where the Conditions of Entry excludes it
  - at any FEI-sanctioned competition (e.g. CDI-W)
- where callers are permitted, it is the responsibility of the competitor to ensure that only the printed text, or extracts thereof, is read out and that no other form of assistance is given
- the caller may read each movement once or twice only. Failure to observe this rule may entail elimination

### 3.15 Execution of tests

All movements contained in tests must be:

- executed in the order laid down by the test sheet
- carried out at the specified point in the arena

In a movement that must be carried out at a certain point or letter of the arena, it should be done at the moment when the competitor's body is above this point or letter. In transitions where the horse approaches the letter from a diagonal or perpendicular to the point on track where the letters are positioned, the transitions must be done when the horse's nose reaches the track at the letter so that the horse is straight in the transition.

#### 3.15.1 Holding the reins

Riding with the reins in both hands is compulsory in all Dressage competitions – deduction from marks -2 per judge. The exceptions to this rule are:

- leaving the arena after the final salute
- during a Freestyle test as part of the degree of difficulty
- a discreet 'pat on the neck' for a well performed exercise, or for reassurance, is perfectly acceptable (as is the situation of a rider needing to wipe a fly from their eye, or other situations such as adjusting clothing, saddle pads etc)

If the rider intentionally takes the reins into one hand to use either the reins or the other hand to produce more impulsion from the horse, or to promote applause from the spectators during the test, it will be considered a fault and will be reflected in the mark for both the movement and the collective mark.

In the competition arena, under no circumstances is a rider to take the reins in one hand, whip in the other and use it on the horse – such action will entail elimination.

### 3.16 Use of voice

The use of the voice or clicking the tongue as an aid by the rider repeatedly is a serious fault, which will be penalised by the judge/s who hear it with a deduction of 2 marks from the mark that would otherwise have been awarded for the movement.

NOTE: The use of voice is permitted in some cases in Para-Equestrian Dressage as an aid. See [Section 11](#) for more details.

### 3.17 Penalties, Technical Faults and Errors of Course

Technical faults will incur a 0.5% deduction from the final percentage mark as per [Annex E](#). The deduction is from each judge and all judges must have the same number of penalties recorded.

Error of Course, whether the bell is sounded or not, must be penalised and is cumulative. The penalties for an error of course are as follows:

*EA level tests (up to Advanced)*

- the first by -2 marks
- the second by -4 additional marks
- the third by elimination

*FEI level tests*

Senior, U25 and Young Rider

- first error - 2% from total score
- second error – elimination

*Young Horse, FEI Children, Pony and Junior and Para*

- first error - 0.5% from total score
- second error - 1% from total score
- third error - elimination

- a) if the bell is not sounded when an error of course is made, and the test requires the same movement to be repeated and the error is made again, the rider is only penalised once. The Chief Judge must be aware of the effect of one movement on the next and where mirror images occur, in order to be prompt in notifying the competitor
- b) if eliminated, if time permits and the type of event or competition is appropriate, the Chief Judge may invite the rider to continue the test to the end with the marks being awarded in the ordinary way. In such a case it is not necessary for the collective marks to be completed
- c) the use of the rider's voice, referred to in [rule 3.16](#), is not an Error of Course
- d) it is not always necessary for a judge to ring the bell for an error of course. Below are instances that will and will not require the sounding of the bell. However, not all cases can be quoted and it is the Chief Judge who will decide to sound the bell. In deciding not to ring the bell the judge must consider the effect this will have on the rest of the test

The Chief Judge WILL ring the bell:	The Chief Judge need NOT ring the bell:
• when the rider enters the arena at the incorrect gait	• when the final halt is at X instead of G or vice versa
• when the rider turns right instead of left or vice versa	• when the rider makes a transition not clearly at the marker
• when the rider omits a movement	• cantering up the centre line from A, the rider makes a pirouette at D instead of at L
• when a movement is the first of a mirror image and the competitor rides rising trot instead of sitting trot and vice versa and/or an incorrect circle size	• the rider does rising trot instead of sitting trot or vice versa in a non-mirrored movement

- e) if the Chief Judge does ring the bell, they should show the rider the point at which they are to re-take the test, which could be a movement prior to where the error occurred. Judging will re-commence when the rider reaches the point where the error of course occurred
- f) in principle, a rider is not permitted to repeat a movement of the test unless the Chief Judge decides on it being an error of course (rings the bell)
- g) however, if the rider has started the execution of a movement and attempts to do the same movement again, the judges must consider only the first movement shown and at the same time penalise for an Error of Course
- h) each judge must have the same number of errors marked on their sheets with a notation explaining where the error was made. The Chief Judge must make the final decision as to the number of errors if there is a discrepancy
- i) if the judges have not noted an error, the competitor has the benefit of the doubt

NOTE– Errors of course are to be deducted from the total score from the test sheet of each judge

#### 3.17.1 Other technical faults with penalties – refer to Annex E

All of the following are considered technical faults and 0.5% will be deducted for each one, and this is applied each time a technical fault occurs but will not result in elimination. (including for Freestyle tests):

- a) a rider entering the space around the arena with whip (where not permitted) or riding in a dressage arena with a whip (when not permitted) or with boots on the horse's legs or with discrepancy in dress (e.g. lack of gloves). See [rule 5.6\(e\)](#) for whip penalties at FEI events and Australian and State Championships and [9.1.2\(f\)](#) for Young Horse.
- b) if the test has already started before the above discrepancies have been noticed, the Judge at C stops the rider and, if needed and where possible, an assistant may enter the arena to remove the item(s). The rider then continues the test, either starting from the beginning (from the inside of the fence) or from the movement where they were stopped. The marks given before they were stopped are not changed
- c) a rider entering the arena before the sound of the bell
- d) a rider not entering the arena within 45 seconds after the bell
- e) a rider not saluting at either the first or last halt
- f) a rider not taking reins in one hand at the salute
- g) in Freestyle tests, a rider not giving the signal to start music within 45 seconds, entering the arena after more than 30 seconds of music
- h) if the Freestyle test is longer or shorter than stipulated on the test sheet 0.5% will be deducted from the total artistic score

### 3.18 Lameness

In the instance of lameness displayed by the horse riders and judges please note:

- a) in the case of marked lameness, the Judge at C informs the competitor that they are eliminated
- b) there is no appeal against this decision
- c) a horse that has been eliminated in a competition for lameness cannot compete in any further tests on the day unless it has been deemed fit to compete (in writing) after an examination by a veterinarian approved by the OC. A copy of the examination report is to be delivered to the OC

### 3.19 Awards and placings

Awards are made to place getters, irrespective of percentage received. The following is a guide:

- a) up to 5 starters, ribbons to 3rd place
  - b) up to 15 starters, ribbons to 5th place
  - c) more than 15 starters, ribbons to 8th place
  - d) in case of equality of percentage for any of the first three places, the higher total of the collective mark/s, including coefficients, will decide on the placings.
  - e) should there still be a tie, the rider score will be the final decider
  - f) when there is equality of places from fourth place and below, the competitors are joint equal place getters
- In the following cases, places will be determined as follows:
- g) in the case of equality of marks for first place in a Freestyle test, the combination with the higher mark, including coefficients for artistic presentation, will be the winner. If there is still equality, then they are equal winners
  - h) for the purpose of a one-off trophy or point-score award, if a clear winner is required, one of the following criteria should be decided upon and included in the Conditions of Entry:
    - total the collective marks of each tied competitor. The one with the highest total collective marks is the winner
    - if two tests are involved, the award should be to the competitor with the highest score in the highest test involved
  - i) For the purpose of deciding a Champion at a level (between two or more tests), points shall be allocated to each horse according to their placing in each competition; first placed horses will be allocated 35 points, second 34 points and so on until the last placed horse. In case of a tie for any placing in a competition, each horse will receive the same points (e.g. equal 6th placed horses each receive 30 points). Only horses who competed in all tests are eligible for Champion. The Champion is the horse with the highest combined points.
    - Ties: In the case of a tie in championship points, the horse with the higher aggregate percentage will have the better placing. If still tied, the horse with the higher percentage in the highest competition in the Championship will have the better placing.

### 3.20 Prize money

In regards to the offer and payment of prize money or goods in kind in competitions. Prize money referred to in these rules can be replaced with goods in kind to an equivalent value:

- a) all prize money and prizes are made to the owner/s of the horse/pony. It is the responsibility of the owner to ensure the correct banking details for prize money are provided at the time of entry.
- b) in the following Official events, if an entry fee is charged, then prize money or goods in kind to the value of the prize money must be given as per rule c)
  - Australian Championships
  - State Championships
- c) prize money/goods in kind to be allocated on the basis of 1 for every 5 starters e.g. 35 starters, prize money/goods in kind to at least 7th place with 3rd place being no less than the entry fee.
- d) If less than five starters, the prize money is at the discretion of the OC and details must be included in the schedule.
- e) first prize must not exceed one third of the total value of the prize money, except for special competitions as defined in the schedule.
- f) at all other events the payment and value of prize to be paid is at the discretion of the OC and:
  - the details regarding number of prizes is at the discretion of the OC
  - the payment of prize money/goods in kind to horses and ponies may be different

## 4.5 Youth events

Competitions and activities for riders aged 10–21 years on horses (from 8 years for pony riders) are generally known in Australia as ‘youth’ events. Young Rider, however, is a specific age category of FEI Competition. Other FEI categories include Children, Juniors, and Pony Riders.

Youth events may be offered at any level of competitive dressage

See table below for age groups for FEI youth tests at EA national and FEI competitions.

- b) Participation competitions using EA tests from Preparatory to Novice level (including Freestyles)
- c) In addition, EA Para Dressage tests and FEI Para-Equestrian-level tests may be used in participation competitions (including Freestyles). See [Section 11](#) Para-Equestrian dressage for further detail

### 4.6.1 Amateur Owner Rider (AOR)

Amateur Owner Rider (AOR) is a division of Official Competitive riders. The intent of the division is to highlight and reward non-professional riders. For the purposes of this rule, a professional is someone who derives an income from activities in equestrian sport including breaking, training, coaching or riding horses. It does not however exclude riders who may also earn a living running an agistment property, work in the racing industry or saddlery for example. It is more about recognising riders with their own horses only to ride and train who are obliged to earn an income to support their sport outside of riding and training. All amateur owner riders must meet the following criteria:

- a) the rider must be a Competitive member of their state branch of Equestrian Australia
- b) the horse must have a life registration with Equestrian Australia
- c) the horse/pony registration lodged with Equestrian Australia must reflect the name of the amateur

- owner rider as owner or part-owner of the horse. Leased horses are eligible if the amateur owner rider competitor is reflected as the lessee on the EA horse registration of that horse
- d) the rider may not receive payment for activities in equestrian sport including breaking, training, coaching and riding horses
  - e) the rider's income may only include sponsorship
  - f) the horse/pony must be primarily ridden and trained by the rider/owner with only periodic ridden assistance by person(s) other than the owner. This specifically includes the period 4 weeks up to and including the event
  - g) the rider must be aged 21 and over – can enter in the calendar year in which they turn 21
  - h) the division is for Official Competitive competitions. The Organising Committees may run this division at any level (ideally at all levels Preliminary - GP) and it can be run either within the competition or separately
  - i) Organising Committees must designate the AOR on the draw if there is a separate competition conducted within the one competition
  - j) for a State/Regional/Club Leader Board it would be ideal to select several events at which scores will count towards the annual Leader Board
  - k) if the OC receives evidence that the rider is in breach of these rules then this rider will forfeit any awards and prizes

#### **4.7 Types of competitions at Restricted events**

Clubs affiliated with their EA State Branch may hold restricted events:

- a) competitions may include any level of EA test from Preparatory to Grand Prix and Para-Equestrian, but are restricted to the conducting club's members only
- b) competition may also include club activities for club members against invited EA members to a maximum level of Participation competition up to and including the current Novice tests and all Para-Equestrian tests
- c) EA Dressage Rules apply to these events as per General Regulations Art 100

#### **4.8 Conditions of Entry for horses and ponies for all levels of Competitive and Participation competition**

- a) the Condition of Entry rules must be adhered to otherwise the entry may be declined by the OC or the combination eliminated if there is a protest. All Official events and Official competitions, whether Competitive or Participation, are conducted under EA rules. They are sponsored by, or run on behalf of EA. Please refer to the EA General Regulations for membership requirements for Official competitions
- b) it is an offence under the EA Disciplinary By-Law for a rider to compete a horse/pony below its graded level
- c) to promote development, all Official EA events/competitions (including FEI-level competitions) are open to both horses and ponies. The exceptions to this are the Australian Dressage Championships. State Dressage Championships and Australian and State Pony Championships. Exceptions for Young and Junior rider competitions are to be approved by EADC
- d) in Official Competitive and Participation competitions any pony entries received may compete in any order in the competition
- e) separate prizes may be awarded for horses and ponies. It is strongly recommended that if there are three ponies or more in a competition, that the ponies are awarded prizes separately
- f) organisers may still schedule and advertise separate pony competitions, particularly if a test is expected to be oversubscribed, or anticipate sufficient entries in a test from both ponies and horses (i.e. up to 35 of each) which is too many to be judged by the same judge in a single day
- g) if Para-Equestrian riders are included in an Official competition but regarded as a separate competition, then they should be grouped together at the beginning or at the end of the draw (e.g. Grade 4 and Grade 5)

##### **4.8.1 Requirements for horses and ponies for Official Competitive competitions**

## SECTION 6 ROLE OF OFFICIALS

All situations cannot be foreseen and in any exceptional circumstances it is the duty of the Ground Jury or the appropriate official(s) to make a decision in a sporting spirit adhering as closely as possible to the intent of these rules. All officials must abide by the Equestrian Australian Code of Conduct for Officials. Any official is authorised to:

- intervene in order to prevent any abuse of horses by riders, grooms, owners or any other person
- intervene in order to prevent any contravention of the common principles of behaviour, fairness and accepted standards of sportsmanship

### 6.1 Ground Jury

The Ground Jury consists of all the judges at the event.

The Ground Jury:

- a) must be drawn from the current list
- b) may include suitably accredited visiting overseas judges
- c) It is recommended that a President of the Ground Jury be appointed each day at an event. The President of the Ground Jury should be:
  - the judge positioned at C for the highest-level competition during the event.
  - appointed by the OC prior to the start of the event and preferably noted on the draw.
  - named each day of the event but may not necessarily be the same person.
  - available from the start of the day to the end of the day or, if this is not possible, for the first half or second half of each day at an event

#### 6.1.1 Responsibilities of the Ground Jury:

- a) the technical judging of all individual and team competitions
- b) the allocation and verification of final placings in a competition
- c) settling all technical problems (in consultation with the appointed President of the Ground Jury) that may arise during the course of the event that come under their jurisdiction within the Field of Play.
- d) referring any written protests received for 'Horse Abuse' to the OC (refer [1.3.1](#))
- e) referring any technicalities or matters that are beyond the Ground Jury's jurisdiction to the President of the Ground Jury, Chief Steward, or TD, if appointed at the event in question
- f) If a TD is not appointed, the President of the Ground Jury may act in the capacity of the TD to settle any issues that may arise within the Field of Play and the whole grounds during the event. This should be carried out in consultation with the Chief Steward, as appropriate.

The President of the Ground Jury also:

- has the authority to issue a Recorded Warning ([1.6.3](#))
  - may refer any incident, which is beyond their jurisdiction, to the OC in the form of a written protest
- g) the Chief Judge/TD/person authorised by OC should approve and sign off the results noting the time of official posting.
  - h) all members of a Ground Jury must remain at the event for at least 30 minutes after the official placings have been posted for the competitions they have judged
  - i) the members of the Ground Jury must not consider any unofficial advice or observations from persons who are not members of the Ground Jury, or anything they know beforehand of the competitors or their horses

## 6.2 Technical Delegate (TD)

Refer to [Annex I](#) – Payment for Officials – for the current per diem

A TD shall be appointed by the EADC, on recommendation by the relevant OC for Australian Championships, and by the SDA for all State Championships. A TD may be appointed for all other levels of competition. The TD represents Equestrian Australia and is accountable to the relevant authority which appointed them. Travel, accommodation and out-of-pocket expenses shall be borne by the OC.

The TD must be in regular contact with the OC during the lead up to the event. They advise the OC in relation to the rules for the relevant event. The TD should be independent from the OC and should ideally not be a judge or steward at the event. In particular, the TD shall be responsible for compliance with all applicable rules and regulations as well as the FEI code of Conduct, and as such, shall have a good knowledge of EA and the current EA and FEI Dressage Rules, General Regulations and Statutes.

Prior to the event, the TD shall liaise with the OC on the following :

- a) Approve all relevant administrative arrangements for the event from the time of appointment (no later than six [6] weeks prior to the event), until the completion of the event.
- b) Review the schedule after approval by the relevant authority but before it is published.
- c) Work with the OC to ensure that the grounds and arenas are satisfactory for the relevant standards of competition, and that the technical aspects of the event (such as time tabling, assignment of Officials, arena maintenance and dressing etc) are correct, and/or will be attended to in a timely manner.
- d) That Medical Services are available as required by the Rules and Regulations.

During the event, the TD shall:

- a) Arrive in good time on each day before the commencement of competition to ensure that all warm-up, competition arenas, stable areas etc are satisfactory, and that the Judges, Stewards, Scorers and other officials (including medical, veterinarian etc) are appropriately in place.
- b) Work closely with the OC, Chief Steward, and President of the Ground Jury to ensure all aspects of the event progress smoothly and address any issues.
- c) The TD shall provide guidance to the Chief Judge of a competition on matters which are in the jurisdiction of the Ground Jury for that competition.
- d) Approve final results in instances where the Chief Judge is not available.

After the event, the TD shall:

- a) Confirm with the OC that the results are provided to EA, as required, within seven (7) days of the completion of the event.
- b) Provide a written report (report forms are available on the EA website) to the SDA or EADC as appropriate, and provide a copy to the OC. The report must be furnished within 21 days of the completion of the event.

### 6.3 Chef d'Equipe

Where State or Australian teams are entered, a Chef d'Equipe must be appointed. This is compulsory for Australian Championships, Youth Championships, Pony Championships and State Championships.

The Chef d'Equipe is not permitted to fulfil any other official's role. Only the Chef d'Equipe may lodge a protest on behalf of the team or a team member.

The Chef d'Equipe is responsible for:

- a) managing the selected team of riders representing their state or nation
- b) confirming stabling, accommodation and travel arrangements of riders
- c) managing the communication with the travelling squad prior to arrival at the competition venue
- d) arranging a meeting of squad members to inform them of the Chef's responsibilities distributing the team uniform if applicable
- e) attending Chef d'Equipe meetings before and during the event, and conveying relevant information to riders and their appropriate coaches
- f) declaring details of the team in writing to the OC within the prescribed timeframe
- g) collection and return of Freestyle CDs (or tapes)
- h) ensuring the riders are aware of any changes in the official draw and anticipated delays in competition arenas
- i) providing a written report within 21 days to the EADC or SDA
- j) all communication with the OC, including protests on behalf of the team

## 6.4 Stewards

A steward is a trained, accredited EA or FEI official.

All official competitive events must have a minimum of one Level 1 Nationally accredited dressage steward or higher-level Steward appointed. For larger events the number of stewards appointed should be appropriate to the number of competition and warm up areas in use in accordance with recommendations from the appointed Chief Steward.

If this is not possible, the OC can apply to the EADC at least 30 days prior to commencement of each event to use a National Candidate Steward, until 31 December 2024. The National Candidate Steward will then assume the duties of a Steward for that event only.

The following categories of accredited Stewards exist:

- a) Steward General Australia Dressage
- b) FEI Stewards (levels 1,2,3 & 4) - 4 is the highest level
- c) Nationally accredited Stewards Level 1 & 2 (2 is highest)

The following additional categories of non-accredited assistants exist:

- d) national candidate stewards may carry out all steward duties under the supervision of an accredited steward
- e) approved representative/s of the Steward (Marshals) may also be appointed to attend the gear check area at events to assist the appointed steward
- f) See [rule 7.9](#) for Out of Pocket expenses of appointed Accredited Stewards. Refer to [Annex I](#) – Out of Pocket Expense Payments for Officials - for the current per diem.

### 6.4.1 Steward's Responsibilities

The purpose of Stewarding is:

- To protect the welfare of the horse and ensure fair play;
- To assist in making events run safely;
- To support the Organising Committee (OC) in the successful running of the event, in line with the EA rules and regulations.

At the Gear Check Area: A trained Steward is responsible for:

- a) ensuring every consideration is given to avoid disturbing the harmony of the horse and rider
- b) checking each competitor off the draw
- c) assisting the ground jury by checking competition arenas set-up, safety, surface
- d) communicating with the Organising Committee
- e) guiding the rider on the legality of the saddlery, equipment and dress referred to in Section 5 and the current equipment annex
- f) checking the gear of each competitor for each test immediately after the test is completed
- g) ensuring that if the bit/bridle is in question, a bit check should be undertaken, illegal bits will entail elimination by the C Judge.
  - if bit inspection requires the removal of the bridle, a head collar/halter must be made available for this purpose or the horse can be taken to a safer environment such as a stable
  - any removal of equipment must be done by the rider or their agent
- h) consulting with the TD or, in their absence, the Chief Judge, if doubt exists regarding any item of saddlery or other equipment
- i) having a 1.0m and a 1.2 m gauge accessible (e.g. tube, rod, tape measure, mark on fence) to ensure compliance of competitor's whip
- j) using disposable surgical/protective gloves – one new pair for each horse – if inspecting the bridle (mouth area), checking the nose band, touching horse or spurs
- k) ensuring only the rider or their agent should alter any equipment, the gear steward must not alter any gear (unless invited to do so by the rider). If gear is too tight, loose or incorrectly fitted, the rider or their agent should make the necessary adjustments
- l) it remains the responsibility of the rider to comply with the equipment rules as outlined
- m) ensuring that if a rider does not have their gear checked after each test they will incur elimination

- n) ensuring that at restricted events if an accredited steward is appointed they should advise and supervise the volunteer or approved representatives of the Steward.
- o) supervising warm-up areas
- p) ensuring welfare of the horse is paramount
- q) the issuing of yellow warning cards where warranted

## 6.5 Chief Steward

A Chief Steward is to be appointed for all Australian Championships and State Championships and is highly recommended for Regional & Official Events whereby more than one Steward is required owing to the size of the event. If only one Steward is on duty at an event, they are automatically the Chief Steward for that event. They are to be appointed from the current list of FEI accredited and Nationally accredited Stewards.

Where a TD is not appointed it is the Chief Steward who will undertake many of a TD's responsibilities. Refer further to [Section 12](#) rule 12.30 for fuller description of role.

The Chief Steward is responsible for ensuring the welfare of horses is upheld, that the rules and a fair playing field for the event are adhered to, and that the events are conducted safely. In this role they are expected to supervise competition, training and warm-up areas, stables and other areas where horses are held, ridden, or treated, as well as the field of play for competitions.

A Chief Steward is authorised to undertake any of the following duties. However, this list is not exhaustive.

- a) arrange for the gate to the grounds to be unlocked or open at least 1.5 hours before competitions begin
- b) brief stewards on their duties
- c) ensure that results are being regularly updated
- d) ensure that competitions are running to time
- e) marshal winning competitors to receive awards where presentations are mounted
- f) confirm the number of stewards required for running the event with the OC
- g) prepare steward rosters as necessary
- h) ensure that arenas are correctly set-up, that surfaces are safe and well maintained to the highest standard possible
- i) manage stabling and warm-up areas
- j) work with the OC to ensure the best possible outcomes for both competitors and horses

Any official is authorised to:

- k) intervene in order to prevent any abuse of horses by riders, grooms, owners or any other person
- l) intervene in order to prevent any contravention of the common principals of behaviour, fairness and accepted standards of sportsmanship

## 6.6 FEI Steward

An FEI Steward is to be appointed by the OC for FEI-sanctioned events, such as CDIs. The FEI Steward for these events is responsible for inviting the appropriate number of other FEI Stewards to assist in managing the event.

## SECTION 7 RULES FOR OFFICIALS JUDGES AND ORGANISING COMMITTEES (OCS)

The guide below summarises various rules and sections of the EA dressage rules. All judges and event organisers must have access to a current rule book.

Both the EA and FEI rule books state how an exercise should be performed. The FEI Dressage Handbook – Guidelines for Judging will assist all judges in determining the qualities required to award the various marks (0–10) for each exercise.

Judges have a responsibility for the future of the sport of dressage. Only by constant and consistent self-education in understanding the principles of dressage, by attending and participating at seminars and by analysing (and discussing if necessary) their own results of a competition can this be achieved.

As part of their responsibility to the sport, judges should keep in mind that elimination of competitors should be done in a sporting spirit, and that rider and spectator friendliness of the sport should be considered along with the spirit and intention of the rule(s) in question. For instance, elimination for matters not related to welfare or safety (e.g. incorrect saddlery) is best done at the end of the test.

During a dressage test, only the C-judge may eliminate a rider. In all other cases of elimination, the highest ranking C-judge, of the highest-level test at the event, at the time of the incident is authorised to eliminate a rider.

Only current EA judges are eligible to officiate at Official Competitive and Participation events/competitions.

### 7.1 Positioning judges around the arena

Bearing in mind the need to fully observe all movements, the placement of judges around the arena should be as close as possible to the guide below:

Judge	Outdoor arena	Indoor arena
C	maximum 5m/minimum 3m back	preferably minimum 3m back
M H, K	maximum 5m/minimum 3 m back and 2.5 m in from long side	prefer minimum 3m back and 2.5m in from long side
E, B	maximum 5 m/minimum 3m back	prefer minimum 3m back

- the positioning of judges allows different aspects of a movement to be obtained
- if judges of a lower level are not yet confident, shadow judging at side positions should be encouraged to gain confidence
- keep in mind the position of the sun when placing judges at E or B. Subsequently the judge on the long side should be allotted their position first
- where 2 judges are used and the layout of the arena allows, 1 judge must sit at E or B
- where 3 judges are used and the layout of the arena allows, 1 judge must sit on the long side diagonally opposite the M or H Judge on the short side

### 7.2 Inspection of arenas

The judge/s must physically inspect the arena to ensure that:

- the arena is of a satisfactory standard with a low continuous fence of about 0.3 m made of materials compliant with EA rules, and if necessary have it modified
- the marker letters are the correct distance from the outside of the arena (about 0.5 m) and in the correct position
- the letter A must be placed at least 10–15 m back from the entry
- this marker must not be put to one side but must be centred to be in line with C

Once the competition has commenced, the conditions must remain (as much as possible) the same for all.

### 7.3 Scale of marks

Refer to [rule 3.13](#)

### 7.4 Execution of tests

Refer to [rule 3.15](#)

### 7.5 Errors of Course

Refer to [rule 3.17](#)

### 7.6 Allocation of marks and scoring

- a) each judge must allot from 10–0 marks for each numbered movement
- b) all half marks from 0.5 to 9.5 may also be used both for movements and collective marks, at the discretion of the judge – this also includes Freestyle competitions
- c) in Young Horse competitions, and in the artistic marks for Freestyle competitions marks to a single decimal point may be used (e.g. trot 7.8)
- d) these marks are then added together and any errors of course are deducted
- e) it is essential that errors of course are deducted from each individual judge's score before it is totalled. Individual scores are converted to % scores, and technical faults are then deducted
- f) total percentages to the 3rd decimal point for each judge must be clearly shown in results lists and on notice boards, together with the average percentage of all judges also to the 3rd decimal point
- g) a remark is strongly recommended for a mark of 5 or below
- h) a remark for all marks is recommended
- i) any alterations to marks must be initialled by the judge in ink
- j) where there is a difference of 8% or more in the EA levels up to and including Advanced between individual judges, the Chief Judge must initiate a brief discussion between the judges, preferably with scoresheets available where possible
- k) where there is a difference of 5% or more in the FEI levels between individual judges, the Chief judge must initiate a brief discussion between the judges, preferably with scoresheets available where possible
- l) under no circumstances are marks to be altered once the test sheet has been completed and collected from the judge
- m) the only instances that a test sheet is to be returned to the relevant judge are as follows:
  - the test sheet has not been signed
  - an altered mark has not been initialled
  - a mark has been missed
  - the scorers are unable to decipher a mark due to bad writing
  - where there are two or more judges and an error of course has been omitted by a judge
- n) judges are not to approach the scorers to look at test sheets during the competition
- o) it is recommended that judges do not look at scores on the scoreboard during the judging of a competition
- p) judges are not to discuss performances in public or at the scoreboard
- q) scoring should not be visible to the judges during a test. A running score (total average percentage) and open scoring (average marks per movement for all judges) to the audience is permitted
- r) A digital scoring system may not allow individual movement marks to be visible publicly until the competition has been signed off by the Chief Judge.
- s) where electronic scoring platforms are used, all results must clearly indicate when or if the results are “provisional” (ie, the final results/placings have not yet been signed off by the C judge) and when they are “final” (ie, the final results/placings have been reviewed and signed off by the C judge).

- t) particularly when using electronic scoring, if an inadvertent entry error is made on a score sheet (e.g., a “1” is entered instead of a “7” by the scribe) and the error is not noted by various checks, a judge or rider may request a correction to the score/placing, if required. A correction may be authorised by the OC, President of the Ground Jury, and/or TD, providing contact is made with the authorising party within 30 minutes after posting of the final results or awarding of prizes for the test (whichever is earlier). If the electronic scoring error is discovered after this period, but within 24 hours of the last test of the day, the score will be rectified, in consultation with the OC, President of the Ground Jury, and/or TD. In this circumstance, although the score will be updated electronically, the final placings will remain unchanged, including any placings in championships. However, riders may use the updated result as a qualifying score.

#### **7.6.1 Incapacity of a judge**

Where a member of the Ground Jury becomes incapable to judge before or during the competition (parts of the test or more), their scores will be removed from the result list of the whole competition. Where it is the C Judge that is incapacitated, the other judge/s must remain in their original judging position. One of the remaining judges will assume the responsibilities of the Chief Judge from their original position.

### **7.7 Unmarked movement**

For both EA and FEI tests – if a mark has not been recorded and the judge cannot recall the movement, or it cannot be found, or the rider omits a movement and the judge at C doesn’t notice and the rider has left the arena, a mark equal to the average for the whole test (excluding collectives) is given, with no error of course, as the judge would have been responsible for stopping them

### **7.8 Protocol for judges accepting invitations to judge**

When accepting invitations to judge an event, a judge must:

- a) declare their interest in any person or horse who, within the past 12 months immediately preceding the event, they have:
  - trained
  - owned/part owned
  - had any other business interest in
- b) even if the rider competes HC, a judge with a conflict of interest is unable to officiate in that competition
- c) check details that are important to them and advise organisers of their requirements at the time of first contact
- d) be definite and clear about their expectations. This does NOT include continually judging at only highest level of accreditation
- e) ask for a contact name, phone number and e-mail address, and request that details be confirmed in writing within the next fortnight
- f) follow up two weeks prior to the competition if arrangements have not already been confirmed
- g) let the organisers know of any unavoidable changes to their availability as soon as possible
- h) arrive at the venue 30 minutes before starting time
- i) must have their rulebook with them
- j) advise the organisers prior to the day of the competition if they are bringing their own penciller/writer
- k) advise the organisers if you require a car (if applicable)
- l) remember the dressage event is a joint effort between organisers, competitors and other judges and all deserve to be treated with equal respect and courtesy
- m) when accepting a judging commitment make sure they agree on travelling allowance and honorarium and make the OC aware of the distance they have to travel, where longer distances are involved, travel allowance must be negotiated at the time of invitation
- n) be aware that if they have more than a 2 hour drive to the venue they have the right to ask for accommodation the night before (e.g. if starting before 10.30 am, likewise if they are to finish after 6.30 pm) and the same should apply in reverse

- o) adhere to the code of conduct, as well as the dress code (at least smart casual and no work jeans) as matter of respect for all involved in the competition
- p) make themselves available to discuss test papers with individual riders and make it known to the OC when they are available so that it can be announced over the PA
- q) be aware that discussion with a rider about an individual horse/rider test can only take place if the rider has their test sheet with them
- r) know the EA Disciplinary By-Law and know what action to take should it occur (i.e. rules as per abuse of horse, rider, judge, etc.) For more information see [www.equestrian.org.au](http://www.equestrian.org.au)
- s) insist on the ruling of receiving a draw at the same time as the competitors in order to be aware of any conflicts so that the OC can be advised as quickly as possible. The draw must indicate the breaks and lunch break as well as comply with the 35 horses per competition and 40-horse limit per day rule
- t) ask for a mobile number to contact on the day of competition should they be delayed (flat tyre, accident, etc) on the way to the venue
- u) offer assistance to the OC should it be necessary prior to the competition with regards to rules and regulations re arenas, footing, risk and safety

Other things to note:

- v) at times judges will be asked to judge lower levels (e.g. Preparatory, Preliminary or Novice). This is really where we need our experienced judges in order to make sure that these horses and riders are put on the correct training path. Judges must therefore be prepared to judge all levels up to, and including their accredited level, and not only judge at the higher end of their accreditation
- w) a judge is expected to judge what they see in a fair and unbiased way and avoid any personal comments, such as 'have seen horse go better'
- x) a judge's commitment to judge is paramount and should only be broken if circumstances beyond their control intervene
- y) should such circumstances arise, a judge must try to provide organisers with the name of a replacement who is willing to take their place

#### 7.8.1 Risk management and dogs

- a) dogs or other distractions are not permitted in the car or judging box with judges
- b) judges must apply risk management and safety principles at all times and act accordingly

## 7.9 Guidelines for reimbursement - Out-of-pocket expenses for judges, accredited FEI/EA Stewards

It is required that judges, officials, accredited FEI stewards and EA stewards will receive an honorarium as reimbursement of expenses. However, the official and OC may negotiate a mutually suitable arrangement at time of invitation. Refer to [Annex I](#) – Payment for Officials – for current per diem

## 7.10 General items

- a) when selecting writers for International FEI Competitions:
  - first preference should go to Judge Educators and Mentors
  - second preference should go to other senior judges eligible to supervise shadow judging (A, B, C or D level)
  - third preference should go to E, F or G level judges
- b) no judge should be expected to judge more than 40 horses/day
- c) no judge should judge over 35 horses in any one competition
- d) if a judge is required to judge more than one competition, there should be a minimum of 30 minutes between the last horse in one competition and the first horse in the next
- e) OCs should provide a quiet area, away from the scoreboard, where judges can be given access to a duplicate copy of the full result sheet and individual judges marks for their perusal
- f) judges must stay on the grounds for a period of at least 30 minutes after the posting of the placings, so the results should be collated as quickly as possible
- g) the use of electronic communication, including mobile phones, is not permitted while horse and rider are in the arena

The use of mobile phones and digital scoring system features are permitted however, only for the use of communication between judges for the purpose of identifying and agreeing on technical issues such as presence of blood, potential lameness, errors of course and other technical issues

- h) judges are not permitted to use videos or any photographic equipment whilst judging
- i) when judging FEI level competitions judges are to ensure that they are using the correct FEI level judging sheets (NOTE: Error of Course penalties are different to FEI rules)

### **7.11 Draw**

- a) at least 72 hours before the start of the event, competitors and judges are to be:
  - sent a copy of the draw by e-mail or post, or
  - advised by e-mail when the draw is available along with details of a web address for access to the draw
- b) the draw is to include the name/s of the judges for each competition to ascertain any conflict of interest
- c) the draw should allow for at least a 15 minute break for judges after every 10 horses judged

### **7.12 Competitions**

Judges must be aware that at competitions:

- a) a horse/pony may only enter and compete in 2 consecutive levels e.g. Prelim/Nov, PSG/Int I
- b) a horse/pony may only enter and compete in no more than 3 tests in a day, which may include a freestyle test
- c) at Prix St Georges and above horses/ponies may only enter and compete in 2 FEI-level competitions per day and this may include a Freestyle. If competing in an FEI test horses can only compete in one other EA test on the day. A horse competing in PSG may only compete in one Advanced competition

### **7.13 Maximum number of competitors per competition**

Judges are to be aware that the maximum number of horses per competition are:

- a) 35 up to and including Prix St Georges
- b) at the OCs discretion for competitions from Intermediate I to Grand Prix

### **7.14 Results**

- a) results must be shown in percentages only (not total marks) to 3 decimal places for each judge, then averaged to achieve a final percentage score
- b) scores should be updated on the scoreboard at very regular intervals, and final results should be made available as soon as possible at the completion of a test
- c) final results must be signed off by the Chief Judge prior to posting
- d) competitors must have access to their test sheet/s at the same time as the final results are posted
- e) final result sheets should be given to each judge at the end of competition
- f) if a rider withdraws prior to a competition, is excused, eliminated or a 'no show' prior to or during the performance of a test, the words 'withdrawn'/'eliminated'/'no show' or abbreviations must appear after the rider's name on the result sheet

As per rule 7.6 above, a discussion between the judges must take place where there are discrepancies in the marks.

## 7.15 Judge Training Tests and Protocol Sessions for Dressage Riders

Where Training Test Days or Protocol Sessions are organised by non EA affiliated clubs, or individuals, judges may require top up insurance.

### Training Test Days

Training tests should be run as per a normal competition with test times allocated at approximately 8 minute intervals.

However it is not necessary to have 2 or more judges per arena, plaiting and jackets are optional, and no results are posted or prizes awarded.

These are an opportunity for riders to go through their tests in a more relaxed environment, or to attempt a test at a higher level without the pressure of competition.

EA rules apply with regard to gear and warm up/warm down.

### Judge Reimbursement

Refer to Australian Dressage Rule Book [Annex I](#).

### Judge Protocol Sessions for Dressage Riders

*What is a Judge Protocol Session?*

Judge Protocol training for dressage refers to the rider riding a test of choice, the judge judges it and gives feedback to the rider on how to improve the riding of the test with the view to gaining more marks. After discussion, the judge may ask the rider to ride some movements again or ride the whole test again.

The judge is there to give feedback to the rider but does not coach the rider. These days are not riding clinics as such. It is not essentially different from a rider discussing the test with the judge after a competition except that there is an opportunity to repeat movements. Videoing the process can also add value or sometimes the rider may ride the test wearing a headset so that the judge's marks and comments are audible as they ride.

For example the judge might point out that for a higher mark the rider needs to ensure the steps don't get shorter or slower, or that there needs to be more angle in a shoulder-in. Or they may assist with confirming what is the correct frame to ride in. It is not a competition.

The process is a very good educational tool and generates cooperation between judges, riders and coaches. It will benefit riders at all levels. The rider could ride a test at a level they have not yet competed to get a sense of whether they are ready to step up, without the public pressure of competition. It can also be a very valuable tool in both judge and coach education as well.

*How and who to organize?*

The sessions/days may be organized by EA affiliated clubs or state dressage entities and be opened to members of that club, members of other affiliated clubs or riders as a group i.e. a state squad. Note Where Training Test Days or Protocol Sessions are organised by non-EA affiliated clubs, or individuals, judges may require top up insurance.

From the perspective of an Organising Committee, these days can be run very simply by allocating approximately 30 minutes per rider. Using a video person and/or headsets can also be helpful and value-add to the day.

Improving the communication on technical matters between riders, coaches and judges is vital in the further development of our sport and creating these opportunities for communication is really simply an extension of the feedback that riders already receive through competition.

*Is this a conflict of interest for judges?*

The Judge Protocol process is neither coaching nor training, but an extension of the feedback process judges give during normal judging and also at judges clinics to show judges how a test could be improved, and what they need to see to give higher marks.

National judges are governed by [Rule 1.8.2](#) Conflict of Interest of the Australian Dressage Rules. Judges who provide the judge protocol session should not judge that rider within two weeks after the session, (refer to [Rule 1.8.2 k](#)).

Of course, if a judge is a regular coach/trainer of a rider and/or horse this is a conflict of interest.

*Judge reimbursement?*

It is recommended that judges are reimbursed a maximum of \$40 per 30-minute protocol session plus mileage at the current recommended rate for judges, or by prior negotiation. Refer [Annex I](#)

## SECTION 8 FREESTYLES

This section is for Freestyle competitions which are dressage competitions performed to music chosen by the rider. There is a list of compulsory movements at each level that must be performed.

### 8.1 Entry, salute and timing

- a) freestyle tests are timed
- b) the rider must signal the sound technician after the bell has been rung
- c) once the bell has sounded the rider has 45 seconds, plus 30 seconds of entry music to enter the arena (total of 75 seconds)
- d) not giving the signal for the music to start within 45 seconds of the bell will incur a penalty of 0.5% from each judge
- e) entering the arena after 30 seconds of music will incur a penalty of 0.5% from each judge. Further failure to enter after 90 sec = elimination
- f) if there is no entry music this will not entail elimination, but it will affect the artistic mark
- g) if the rider enters the arena clearly late, 0.5% shall be deducted by each judge from the score
- h) the music must cease at the final salute
- i) at the beginning and end of a Freestyle test a halt for the salute is compulsory and must be shown on the centre line in the direction of C
- j) the test time starts after the first halt and stops at the final salute
- k) if the test is clearly shorter or longer than the stipulated time limit on the test sheet, a technical fault of 0.5% deduction from each judge will be incurred, from the total artistic marks.
- l) slight failure to perform within the given time (approx. 10 seconds) should be treated generously without a deduction of marks, especially if unusual circumstances (such as external distractions or bad conditions of the ground) occur

### 8.2 Music

#### 8.2.1 Technical failure

In the case of a rider's music failing during a Freestyle test:

- a) where there is no back-up system, the rider can, with the permission of the Chief Judge, leave the arena
- b) the Chief Judge, after conferring with the rider, will determine when the rider must return to the arena
- c) there should be minimum interference with starting times of other riders
- d) the affected rider should return to complete or restart their test during a scheduled break in the competition or at the end of the competition or as directed by the President of the Ground Jury
- e) the rider may decide whether to take up the test at the point where the music failed, or to start again
- f) if the rider chooses to start again, all marks on the sheet must stay as originally given up to that point when the music failed, and from then on judge as normal
- g) if the music stops towards the end and all the technical marks have been already filled in by the judge, then the judge will judge on the music up to that point
- h) if the music stops half-way and the rider does not have another CD and all technical requirements have not been completed the rider must retire

#### 8.2.2 Guidelines for riders and OCs

- a) music must be provided on a CD or otherwise as specified by the OC (e.g. USB stick)
- b) riders have the right to request the OC for a sound check on their music
- c) it is recommended that riders have a back-up copy of their music with them at the event.
- d) each music source must clearly show the name of the rider and horse
- e) it is recommended to have a timekeeper/course watcher, especially in FEI-level Freestyle tests

### 8.3 How to judge a Freestyle – Guidelines for Judges

The judge must be confident the writer knows all the compulsory movements and how to record the marks.

- a) half marks (0.5) for the technical may be used at the discretion of the Judge
- b) 0.1 decimals may be used for the artistic marks at the discretion of the Judge
- c) a mark should be given each time a compulsory movement is shown. This mark must be placed in the relevant area on the test sheet
- d) as some compulsory movements will be shown more than once, therefore gaining more than one mark, there could be several marks for one required movement
- e) at the completion of each test the Judge will decide the final mark to be awarded for each movement e.g. for flying changes a horse is awarded 6.0, 7.0, 7.0, 6.0 (divide the total of the 4 marks by 4 to come to the final mark = 6.5)

### 8.4 Artistic marks

The five artistic marks are scored by 0.1 increments (i.e. 7.8) and multiplied by their coefficients:

- 1) Rhythm, Energy and Elasticity
- 2) Harmony between rider and horse
- 3) Choreography
- 4) Degree of Difficulty
- 5) Music and interpretation of the music

The total of the artistic performance is found by adding the five final marks, multiplied by their coefficients.

All artistic marks are more or less dependent on the quality of the technical execution. It is especially important that the artistic marks for the following should correlate with the technical score:

- Rhythm, Energy and Elasticity
- Harmony between rider and horse
- Degree of Difficulty

This means, if a Freestyle shows a high degree of difficulty but the technical execution is incorrect, especially the marks for harmony and degree of difficulty have to be lowered. On the other side, if the quality of the execution is high but the degree of difficulty is low, the degree of difficulty mark cannot be increased significantly.

In addition, the marks for the following can be negatively influenced in cases of resistance, disobedience and disturbance:

- Choreography
- Music and interpretation of the music

If the music does not match the paces, transitions or the final salute, the mark for music must be reduced. For further deductions in the case of omissions or a wrong execution see below.

### 8.5 Execution of movements

Please refer to each freestyle sheet at relevant level for the compulsory movements required. They are available on the EA website.

- a) Entry – Novice, Elementary, Medium – the entry must be at the walk or the trot. All other levels may enter at the canter. Mistakes before the first salute have to be taken into account
- b) Halts – The first and the last halt and salute have to be shown on the centre line in the direction of C
- c) Walk – Walks should be shown as specified in the test and must be 20 m consecutively on straight or curved lines. Walk pirouette may be embedded into the collected walk
- d) Leg yield – Novice – one change of direction in leg yield may be shown on either rein, providing that the change of direction is clearly shown on a straight line, and the angle and flexion of the leg yield are shown correctly. This may be shown once from each rein.
- e) Trot – counter changes of hand (see table 8.11 and rule 2.12.5 for restrictions) – the angles are left to the rider's discretion

- f) Change of rein through trot – Novice – only 3 to 4 steps of trot
- g) Canter – counter changes of hand (see table 8.11 and rule 2.12.5 for restrictions) – the angles of half passes is at the rider's discretion. However, half passes shown below the steepness of the relevant standard tests will be regarded as very easy
- h) Travers/Renvers (see table 8.11 for restrictions at each level) are permitted as part of the choreography but do not substitute any required half passes
- i) Canter pirouettes – canter pirouettes (half and full) must be shown from collected canter and lead to collected canter
- j) Canter pirouettes performed from/into halt, walk or piaffe are counted in the required pirouettes only if they are in addition to a correct pirouette as specified in 8.5 (i). If they are the only ones shown to either side, the technical mark has to be below 5 and the marks for choreography and degree of difficulty cannot be higher than 5.5. A combination of pirouettes left/right should at least have 3-4 canter strides in between
- k) Double pirouettes should be judged as one movement and not given the average mark of the two single pirouettes. Piaffe pirouettes can be shown in many ways: from 90° - 360°, or as a fan with changes of direction. More than 360° in one direction is not recommended in a well-balanced choreography
- l) Piaffe pirouettes (in addition to the requested piaffe with a number of 10 straight steps) are scored technically as a piaffe, each time shown
- m) Passage half passes (only in addition to a requested passage with a minimum of 15m on one track) are scored technically as a passage each time it is shown. They can be shown as single half passes in one direction or as a “zig-zag”. They should be executed at least 5m sideways to make them recognisable
- n) Piaffe pirouettes and half passes in passage can only be counted as a difficulty if well executed (7 and above)

## 8.6 Omissions or movements of a higher level

- a) if a compulsory movement has been left out completely and deliberately, the judge has to give a zero (0) for this movement
- b) the scores for both choreography and degree of difficulty cannot be higher than maximum 5.5
- c) it is up to the judge to go lower with these two marks if more than one movement has been left out
- d) if a competitor deliberately shows movements of a higher level not mentioned in the test sheet no mark for the technical execution of that movement is possible
- e) the scores for both choreography and degree of difficulty cannot be higher than maximum 5.5
- f) it is up to the judge to go lower with these two marks if more than one movement of a higher level has been deliberately shown
- g) the combination will not be eliminated for showing a movement of a higher level

**8.6.1** Examples of movement of a higher level – refer to table 8.11 and 8.12

## 8.7 Execution of movements below requirements

If shown deliberately without having been shown correctly at least once

- a) walk – clearly less than what is required in the test – 20m and/or 10m
- b) passage - clearly less distance than what is required in the test. Must have at least 1 x 15m passage
- c) piaffe – clearly less than 1 x 10 straight piaffe steps
- d) half instead of full pirouette
- e) deliberately not enough flying changes in a series
- f) not being able to show the required number of changes due to a mistake or resistance of the horse will not automatically reduce the marks for choreography and degree of difficulty but must reduce the technical mark and can reduce the mark for harmony

## 8.8 Incorrect execution of any kind

i.e. a movement has been shown but in the wrong way which means a mark for technical execution is possible

- a) in the event of the movements in 8.12 being deliberately shown (not as a result of a mistake), the mark for the technical execution of that movement cannot be higher than maximum 4.5
- b) the scores for both choreography and degree of difficulty cannot be higher than maximum 5.5
- c) it is up to the judge to go down with these two marks if more than one movement has deliberately been shown in an incorrect way in regard to the Freestyle rules

### 8.8.1 Exceeding the requirements deliberately

Regardless of this movement having also been shown correctly – no averaging of marks will occur

The logic for the judge should be that something that has been shown earns more than something that has not been shown (=0). By way of example, if a rider does a triple pirouette and a correct double pirouette on the right rein, the rider is not eliminated. But the final mark for the right pirouette must be below 5 no matter how well the correct right pirouette has been executed. This horse gets more (below 5) than if the right pirouette had not been executed at all (0).

Choreography and degree of difficulty would achieve a maximum 5.5. Judges can still go lower for these 2 marks and that is up to the judge. The main thing is they cannot be higher.

Refer to Table 8.11 and 8.12 for EA Freestyle rules

### 8.8.2 Execution not according to the rules

(if shown deliberately, without having been shown correctly at least once)

Some examples below:

Paces

- a) walk not shown on straight or curved lines but only performed clearly as lateral movement (e.g. as shoulder-in, half pass etc)
- b) extended trot only shown on a circle line or through two corners
- c) collected canter without showing 8 m volte (FEI Pony Freestyle – movement 13)

Movements

- d) Piaffe only shown as a pirouette
- e) Passage only shown as half pass

## 8.9 Mistakes of the rider

Deduction in the mark for Harmony = the rider's mark

In the event of the following being shown the harmony mark should be reduced by 0.5:

- a) influencing the public with the hand
- b) removing the hat

The judge has to deduct 1.0 point in cases when the rider tries to influence the public with his hands and or the hat more frequently.

If the rider influences the horse with the hat, this should lead to an insufficient technical score for the respective movement/s.

## 8.10 Scoring of Freestyles

- a) In the case of equality (ties) in a Freestyle test for the first 3 places, the higher artistic marks will decide on the better placing. In the case of equality for remaining places the riders are given the same placing
- b) interim scores/final scores for Freestyles must show both technical and artistic marks for each judge

## 8.1 I Table for Marking Omissions and Incorrect Execution in Freestyles

- a) Clearly above/below required time limit: Deduction of 0.5 percentage points from total of Artistic Score
- b) Technical Marks: Half marks (0.5)
- c) Artistic Marks: Decimals (0.1) may be used

The EA National Dressage Selectors will select the Australian representatives for the FEI World Breeding Federation for Sport Horses (WBFSH) Dressage World Breeding Championships for Young Horses based on merit and with reference to any EA Selection Policy, in addition to the FEI Rules, in conjunction with the WBFSH.

Only horses registered into WBFSH member studbooks at birth can be nominated and entered in the Championships.

For five and six-year-old young horses to be considered for endorsement to the FEI WBFSH Dressage World Breeding Championships for Young Horses they must have a minimum of 1 performance of at least 80% at the national selection procedure event (Australian based horses) or CDI-YH (overseas based horses) with at least 7.5 for each pace.

For seven-year-old young horses to be considered for endorsement they must have a minimum of 1 performance of at least 70% at the national selection procedure event (Australian based horses) or CDI-YH (overseas based horses).

- For Australian based horses, results from the designated national selection procedure event as per the FEI WBFSH Dressage World Breeding Championships for Young Horses Rules only will be considered. The national selection procedure event is the Australian Young Dressage Horse Championships
- For horses based overseas, scores must be obtained at a CDI-YH event.
- Only home-bred horses registered into WBFSH member studbooks at birth with a UELN (Unique Equine Life Number) can be nominated and entered in the championships, as per the FEI WBFSH Dressage World Breeding Championships for Young Horses Rules.

Competition results, including a link to the results section of the event website and the judging sheets (complete with date, venue and names & signatures of judges) must be forwarded to the EA National Office as proof of performances.

## 9.7 Guide for riders and judges

Judges will award a mark out of 10 (decimal points are permitted) for walk, trot, canter, submission and perspective as a dressage horse. Judges must consider the following questions when making their assessments:

- a) is the horse clearly demonstrating correct education according to the training scale?
- b) does the horse demonstrate a desirable picture of a dressage horse?  
The fundamental criteria of paces, submission and perspective as a dressage horse are evaluated as follows:
- c) the steps and strides must be in a regular rhythm and free from tension
- d) keeping in mind the training level of the horse, special emphasis should be placed on:
  - a smooth and steady contact
  - the willing acceptance of the bit
  - a submissive poll in the three basic paces and in the different tempi and the transitions
  - flexion and bending
  - the harmonious development on both reins
  - suppleness
  - desire to go forward
  - ability to engage the hindquarters
  - potential to collect
- e) during the initial movements of the test, horses that still show signs of tension and concentration lapses, or even shying or unsettled, should be judged more benevolently than in a normal dressage competition
- f) minor mistakes should not be given weight if, in principle, the horse is demonstrating good movements and is demonstrating the adoption by the trainer of desirable training technique
- g) it is recommended that one of the judges provides a commentary after the completion of each horse's test in at least the second round but preferably for both the first and second round. This commentary is mainly for the benefit of spectators and the main purpose is to explain the rideability and strengths of the individual horse in relation to the demands at each level of competition, the quality of the three basic paces, and the horse's ability to perform as a high level dressage horse
- h) see FEI Dressage Handbook for further notes on the purpose of and judging of Young Horse competition
- i) for the 7 year old competitions the technical judge is looking at the way the horse copes with the demands of the test and the adjustability shown with the more difficult exercises asked for and the demand for collection, engagement and mobility. All judges have a clear focus on basics, a clear rhythm, sufficient swing in the back and engagement of the hindquarters, acceptance of the contact, lateral bend and suppleness. That the horse is balanced and straight in the work without tension and able to execute the flying changes and 1/2 pirouettes correctly
- j) the technical and quality scores are added together

### FEI guidelines for pre- and post-competition training techniques (position of the horse's head in stretching)

#### 1. Background

The use of correctly executed stretching techniques, both before and after training and competition, is recognised as an important and long-established practice in almost every physical sport. In equestrian sport it is used for the on-going suppleness and health of the horse.

#### 2. Permitted stretches

Stretching principally involves the lengthening of the horse's ligaments and muscles (soft tissue) and can be done at the halt (statically) or in motion (dynamically). Riders should aim to stretch all the relevant groups of muscles within the horse's body, especially the muscles involved in hind leg locomotion, but the part that will be most visual to both stewards and the public will most likely be the horse's neck.

Neck stretches may take several different forms. 'Long, deep and round' (see diagram 1), 'low, deep and round' (see diagram 2) and 'long and low' (see diagram 3) are just three commonly used examples but there are other variations involving both longitudinal and lateral flexion which result in different neck positions.

#### 3. Extreme flexion

In assessing the position of the head carriage the steward will be mindful of each horse's natural conformation, especially in relation to native breeds or ponies, and will therefore use discretion in determining this.

Deliberate extreme flexions of the neck involving either high, low or lateral head carriages, should only be performed for very short periods. If performed for longer periods, the steward will intervene.

Movements which involve having the horse's head and neck carriage in a sustained or fixed position should only be performed for periods not exceeding approximately 10 minutes without change. Change may constitute a period of relaxation and lengthening or a movement which involves stretching the head and the neck of the horse.

Diagram 1  
Long, deep and round

Diagram 2  
Low, deep and round

Diagram 3  
Long and low

It is the steward's responsibility to ensure that riders respect the above procedure and intervene if required.

## **4. Variation of stretches and neck positions**

Stretches of the horse's neck may be specific and appropriate to each horse and equestrian discipline, but no single neck position should be maintained which may lead to tiredness or stress.

## **5. Method of achieving stretches**

It is imperative that stretching should be executed by unforced and non-aggressive means. By 'unforced' it is meant that the rider is not permitted to use rough, or abrupt aids or apply constant unyielding pressure on the horse's mouth through a fixed arm and hand position. It is the responsibility of the steward to intervene if these requirements are not respected.

## **6. Action by the steward in the case of incorrect flexion of the head and neck**

The steward will intervene should they observe:

- neck stretching achieved through forced, or aggressive riding
- the use of extreme flexion if it does not comply with the above
- a rider deliberately maintaining a sustained fixed head and neck carriage longer than approximately 10 minutes
- in cases when the horse is in a state of general stress and/or fatigue

The steward may also ask the rider to walk for a certain period in situations where the rider's stress may cause undesired riding.

## **7. Maximum duration of pre-competition warm-up and post-competition cool down periods**

Only in exceptional circumstances and with the permission of the Chief Steward, may a training session exceed one hour. The training session must include a number of relaxation periods.

Riding the horse at the walk whether prior to, or following the training session, is not considered to be part of the one hour training session. There should be at least one-hour break between any training/warm -up periods.

Repetition movements carried out in the practice arena, following a rider's performance in the competition arena, may not exceed a period of 10 minutes.

## **8. Exercise / Training arena**

All training sessions, including pre-competition warm-up, may only be performed in the official training arena while under the supervision of stewards. Use of a training arena outside the official training period, and/or in an unsupervised arena, may at the discretion of the Ground Jury lead to the rider's disqualification.

During competition preparation periods, and the duration of the competition itself, the Chief Steward must be present in the training arena, or be in a position to observe the training arena at events where numerous training arenas are in use.

If the Chief Steward is unable to be present himself, it is their responsibility to ensure that a steward with the required experience and knowledge is appointed to supervise the training arena.

## ANNEX C

## Hot weather policy

## C.1 Horses

Horses exercising and competing in hot environmental conditions can be affected by heat stress.

When environmental heat conditions are adverse, exercising horses require appropriate cooling measures to safeguard their welfare. The primary responsibility for the welfare of horses competing and exercising during hot weather lies with the rider of the horse. Riders must always take action to prevent, manage and treat heat stress in their horses. Event organisers are responsible for providing adequate facilities and information that riders need to safeguard the welfare of horses. Access to ice and cooling water during competition is a compulsory requirement that arises under certain environmental conditions.

To assess the risk of heat stress in horses, the FEI uses the Wet Bulb Globe Temperature (WBGT) Index. WBGT information is published on the Bureau of Meteorology (BOM) website under their Thermal Comfort Observations webpages (see [http://www.bom.gov.au/info/thermal\\_stress/](http://www.bom.gov.au/info/thermal_stress/)) WBGT information is published on the BOM website for each Australian state and territory with regional indices.

## C.2 Competition PA heat risk announcements

- a) explanations of the 6-minute threshold (see Rule C3.2 below) in any demanding exercise (not just Cross Country exercise), as being pivotal in heat overload
- b) encouraging riders to pre-cool their horses by hosing them before riding to place lower demands on the horse's cooling system while they work
- c) encouraging abbreviated warm-ups to lighten the load on the horses' cooling systems
- d) explanations of aggressive cooling until the horse's temperature returns to 38°C
- e) encouraging the use of ice and a shaded area with misting fans, to cool horses after exercise
- f) encouraging hydration of every horse with cool clean water, salt and electrolytes
- g) encourage riders to 'house' resting horses in shaded areas and/or on grass surfaces

## C.3 Key principles

Any organiser of an event to be held in hot weather must understand the following key principles:

### C.3.1 Humidity and heat – a dangerous mix causing heat overload

Combinations of high heat and humidity impact severely on a horse's main cooling mechanism of sweating and evaporation. A heat stressed horse can have multiple organ failure; it may collapse and die.

Unless cooling facilities equivalent to FEI standard are in place at an event, the FEI strongly recommends that riding activities be suspended when the WBGT Index reaches or exceeds 32–33°C.

### C.3.2 The 6-minute threshold – heat overload for horses working in the heat

Where the WBGT Index is high, horses that have just performed are at risk of suffering a dangerous temperature hike. When the WBGT Index is high, 6.0–6.5 minutes of continuous hard work (i.e. the 6-minute threshold) is pivotal in causing heat stress. Dressage horses do work extremely hard in both the warm up and in their tests. For showjumpers the effort is generally under 6 minutes, however for dressage and cross country, horses are at risk in heat because the effort will exceed 6 minutes.

Aggressive cooling (see below) should be used after a performance for a dressage horse when the WBGT is high, just as for horses coming off a cross country course.

### C.3.3 Wind flow (breeze) dramatically reduces heat overload

Wind flow significantly increases evaporation. The primary cooling mechanism for both horses and humans is evaporation of sweat. On hot days, events should be scheduled early or late, when better wind flow is likely and outside of peak temperature periods.

Horses standing in the sun without shade or wind flow in temperatures above 33°C start to accumulate heat. Horses working in the sun without wind flow at or above 33 °C are at risk.

### C.3.4 Surface area to body mass (SA:BM)

As body mass increases, relative surface area decreases. An 80 kg rider will have a SA:BM = 1:40, but a 500 kg horse has a SA:BM = 1:100. Surface area to body mass ratio impacts negatively on a horse's ability to shed heat through evaporation. Greater muscling in some horses, such as dressage horses, lowers their SA:BM ratios and makes them less effective than other equine athletes at shedding heat.

### C.3.5 Arena and surfaces

Shaded and grassy surfaces do not attract and retain as much heat as other surfaces that are soil-based or exposed to full sunlight. Horses restrained next to vehicles/floats/trucks parked on black asphalt, road base or sand are more susceptible to heat stress on hot days.

### C.3.6 Event planning

Event organisers must conduct a risk management assessment if competitions/training days are to be held during hot conditions. Decisions and actions that may be considered include:

- alteration of time of day or time of year at which an event is run
- reduction in overall effort (shorter distance, less jumping efforts, etc)
- education of riders, grooms and officials
- provision of shade
- provision of adequate means of cooling horses, including ice, fans, hoses, water baths, etc
- provision of veterinary services for heat-stressed horses.

## Appendix A Aggressive cooling measures

Aggressive cooling should be used where a horse's temperature is elevated after any demanding exercise such as dressage or cross country and when the W BGT Index is high.

Cooling includes use of high volumes of cold/ice water application, ice boots, repeatedly applying bucketfuls of iced/cold water, and repeatedly hosing and immediately scraping water as it warms on the horse's body.

Key areas to apply cooling/iced water to are the jugular veins (underside of neck), the femoral arteries (between hind legs) and the heat sink (lower abdomen). Aggressive cooling should continue until water is no longer heating up on the horse, or until the horse's temperature is back to a healthy 38° C (rather than heading up to a dangerous 40° C).

## Appendix B Anhydrosis in horses

This condition is also called drycoatedness, or 'the puffs'. Only two species, humans and horses, rely on evaporating sweat to shed excess heat. Horses naturally have a very efficient cooling mechanism as part of their thermoregulation system.

Hindgut fluid reserve acts as a 'heat sink' (the hind gut stores 60 litres of fluid where some heat can be diverted to reduce damage to vital organs).

During humid weather when the relative humidity exceeds 85%, the efficiency of sweat evaporation from the skin decreases by 5% for every 2% increases in relative humidity, which greatly increases the risk of heat stress.

Some people think that when a horse's coat is dry or has only patchy sweat when worked on a hot day, this indicates that the horse is handling the heat. In fact, a dry coat is a cause for great concern as the horse could be losing the ability to sweat (anhydrosis), indicating a faulty or a completely broken cooling system. As a result the horse may suffer heat stroke and collapse.

Unlike dogs, horses are not designed to pant. When a horse pants or 'puffs' this means it is suffering heat stress and requires immediate cooling.

## Appendix C Cooling systems in horses

- Evaporation and convection: This makes up for 60% of cooling. Horses shed excess heat through sweating and having air moving over them. Horses standing in the sun without shade or wind flow (breeze) in temperatures above 33° C, start to accumulate heat.
- Radiation and conduction: Once the air temperature is over 33°C, even a horse at rest needs to shed heat. A horse that has a large size and mass finds this harder than smaller animals, or even a lighter framed horse.
- Respiratory loss: This makes up 15% of cooling for horses during exercise.

## Appendix D The FEI standard cooling facilities

To enable aggressive cooling to be carried out when the W BGT exceeds 32–33 °C, the following should be available at an event:

- multiple hoses and wash bays for cooling/hosing
- large bins (ideally wheelie bins) full of water and bags of ice for aggressive cooling
- free ice ad lib, an abundance of bags of ice for ice boots or for riders to add to water to cool horses after exercise
- a shaded area with misting fans
- an equine veterinarian

The impact of heat and humidity on dressage horses has been poorly understood by many in the industry in Australia. There have been instances of horses dying and/or requiring intensive veterinary care following dressage competition or clinics in such conditions in Australia.

Heat overload (heat stress or even heat stroke) occurs when an individual cannot shed sufficient heat to maintain a normal core temperature (38°C for a horse and 38°C for a person). Definitive research on this subject by Dr David Marlin recommends:

'The Bureau of Meteorology (BOM) forecast is based on the temperature in the shade. The temperature for horses and riders warming up and competing in the sun, and for judges in cars, will be much higher than this.'

### Arena familiarisation and altered circumstances at EA events

These are guidelines for competition organisers and judges (refer also to rule 3.7). The safety of horse and rider is paramount at all times.

#### Arena familiarisation

- It is a recommendation that a helmet should be worn whilst leading horses for arena familiarisation or in warm up areas.
- where possible, allow competitors a designated time to ride around and in the competition arenas on the day of the competition, if this has not been possible on the previous day
- if conditions are suitable, time may also be allocated during the day, but this will depend on the organisers and venue requirements
- OCs should specify the arena familiarisation arrangements in the competition draw and also specify at what pace horses are permitted to travel. For example, Arenas will be available from 7.30 am to 8.15 am on the day of the competition for familiarisation. Please make sure that you ride only at (pace to be noted here by OC if there is a restriction)
- Any arena familiarisation and warm-up areas must be supervised by an accredited steward
- OCs should ensure designated first aid official/medical service providers are present once the event has officially started; this includes arena familiarisation periods.

#### Altered circumstances

- if the wind becomes strong enough to blow down the arena surrounds, it is preferable to leave it on the ground, so that horses are not accidentally frightened when the arena blows down again. Obviously the conditions may be different for some riders in the competition but common sense should prevail
- if arenas or arena surrounds are covered in water either at the start of the day, or at some point later in the day, please arrange for riders to commence their tests from inside the arena. This gives the horses the opportunity to become familiar with the varying conditions in the arena
- some arenas have insufficient surrounding space and unsuitable footing for horses to work safely and comfortably around the outside before entering the test. In these circumstances please make sure that riders commence their tests from inside the arena

#### Protocol for entering the arena in exceptional circumstances

If the area surrounding the competition arena is unsuitable for riding on, the Chief Judge, in consultation with the OC, will make a decision as to whether competitors will be permitted to commence their test from inside the arena. Such a decision must be announced at least 30 minutes prior to the commencement of the competition or, in the case of a sudden downpour, as soon as possible. Please note that this is Judge/OC/TD only decision.

If such approval is given the competitor is to enter the arena and when the bell has been rung (e.g. car horn sounded) the competitor is required to come down the centre line at A (via the shortest route) and judging commences once the rider is on the centre line.

The next horse in the competition can enter the arena as soon as the previous horse has left the arena.

### Notes for dressage competitors

At some stage every rider has had to compete for the first time. This is a step-by-step document that follows the order of preparation for both you and your horse. The majority of the information is procedure rather than rules. You should have a rule book handy at all times whilst competing.

There are various rules and sections from the EA Dressage rules referred to in this document. This document must be read in conjunction with the rules and is not intended to replace the rules.

Please make sure that you have read and are familiar with the EA Competitor's Code of Conduct.

#### F.1 Setting goals

A lot of riders go to trainers with the expectation of becoming an Olympian or at least being able to ride like one. There is nothing wrong with being ambitious. However, with the help of your trainer you should set achievable short-term goals.

In this case, an achievable goal is that you are going to prepare for your first competition and ride at least one but hopefully two tests. To achieve this goal you might:

- a) set a time-frame of about two/three months in order to work towards that goal
- b) find a local competition where you feel within your comfort zone
- c) enter a test that suits your level of training and competency
- d) try to time your competition to coincide with training or practice days at the venue where you will be competing

#### F.2 Welfare of the horse

Be aware of the EA's requirement for the welfare of the horse (refer to [Section I](#)).

#### F.3 Membership/Registration requirements

- a) refer to the EA General Regulations for membership requirements
- b) obtain an entry form for the competition you feel is appropriate
- c) the entry form will point out the conditions of entry which are fairly standard but sometimes may have some local rules

#### F.4 Entries

- a) refer to [Section 4](#) for information about entries
- b) keep a copy of your entry in order that you can refer back to it if necessary

#### F.5 Verifying which Preparatory and Freestyle tests apply

There are different versions of Preparatory tests and Freestyles used throughout Australia. Therefore, you should obtain from the organisers of the event a copy of the test you have entered, including time permitted.

#### F.6 Learning the test

Refer to the EA rule book for the diagram of the arenas. If a caller is used, you must still know the test. Refer to the EA rules for information.

## F.7 Pre-Competition requirements

Important paperwork required includes:

- a) EA Dressage Rules and test sheet which you should read. It is your responsibility to know the rules
- b) horse registration papers, if applicable
- c) the time draw from the event organiser
- d) conditions of entry for the local event and
- e) copy of entries
- f) check that your dress and the horse's equipment comply with the rules as the legality and use of some equipment is restricted to specific areas (see [Section 5](#))

## F.8 Transport requirements

- a) do not leave it until the day of competition to see if your horse will load
- b) do you need to borrow a horse trailer? If so, try and arrange to have a practice run to the event venue
- c) is your vehicle legally able to tow the trailer?

## F.9 Competition day

- a) leave yourself plenty of time to arrive and be at the venue before you ride
- b) on arrival report to the event office and obtain your identification number if applicable
- c) check if there are any scratchings/withdrawals.
- d) if arenas are already going, are they running to time?
- e) check location of gear check area
- f) check location of your competition area, your warm-up and exercise areas
- g) locate the area set aside for lungeing, if required
- h) keep hydrated at all times

## F.10 Warm-up techniques

For further information regarding warm-up techniques, please refer to [Annex B](#) and FEI Hyperflexion Guidelines, which is available on the FEI website [www.fei.org](http://www.fei.org)

### F.10.1 Preparation and mounting

- a) only the nominated rider can ride a horse at an event, with the exception of a groom who, when mounted, may walk on a comfortable long rein
- b) riders must be neatly dressed at all times when mounted. It is best that once you mount the horse you are correctly attired (see [Section 5](#)), with the exception of a competition jacket
- c) once you have finished your final warm-up go straight to the competition area via the Gear Steward

### F.10.2 Etiquette for the warm-up arena

As there are many horses warming up in a restricted area it is important that all riders have knowledge of the etiquette required in group riding. This ensures safe riding and achieves harmony in busy areas.

- a) safety is paramount and a collision should be avoided at all times
- b) before entering the warm-up area make sure the gateway and immediate track are clear
- c) riders should pass left shoulder to left shoulder when on the outside track
- d) when not on the outside track, e.g. on a diagonal line, riders should give way to horses on their left
- e) the more progressive gait has priority on the track (e.g. horses trotting should give way to horses cantering)
- f) a halt should not be on the track
- g) walking should not be on the track and does not have right of way
- h) trot has priority over walk
- i) canter has priority over trot
- j) lateral work has priority over all paces
- k) when circling, anticipate your return to the track so as to not stop the flow of other riders

- l) mounting, dismounting and gear adjustment should be done off the track
- m) consideration should be given to behaviour of other horses in the arena that may upset your horse
- n) it may be necessary to leave the area if your horse is upsetting others
- o) if a horse is upsetting the majority, an official should be sought with a view to requesting that horse's removal for safety's sake
- p) be aware of stallions wearing green stallion discs

## **F.10.3 Gear check**

Section 5 refers to the areas in which certain gear is allowable. Report to the gear check area immediately after your test. Gear check is compulsory after each test ridden.

## **F.11 Entering the competition area**

Care must be taken to get no closer than 15 m, if possible, to the competition arena (as defined in Section 3) whilst there is a competitor in that arena.

## **F.12 Reporting to the judge and riding the test**

The time draw allocates you a time for riding. You cannot be forced to ride before this time. However, if the horse prior to you is scratched and you are ready to ride, consideration should be given to approaching the judge.

By presenting to the judge, even if you are early, you are indicating that you are ready to ride. Therefore, if you are not ready to enter the arena immediately, wait away from the competition area until such time as you are ready, or your start time arrives. The reason for this is to allow all competitors equal warm-up time around the arena, therefore, not benefiting any combination.

### **F.12.1 Reporting to the judge**

- a) if Horse Identification numbers have been issued there is no need to stop and talk to the judge; simply ride past each judge ensuring that your Horse Identification number can be clearly seen
- b) if you have a medical problem that restricts your hearing let the judge know so that they can make a clear indication when to start the test
- c) if Horse Identification numbers are not issued, once the horse before you leave the arena, progress to the Chief Judge at C and await instructions
- d) a judge's instruction may be 'I have a bell' or 'I will ring the bell and hold my hand out the window' to let you know when to enter the arena
- e) if you do not have a Horse Identification number make sure all judges know your name and the name of your horse
- f) once you have given this, recommence warming up around the arena, when the previous horse leaves the arena
- g) once the judge rings the bell you have 45 seconds to enter the arena. The penalty is 0.5% per judge if this exceeded. If you are not sure if you heard the bell, circle again and re-present to the Chief Judge
- h) entering the arena before the bell may entail a penalty of 0.5% per judge

### **F.12.2 Riding the test**

- a) at the salute competitors must take the reins in one hand. A whip may be held in either hand at the salute
- b) the requirement is to only salute the Judge at C
- c) salute, then pick up the reins and continue when ready
- d) only at the salute at the beginning and end of a test and when exiting the arena may the reins be held in one hand (except for Freestyles as part of the degree of difficulty)
- e) in Preliminary and Novice tests a rider has the option of doing sitting or rising trot
- f) in all higher tests, trot work is executed sitting unless otherwise stated
- g) see Section 2 for the rules on how to perform a movement
- h) if riders elect to retire before the completion of a test, the protocol is to raise a hand to the judge at C (if safe to do so) indicating retirement and to leave the arena immediately

## F.13 Elimination, technical faults and penalties

Refer to [Section 3](#) and [Annex E](#) for information on riding the test and the various penalties for errors of course and other types of penalties, including elimination.

## F.14 Callers and video operators

- a) callers should stand with their back to the wind so riders can hear them. This can be at either E or B
- b) it is advisable for riders to have a predetermined subtle signal to give to their callers if they need the movement to be re-called
- c) riders must not speak to their callers, but the rules permit the repeating once only of the calling of a movement
- d) calling with too loud a voice should be avoided
- e) videoing from the centre line at A gives you the reverse of the judge's point of view
- f) any recording or camera equipment and operators must be at least 10 m from the judge's car and not restrict the judge's view

## F.15 After the competition

- a) Should an error be suspected by the organising committee or scorer prior to the posting of scores, consultation with the appropriate judge to confirm should occur.
- b) once the placings are posted for the test you rode you can pick up your test sheets
- c) check that there is a point in each box. If you are unsure of the result you can check the adding up
- d) if a protest is to be lodged it must be within 30 minutes of the posting of the placings
- e) officials and competitors need to abide by the Codes of Conduct and the EA Member Protection Policy (located on the EA website <https://www.equestrian.org.au/policies> )
- f) if a rider would like to discuss their marks with the judge/s concerned then they should do this in a polite non-confrontational manner and have test sheets with them for reference. The discussion should take place in a private area. Refer to EA General Regulations 169.6.3 for the penalty in relation to incorrect behaviour towards event officials or any other party connected with the event (other rider, journalist, public, etc)
- g) if you are unable to stay at the event venue to collect your test the organisers will post the test to you if you provide a stamped, self-addressed envelope
- h) remember to thank the organisers before you leave the ground, it may encourage them to run another competition for you

## F.16 Role of stewards

Under EA and FEI rules stewards are required to stop riders if they have observed:

- a) neck stretching achieved through forced or aggressive riding
- b) the use of extreme flexion if it does not comply with the definition of stretching
- c) a rider deliberately maintaining a sustained fixed head or neck carriage longer than 10 minutes
- d) in cases where the horse is showing signs of general stress and/or fatigue

The steward may also ask the rider to walk for a certain amount of time in situations where the rider's stress may cause undesired riding (refer to [Annex B](#)).

A maximum duration of pre-competition warm-up of one hour is the standard; riders require permission from the Chief Steward (which will be granted only in exceptional circumstances) to extend a training session beyond one hour. The training session must include relaxation periods. They do not include walking on a loose rein, to or from stables, or for exercise prior to or post-test warmup.

Riders are also reminded that post-test repetition of movements may not exceed 10 minutes.

NOTE: Chief Steward in consultation with OC may reduce maximum duration due to welfare of horse e.g., extreme weather conditions

If you are competing at an FEI-approved event (i.e. CDI, CDIY, CDIJ, CDIP) it is essential that you make yourself aware of rules that specifically relate to FEI events. In particular, riders are reminded that no one, other than the rider may carry a whip in training or warm-up areas.

- any negotiation must take place at the time of the invitation
- when a rider, who is also an accredited judge, has entered to compete at an event and subsequently is asked to judge at the same event, the usual practice shall be that the rider/judge is paid the judging out-of-pocket expense only, but not the travel money.
- for judge protocol sessions, it is recommended that judges are reimbursed a maximum of \$40/30 minute protocol session plus milage at the current recommended rate for judges, or by prior negotiation.

## ANNEX J

### Directives for assessing the degree of difficulty in Freestyle tests at FEI level (as of I.I.16 FEI Regulations)

#### Initial comments

The assessment of the degree of difficulty in a Freestyle test cannot be made separately from the other technical and artistic scores. There is a close connection between the degree of difficulty and the technical execution. Lack of quality in the execution of the movement is considered a deficit in the performance ability of rider and/or horse. These must be taken into consideration as deductions in the degree of difficulty scoring.

The **basic requirements** of the Freestyle are achieved when the rider shows all compulsory movements listed in the test sheets for each level. The rider can increase the degree of difficulty and raise the score for their performance (when executed with technical correctness) by:

- a) appropriate repetition of single exercises, especially the exercises with a coefficient
- b) exceeding the minimum requirements of the exercises, such as number of simple and flying tempi changes or piaffe steps, but without exaggeration
- c) showing a steeper angle than requested in half passes possibly combined with changes of direction
- d) executing the movements on lines without the support of arena rails, such as on the inner track, the quarter or centre line, or on angled or curved lines, (e.g. circle or serpentine).
- e) well-chosen placing of movements in positions that make their execution more difficult: e.g. directly in front of the arena rails, as well as pirouettes directed outwards, possibly towards the spectators
- f) well-presented, clearly defined combinations of movements (e.g. half-passes in trot followed by half-passes in passage, flying changes every second stride immediately followed by changes every stride and vice versa)
- g) showing demanding and difficult transitions (e.g. piaffe or passage derived from the halt without prior development of impulsion; transition from walk or halt directly into a series of flying changes; significant but still harmonious transitions out of an extended pace to a highly collected exercise: e.g. extended trot to piaffe or extended canter to (half) canter pirouette or piaffe
- h) performing movements or transitions with the reins in one hand but without exaggeration

A **well-calculated** risk is demonstrated when the Degree of Difficulty corresponds to the potential and the level of training of rider and horse. A challenging, technically correct performance is a significant testimony of a high standard of riding ability and the training of the horse. On the other hand, obvious mistakes in the execution of the movements may reflect an over-asking by the rider of the horse, which means a badly calculated risk, and the score for the Degree of Difficulty has to be reduced.
