PREAMBLE

These Jumping Rules ("**JRs**") set out the detailed rules of the FEI for international Jumping Events. They must be read in conjunction with the FEI Statutes, the FEI General Regulations ("**GRs**"), the FEI Veterinary Regulations ("**VRs**"), and all other FEI Rules and Regulations. Articles of the other FEI Rules and Regulations that may be cross-referenced in the JRs are as follows:

- (i) 1-99 refer to Articles of the FEI Statutes;
- (ii) 100-199 refer to Articles of the GRs;
- (iii) 200-399 refer to Articles of these JRs (which include rules for Jumping Championships);
- (iv) 1000-1099 refer to Articles of the VRs.

Every eventuality cannot be provided for in these JRs. In any unforeseen or exceptional circumstances, it is the duty of the appropriate person or body to make a decision in a sporting spirit, by approaching as near as possible the intention of the JRs and of the GRs. Should there remain any omissions in the JRs, such omission shall be interpreted in a manner compatible to the fullest extent with the other provisions of these JRs, other FEI Rules and Regulations, and sporting spirit.

THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The FEI requires all those involved in international equestrian sport to adhere to the FEI Code of Conduct and to acknowledge and accept that at all times the welfare of the Horse must be paramount. Welfare of the Horse must never be subordinated to competitive or commercial influences. The following points must be particularly adhered to:

1. **General Welfare:**

a) Good Horse management

Stabling and feeding must be compatible with the best Horse management practices. Clean and good quality hay, feed and water must always be available.

b) Training methods

Horses must only undergo training that matches their physical capabilities and level of maturity for their respective Disciplines. They must not be subjected to methods which are abusive or cause fear.

c) Farriery and tack

Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.

d) Transport

During transportation, Horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent personnel. Competent handlers must always be available to manage the Horses.

e) Transit

All journeys must be planned carefully, and Horses allowed regular rest periods with access to food and water in line with current FEI guidelines.

2. **Fitness to compete:**

a) Fitness and competence

Participation in Competition must be restricted to fit Horses and Athletes of proven competence. Horses must be allowed suitable rest period between training and Competitions; additional rest periods should be allowed following travelling.

b) Health status

No Horse deemed unfit to compete may compete or continue to compete, veterinary advice must be sought whenever there is any doubt.

c) Doping and Medication

Any action or intent of doping and illicit use of medication constitute a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before Competition.

d) Surgical procedures

Any surgical procedures that threaten a competing Horse's welfare or the safety of other Horses and/or Athletes must not be allowed.

e) Pregnant/recently foaled mares

Mares must not compete after their fourth month of pregnancy or with foal at foot.

f) Misuse of aids

Abuse of a Horse using natural riding aids or artificial aids (e.g. whips, spurs, etc.) will not be tolerated.

3. **Events must not prejudice Horse welfare:**

a) Competition areas

Horses must be trained and compete on suitable and safe surfaces. All obstacles and Competition conditions must be designed with the safety of the Horse in mind.

b) Ground surfaces

All ground surfaces on which Horses walk, train or compete must be designed and maintained to reduce factors that could lead to injury.

c) Extreme weather

Competitions must not take place in extreme weather conditions that may compromise welfare or safety of the Horse. Provision must be made for cooling conditions and equipment for Horses after competing.

d) Stabling at Events

Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the Horse. Washing-down areas and water must always be available.

4. Humane treatment of Horses:

a) Veterinary treatment

Veterinary expertise must always be available at an Event. If a Horse is injured or exhausted during a Competition, the Athlete must stop competing and a veterinary evaluation must be performed.

b) Referral centres

Wherever necessary, Horses should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured Horses must be given full supportive treatment before being transported.

c) Competition injuries

The incidence of injuries sustained in Competition should be monitored. Ground surface conditions, frequency of Competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

d) Euthanasia

If injuries are sufficiently severe a Horse may need to be euthanized on humane grounds by a veterinarian as soon as possible, with the sole aim of minimising suffering.

e) Retirement

Horses must be treated sympathetically and humanely when they retire from Competition.

5. Education:

The FEI urges all those involved in equestrian sport to attain the highest possible levels of education in areas of expertise relevant to the care and management of the Competition Horse.

This Code of Conduct for the Welfare of the Horse may be modified from time to time and the views of all are welcomed. Particular attention will be paid to new research findings and the FEI encourages further funding and support for welfare studies.

CHAPTER I INTRODUCTION

ARTICLE 200 GENERAL

200.1 Rules and regulations applicable to Jumping Events

- 200.1.1 FEI Jumping Competitions and Events, including CSIs, CSIOs, and Championships, are governed by and must be organised in accordance with the following rules (each as amended from time to time): these JRs, the FEI Statutes, the GRs, the VRs, the FEI Code of Conduct for the Welfare of the Horse, the FEI Equine Anti-Doping and Controlled Medication Regulations, the FEI Anti-Doping Rules for Human Athletes, and any other rules, policies or documents issued by the FEI from time to time that apply according to their terms to Jumping Events (collectively, the "**FEI Rules and Regulations**").
- 200.1.2 By registering with the FEI, submitting an entry for an Event, and/or participating in any capacity in an Event, Athletes, Support Personnel, owners, teams, Chefs d'Equipe, NFs, OCs, and other persons participating in the Event are deemed to have undertaken to comply with the FEI Rules and Regulations, not only during the Event itself but also in the course of preparing for the Event, and will be liable for the consequences set out in the FEI Rules and Regulations in the event of any breach.

200.2 The equestrian Discipline of Jumping

- 200.2.1 A Jumping Competition is one in which the Athlete/Horse Combination is tested under various conditions over a course of obstacles. It is a test intended to demonstrate the Horse's freedom, energy, power, skill, and speed in Jumping and the Athlete's horsemanship.
- 200.2.2 The winner of the Competition is the Athlete who incurs the least number of Penalties (e.g. fence knock downs, Refusals, exceeding the time allowed, etc; see JRs Art 244.1) and completes the course in the fastest time or gains the highest number of points, depending on the format of the Competition.
- 200.2.3 Variety in Jumping Competitions is encouraged and therefore there are a number of different Competition formats. While the JRs are intended to standardise the rules and regulations that apply to Jumping Competitions, they are not intended to standardise the nature of the Competitions since variety provides an important element of interest for Athletes and spectators alike.

EA

EA: Other competitions may be held provided their conditions comply with the requirements laid down in the rules of Equestrian Australia and the FEI General Regulations and Rules for Jumping Events.

200.3 Categories of FEI Jumping Events

- 200.3.1 International-level Jumping Events are divided into:
- 200.3.1.1 International Events (**CSIs**);

Events and Championships may also be organised for different categories of Horses, including Young Horses and stallions.

200.4 Event levels

- 200.4.1 CSIs and CSIOs are divided into five star levels (1* to 5*, with 5* being the highest level) based on the height of the obstacles, technical challenges, and total prize money offered. The FEI will determine what CSI star level requirements apply to any Event, in consultation with the Jumping Committee, the OC, and relevant NFs.
- 200.4.2 Championships and Games may be organised at different levels and for different categories.

200.5 Official Calendar

200.5.1 The Official Calendar is a comprehensive online database that lists all FEI-recognised Events, providing details on, among other things, Event schedules, OCs, venues, and Officials. A request to host an FEI Event must be submitted by the NF on behalf of the OC. Once an application has been accepted by the FEI, the Event will be published in the Official Calendar. Further details on the Official Calendar are set out in GRs Art 112 and Appendix K.

200.6 Schedule

The Schedule is a document approved by the FEI for each Event that provides NFs and Athletes with relevant information about the Event and sets out additional rules or criteria that apply to the organisation of the Event. The Schedule provides details about, among other things, the dates and location of the Event, the dates by which entries must be received, the Disciplines in which Competitions will be held, the programme of Competitions, the Categories, nationalities and other relevant details of invited Athletes and Horses, the stabling and accommodation available, the value of the prizes and their distribution, and any other relevant details. These JRs shall come into force on 1 January 2026.

201.2 Transitional provisions

All tack and equipment (saddlery) and artificial aid rules and principles will be placed in a separate standalone document. It is proposed that these new requirements for Jumping will take effect as of 1 January 2027 in order to give sufficient time to Athletes to adjust. The current tack, equipment, and artificial aid rules, collected in Annex VIII, will remain in force during the transitional period from 1 January 2026.

- 213.1.2 Regional Games and Championships for Categories other than Seniors (excluding Regional Championships, see JRs Art 208.2.2): the Chief Steward must be appointed by the FEI Jumping Director in consultation with the Jumping Committee and be a minimum Level 3 Steward.
- 213.1.3 All CSIOs and CSIs: the Chief Steward must be appointed by the OC and be a minimum Level 3 Steward.

213.2 Foreign Steward

- 213.2.1 The FEI will appoint a Foreign Steward for all (i) 5* Events, (ii) Events of any star level organised by the same/related OC at the same venue over at least three consecutive weeks, and (iii) Events of any star level taking place consecutively at the same venue during the same week and/or on overlapping weeks.
- 213.2.2 All Foreign Stewards appointed to these Events must be selected from the FEI list of Stewards and be a minimum Level 3 Steward.
- 213.2.3 The Foreign Steward is appointed in addition to the Chief Steward and other Stewards.

213.3 Stewards

- 213.3.1 In addition to the Chief Steward and (if applicable) Foreign Steward, a minimum of four Stewards must be appointed for each Event by the OC.
- 213.3.2 If Competitions are running concurrently in any additional arenas, a minimum of three additional Stewards per arena must be appointed by the OC. The FEI may request that the OC appoint additional Stewards depending on the number of Events running concurrently at the same venue; the number of Competitions per day; the number of Horses entered for the Event; and/or the size and layout of the venue.
- 213.3.3 All Stewards appointed to Events must be selected from the FEI List of Stewards and have the minimum qualification level required for the highest level Competition of the Event as set out below:

 - 213.3.3.2 CSI1*/CSIO1* up to CSI3*/CSIO3*: minimum Level 1 Steward.

ARTICLE 214 CONFLICTS OF INTEREST

A substantial appearance of a conflict of interest exists whenever others may reasonably infer from the given circumstances that a conflict exists. A conflict of interest is defined as any personal, professional, or financial relationship, including relationships of family members that could influence or be perceived to influence objectivity when representing or conducting business or other dealings for or on behalf of the FEI. Refer to the FEI Code of Conduct for Officials at GRs Appendix H.

ARTICLE 215 TECHNICAL ASSISTANCE (VIDEO)

- 215.1 Competitions must be fair for all Athletes. To achieve this objective, the use of all technical assistance available (including official video recordings, subject to JRs Art 255) is permitted to assist FEI Officials in carrying out their responsibilities under the FEI Rules and Regulations (see GRs Arts 161.15 to 161.17).
- 215.2 For official video recordings to be accepted under the FEI Rules and Regulations, they must be presented to the President of the Ground Jury within 30 minutes after the official results are announced. An "official video recording" is a recording made by the designated host broadcaster and/or any other accredited broadcaster and/or a designated official video recording company as named by the OC and/or the FEI prior to the Event in question. Videos recorded by any other entity shall not constitute official video recordings under any circumstances.
- 215.3 A review of the official video recording is solely at the discretion of the President of the Ground Jury. If the Ground Jury relies on an official video recording to alter the outcome of any Competition after the results have been communicated, such video must contain irrefutable evidence that the original ruling or decision was incorrect.
- 215.4 The use of video evidence must always be within the confines of the applicable rules and must never by its usage alter the rules currently in effect.

CHAPTER IV COMPETITION SCORING AND FORMATS

ARTICLE 216 GENERAL

- 216.1 Each Competition (regardless of format) must be subject to either Table A or Table C scoring. Athlete/Horse Combination scores in a Competition are determined by the number of Penalties incurred for Faults during their round, according to JRs Art 217.1 (Table A) or JRs Art 217.2 (Table C), as applicable.
- 216.2 There are a number of different Competition formats for individuals and teams. This Chapter covers the Competition formats that are most commonly used at Events. Any Competition format covered by this Chapter must be run strictly in accordance with these JRs. An OC may propose new Competition formats to encourage variety in the sport, but any new formats are subject to the FEI's prior written approval.

ARTICLE 217 COMPETITION SCORING

217.1 Table A

217.1.1 Faults under Table A are penalised (i) with Penalties, or (ii) by Elimination, as set out in the table below:

FAULT	PENALTY
First Disobedience	Four Penalties
Obstacle knocked down	Four Penalties
Fault at the Water Jump (see JRs Art 236.1.3)	Four Penalties
Exceeding the time allowed	One Penalty for each second commenced
Fall of Horse and/or Athlete	Elimination
Second Disobedience or other infringement under JRs Art 263.4 <i>EA when the Competition is over 1.15m. in height.</i>	Elimination
<i>EA: Second Disobedience if the Competition is 1.15m and under in height.</i>	8 Penalties
<i>EA: Third Disobedience if the Competition is 1.15m and under in height</i>	Elimination
Exceeding the maximum time limit	Elimination
Uncorrected deviation from the course	Elimination
Unauthorised assistance	Elimination

217.1.2 Adding the Penalties for Faults gives the score obtained by the Athlete/Horse Combination for their round. The official results of a Competition must provide the total number of Penalties incurred by the Athlete/Horse Combination and also separately specify the time Penalties and any other Penalties incurred during the round.

217.1.3 Competitions judged under Table A may be designated as Against the Clock or Not Against the Clock.

217.1.4 If any Athlete/Horse Combinations are tied on Penalties, the tie may be resolved based on the time taken to complete the round (faster round wins), depending on the conditions set out in the Schedule.

217.1.5 For the avoidance of doubt, Penalties for Disobediences accumulate not just at the same obstacle, but throughout the entire round.

217.2 Table C

217.2.1 Faults under Table C are penalised (i) in seconds that are added to the time taken by the Athlete to complete their round, or (ii) by Elimination, as set out in the table below:

FAULT	PENALTY
Obstacle knocked down; or Fault at the Water Jump (see JRs Art 236.1.3)	Four seconds for outdoor Competitions (except for the second phase of two-phase Competitions and for any jump-off under table C where the Penalty is three seconds); Three seconds for indoor Competitions

First Disobedience	None
First Disobedience, with a knock down and/or displacing of an obstacle	Six seconds
<i>EA: Second Disobedience if the Competition is 1.15m and under in height.</i>	None
<i>EA: Second Disobedience, when Competition is 1.15m and under in height with a knock down and/or displacing of an obstacle</i>	Six Seconds
<i>EA: Third Disobedience if the Competition is 1.15m and under in height</i>	Elimination
Second Disobedience <i>if the Competition is over 1.15m</i> or other infringement under JRs Art 263.4	Elimination
Fall of Horse and/or Athlete	Elimination
Uncorrected deviation from the course	Elimination
Unauthorised assistance	Elimination

217.2.2 Adding the Penalties for Faults gives the score obtained by the Athlete/Horse Combination for their round.

217.2.3 Competitions under Table C do not have a time allowed, but the maximum time limit for a round is:

217.2.3.1 three minutes, if the length of the course is 600 m or more; or

217.2.3.2 two minutes, if the length of the course is less than 600 m.

217.2.4 Exceeding the maximum time limit results in Elimination.

217.3 Training in speed Competitions under Table A or C

Athletes wishing to do a training round in Competitions Against the Clock under Table A or C must inform the OC at the time of submission of declarations. Those wishing to do a training round will start first in the Competition. Athletes not complying with the above may be Eliminated by the Ground Jury (see JRs Art 263.5.4).

ARTICLE 218 JUMP-OFFS

218.1 General

218.1.1 No Competition may have more than one jump-off, unless specified otherwise in these JRs (see e.g. JRs Art 230 *Power and Skill Competitions*, Chapter XII *Continental and World Championships for Seniors*, and Chapter XIII *Continental Championships for Youth and Veterans*).

218.1.2 The Schedule must specify if a Competition will have a jump-off. If not specified, the Competition will be deemed not to have a jump-off.

218.1.3 Jump-offs may be held as specified in the Schedule where:

218.1.3.1 more than one Athlete/Horse Combination have not incurred any Penalties in the preliminary round(s) of the Competition;

218.1.3.2 there are Athlete/Horse Combinations tied in first place after one or more preliminary round(s) of the Competition; or

218.1.3.3 there are Athlete/Horse Combinations tied for podium places at a Championship or Games.

218.1.4 Subject to JRs Art 218.1.5, all jump-offs must be held immediately after completion of the preliminary round(s) of the Competition.

218.1.5 If specified in the Schedule, the OC may decide that Athletes who have completed their preliminary round without Penalties, must proceed to the jump-off immediately following their preliminary round (i.e. without exiting the Competition Arena between rounds). In this case, the bell must be rung again to signal the Athlete to start the jump-off course, during which the 45-second rule set out in JRs Art 241.6.1.2 applies. Athletes qualified for this jump-off are not allowed to leave the Competition Arena between their preliminary round and the jump-off. This type of jump-off is only allowed for Competitions under Table A and is not permitted for a Grand Prix Competition or for the Competition with the highest prize money, if not the Grand Prix. If there are

no clear rounds in the preliminary round, the classification is established according to JRs Art 220.1.1 or 220.2.1.1, as applicable.

- 218.1.6 In principle, a jump-off must take place under the same rules and Table as the preliminary round(s) of the Competition and the rules for jump-offs in that type of Competition. However, the jump-off of a Table A Competition may be judged under Table C, provided that it is specified in the Schedule.
- 218.1.7 Athletes must start the same Horse in the jump-off as in the preliminary round(s).
- 218.1.8 Subject to JRs Art 218.1.9, the starting order in the jump-off must remain the same as the starting order for the round preceding the jump-off, except where specified otherwise in the Schedule or the JRs.
- 218.1.9 The starting order in the jump-off of an individual Competition counting for the Longines Rankings may be established in reverse order of the Athletes' times in the previous round as an alternative to the same starting order used in the previous round. The method of establishing the starting order in the jump-off must be specified in the Schedule. If not specified, the starting order will be the same as in the previous round.

218.2 **Obstacles in the jump-off**

- 218.2.1 The obstacles in the jump-off may be altered in height and/or spread (partially or totally), subject to the limits set out in the JRs or the Schedule. However, the dimensions of the obstacles in the jump-off may only be increased if the Athlete/Horse Combinations taking part in the jump-off completed the previous round(s) without Penalties.
- 218.2.2 If the original course included Combination(s), the jump-off must also include at least one Combination.
- 218.2.3 The number of obstacles in a jump-off may be reduced to a minimum of six (Combinations count as one obstacle for these purposes).
- 218.2.4 The shape, type, and colour of the obstacles for a jump-off may not be altered, but it is permitted to leave out one or more of the elements of a Combination obstacle. If the Combination obstacle is a treble or a quadruple, the centre element(s) may not be omitted.
- 218.2.5 The order of the obstacles for a jump-off may be altered compared to the original course.
- 218.2.6 The distance between the elements of a Combination obstacle may never be altered during a jump-off.
- 218.2.7 A maximum of two additional obstacles may be added to the jump-off course.
 - 218.2.7.1 Both obstacles must be on the course during the course inspection or must be built from obstacles of the previous round(s). If obstacles from the previous round(s) are built differently or with new obstacle material for the jump-off, they will not count as extra obstacles for the jump-off, provided that the change of material has been approved by the Ground Jury and notified to Athletes in the course plan. The two additional obstacles may consist of two spread or two vertical obstacles or one spread and one vertical. It must be clearly indicated both on the course plan and at the obstacle(s) in question, whether the obstacle(s) may be jumped from either side or just from one side. If an obstacle included in the previous round(s) is jumped from the opposite direction in the jump-off, the obstacle is considered as one of the two additional obstacles allowed. A vertical in the first or second round may be converted to a spread obstacle or vice-versa in the jump-off, in which case it will be considered one of the two additional obstacles.
 - 218.2.7.2 Alternatively, a Combination consisting of two verticals in the previous round(s) may be jumped in the opposite direction in the jump-off, in which case the Combination constitutes the two additional obstacles allowed in the jump-off.

218.3 **Elimination, retirement, or withdrawal from a jump-off, second round, or winning round**

- 218.3.1 An Athlete who retires, is Eliminated, or withdraws with the permission of the Ground Jury from a jump-off, second round, or winning round will be placed equal last in the jump-off/second round/winning round after all Athletes who have completed the round. The same applies to teams taking part in team Competitions except in the case of teams withdrawing from the second round of a Nations Cup Competition, as teams that withdraw from the second round are not entitled to any prize money (see JRs Art 226.8.4) and will be placed according to their score in the first round.
- 218.3.2 An Athlete who withdraws from a jump-off, second round, or winning round without the permission of the Ground Jury or without informing the Ground Jury will be placed after Athletes having withdrawn with the permission of the Ground Jury, retired, or been Eliminated in the jump-off/second round/winning round. The same applies to teams taking part in team Competitions except in the case of teams withdrawing from the second round of a Nations Cup Competition, as teams that withdraw from the second round are not entitled to any prize money (see JRs Art 226.8.4) and will be placed according to their score in the first round.

- 218.3.3 If before a jump-off, all Athletes qualified for the jump-off decline to take part in the jump-off, the Ground Jury will decide whether this refusal can be accepted or must be rejected. If the Ground Jury accepts the refusal, the OC will award the trophy by lot and the prize money will be added together and shared equally between the Athletes. If the Ground Jury's instruction to continue is not followed by Athletes, no trophy will be awarded and the Athletes will be placed in (and each only receive the prize money for) the lowest placing for which they would have competed for in the jump-off.

ARTICLE 219 NORMAL COMPETITIONS AND GRAND PRIX COMPETITIONS

- 219.1 Normal Competitions (i.e. any Competition that is not a Grand Prix or World Cup Competition) and Grand Prix Competitions are those in which performance over obstacles is the principal factor, although speed may be introduced in a jump-off. The course is built primarily to test the ability of the Horse over the obstacles. The number of obstacles and their type, height, and spread (subject to the limits specified in the JRs) are the responsibility of the OC. These Competitions are judged under Table A, either Against the Clock or Not Against the Clock, but always with a time allowed.
- 219.2 **Grand Prix formats**
- 219.2.1 The term "Grand Prix" may only be used once for each Category (e.g. CSIIY, CSIJ, CSI3*) during an Event. Grand Prix Competitions must be explicitly designated in the Schedule and must (subject to JRs Art 219.3) be conducted using one of the following formats:
- 219.2.1.1 over one round with a jump-off Against the Clock;
 - 219.2.1.2 over two rounds (identical or different) with a jump-off Against the Clock; or
 - 219.2.1.3 over two rounds, with the second round Against the Clock.
- 219.2.2 At CSIO Events, the Grand Prix Competition must be conducted using one of the following formats:
- 219.2.2.1 one round Against the Clock with a jump-off Against the Clock; or
 - 219.2.2.2 two rounds without a jump-off; or
 - 219.2.2.3 two rounds and a jump-off.
- 219.2.3 Where there are two rounds in the Grand Prix, all Athlete/Horse Combinations that complete the first round without any Penalties must proceed to the second round. The number of obstacles in the first round must be limited to 15 and to nine in the second round.
- 219.3 **Qualification for Grand Prix (or other Competition with the highest prize money)**
- 219.3.1 If qualification conditions for Athlete/Horse Combinations are scheduled for the Grand Prix at a CSIO Event, the following are automatically qualified if present as official team members or individuals:
- 219.3.1.1 the individual Jumping medal winners (Athlete/Horse Combinations) of the last Olympic and Pan American Games;
 - 219.3.1.2 the individual Jumping medal winners (Athlete/Horse Combinations) of the last World and Continental Championships (provided that the Competitions at the Continental Championships were conducted in accordance with the Competition format and at the maximum height of obstacles established under these JRs);
 - 219.3.1.3 the first placed Athlete/Horse Combination in the last FEI Jumping World Cup™ Final; and
 - 219.3.1.4 the winners (Athlete/Horse Combination) of the Grand Prix at any 5* CSIO Event during the previous 12 months.
- 219.3.2 If qualification conditions for Athlete/Horse Combinations are scheduled for the Grand Prix at a CSI Event (excluding CSI Events that are part of a series approved by the FEI Board), the following are automatically qualified if present:
- 219.3.2.1 the winner (Athlete/Horse Combination) of that Event's Grand Prix the previous year (provided that, for the Grand Prix at a CSI3*/CSI4*/CSI5* Event, the previous year's Event was the same star level or a higher star level);
 - 219.3.2.2 the current National Jumping Champion (Athlete/Horse Combination) of the host country;
 - 219.3.2.3 the individual Jumping medal winners of the last Olympic and Pan-American Games;

- 219.3.2.4 the individual Jumping medal winners of the last World and Continental Championships (provided that the Competitions at the Continental Championships were conducted in accordance with the Competition format and at the maximum height of obstacles established under these JRs); and
- 219.3.2.5 the winner of the last FEI Jumping World Cup™ Final.
- 219.3.3 If qualification conditions for Athlete/Horse Combinations are scheduled for the Grand Prix Competition at a CSIO or CSI, all qualifying Competitions must be run under Table A Against the Clock or under Table A with a jump-off or with two rounds (JRs Art 221) or with a winning round (JRs Art 223) or in a normal two phase Competition (JRs Art 222.1). Competitions in groups with a winning round (JRs Art 224) and special two-phase Competitions (JRs Art 222.2) may not be used as qualifying Competitions for the Grand Prix. If Nations Cup Events (JRs Art 226) are used as a qualifier, only the first round may count.
- 219.3.4 To be eligible to take part in a Grand Prix and/or other Competition with the highest prize money at a CSI or CSIO (excluding Derby Competitions), the Athlete/Horse Combination must first have completed (together as a combination) the initial round of at least one Competition at the same Event from among those listed below. If an Athlete/Horse Combination has completed the initial round of one of these Competitions prior to the Grand Prix and/or other Competition, and the Athlete is subsequently Eliminated or Disqualified from the Competition in question, the Athlete may take part in the Grand Prix and/or other Competition (if qualified) with the same Horse as the Horse is deemed to have fulfilled the eligibility requirement of completing the initial round of an Competition prior to the Grand Prix and/or other Competition. If the Grand Prix or other Competition with the highest prize money is held on the first day of the Event or is the only Competition at the Event, regardless on which day it is held, the OC must schedule a training session to provide Athlete/Horse Combinations with the opportunity to jump in the Competition Arena prior to the Grand Prix or other Competition. The qualification requirements in this JRs Art 219.3.4 also apply to FEI Jumping World Cup™ Events.
- 219.3.4.1 Only the following Competitions may fulfil the eligibility requirement for Horses taking part in the Grand Prix:
- (a) Normal Competitions
 - (b) Speed and Handiness Competitions
 - (c) Nations Cup Competitions
 - (d) Sponsor Team and other Team Competitions
 - (e) Accumulator Competitions
 - (f) Competition over Two Rounds
 - (g) Normal Two-Phase Competitions (it is sufficient to complete the first phase)
 - (h) Special Two-Phase Competitions (both phases must be completed to fulfil the Horse eligibility requirement)
 - (i) Competitions in Groups with winning Round
 - (j) Competitions with winning Round
 - (k) Derby
 - (l) Competitions over Combinations
 - (m) Longines League of Nations™ Competitions
- 219.3.4.2 For the avoidance of doubt, the eligibility requirement for Horses taking part in the Grand Prix may not be fulfilled in any of the following Competitions: Puissance; Six Bar; or Special Two-Phase Competition where only the first phase is completed.
- 219.3.5 In addition to the above Article, to be eligible to take part in the Grand Prix and/or the FEI Jumping World Cup™ Competition at a CSI(O)5* or CSI5*-W Event if there is no qualification system in place, Athletes must have achieved, with the Horse with which they wish to compete in the Grand Prix and/or the FEI Jumping World Cup™ Competition, the following result within the 12 months prior to the day of the Grand Prix of the Event: four Penalties or less in the initial round of a 1.50 m Competition or higher run under Table A, excluding Puissance and Six Bar Competitions. This requirement does not apply to the Athlete/Horse Combinations pre-qualified for the Grand Prix at CSI Events according to JRs Arts 219.3.1 and 219.3.2.

ARTICLE 220 COMPETITION OVER ONE ROUND

220.1 Competitions Not Against the Clock judged under Table A

- 220.1.1 The following are different format options for Competitions Not Against the Clock, each judged under Table A (in each case, there is a time allowed):
- 220.1.1.1 Athletes with equality of Penalties for any place share the prizes and there is no jump-off; or
- 220.1.1.2 in the event of equality of Penalties for first place there may be a jump-off Not Against the Clock. Other Athletes are placed according to their Penalties in the first round and, in the event of equality of Penalties for any place other than first, Athletes will share the prizes; or

220.1.1.3 in the event of equality of Penalties for first place there may be a jump-off Against the Clock. Other Athletes are placed according to their Penalties in the first round and, in the event of equality of Penalties for any place other than first, Athletes will share the prizes.

220.1.2 A jump-off held in accordance with one of the formats under JRs Art 220.1.1 may take place over a shortened course of obstacles which may be altered in height and/or spread (subject to JRs Art 218.2.1).

220.2 **Competitions Against the Clock judged under Table A**

220.2.1 The following are different format options for Competitions Against the Clock, each judged under Table A (in each case, there is a time allowed):

220.2.1.1 Athletes with equality of Penalties for any place are placed in accordance with the time taken to complete the round and there is no jump-off; or

220.2.1.2 in the event of equality of Penalties for first place, there may be a jump-off Against the Clock judged under Table A. Other Athletes are placed according to their Penalties and time in the first round; or

220.2.1.3 in the event of equality of Penalties for first place, there may be a jump-off Against the Clock judged under Table C. Other Athletes are placed according to their Penalties and time in the first round. This format is only permitted for Competitions without Longines Ranking points and must be specified in the Schedule; or

220.2.1.4 in the event of equality of Penalties and time for first place, there may be a jump-off Against the Clock. Other Athletes are placed according to their Penalties and time in the first round.

220.2.2 A jump-off held in accordance with one of the formats under JRs Art 220.2 may take place over a shortened course of obstacles which may be altered in height and/or spread (subject to JRs Art 218.2.1).

EA 220.2.3 Competitions against Optimum Time

Optimum Time can be applied to all Table A competitions.

Speed is calculated at 325 metres per minute.

“Optimum Time” is 4 seconds less than the Time Allowed.

Athletes with a time 4 seconds over or under the Optimum Time will incur one time penalty for every second commenced.

The track measured for both the first round and jump off round must be indicated on the Course Plan. In the event of equality of penalties and time either over or under closest to the Optimum Time will be placed equal.

EA 220.2.4 Split Height Competitions:

Only competitions with a first round height of 1.35m and above may be conducted as Split Height Competitions. The minimum heights difference is 5cm and the maximum height difference is 10cm. All athletes shall jump the same track for both height divisions and the same 2nd round or jump-off if there is one. Horses may only start in one height division. Athletes may ride different horses in each division.

Total prize money for the combined height divisions shall be awarded on the following basis:

- 60 percent to the highest division
- 40 percent to the lower division

ARTICLE 221 COMPETITION OVER TWO ROUNDS

221.1 This Competition comprises two courses with the same speed. The two courses may be identical or different, whether in track, number of obstacles, or in the dimensions of the obstacles. Each Athlete must participate with the same Horse in both rounds. Athletes who have been Eliminated or who have retired during the first round may not take part in the second round and may not be placed.

221.2 All Athletes must take part in the first round. The Schedule must specify which Athletes will continue to the second round, which may be either:

221.2.1 all Athletes; or

221.2.2 a limited number of Athletes (either a percentage or a set number of Athletes, in any case at least 25%, as specified in the Schedule) in accordance with their placing in the first round (based on Penalties only or Penalties and time, as specified in the Schedule). The Schedule must specify the exact percentage or number of Athletes to return for the second round, subject to the below:

221.2.2.1 If the first round is Not Against the Clock, all Athletes tied on Penalties for first place, plus any Athletes tied on Penalties for the last qualification place, return for the second round even if the number of starters in the second round would then be more than specified in the Schedule.

221.2.2.2 If the first round is Against the Clock, the OC may select either of the following options (provided that such option is specified in the Schedule):

(a) at least 25% or a set number of Athletes, the exact percentage or number to be specified in the Schedule, return for the second round based on their Penalties and time in the first round; or

(b) at least 25% or a set number of Athletes, the exact percentage or number to be specified in the Schedule, return for the second round based on their Penalties and time in the first round and, in any event, all Athletes without Penalties in the first round return for the second round.

Notwithstanding the above, in all Grand Prix Competitions, all Athletes without Penalties will return to the second round even if this number is higher than the percentage established in the Schedule.

221.3 The manner of judging this Competition must be specified in the Schedule in accordance with one of the following formulas:

	First Round	Second Round		Jump-Off
#	Table A	Table A	Starting order	Starting order
3.1	Against the Clock	Not Against the Clock	Reverse order of Penalties and time in the 1 st round; Athletes retain their drawn order in case of equality of Penalties and time	Same as 2 nd round
3.2	Not Against the Clock	Not Against the Clock	Reverse order of Penalties in the 1 st round; Athletes retain their drawn order in case of equality of Penalties	Same as 2 nd round
3.3.1	Against the Clock	Against the Clock	Reverse order of Penalties and time in the 1 st round; Athletes retain their drawn order in case of equality of Penalties and time	No jump-off
3.3.2	Not Against the Clock	Against the Clock	Reverse order of Penalties in the 1 st round; Athletes retain their drawn order in case of equality of Penalties	No jump-off
3.4.1	Against the Clock	Against the Clock	Reverse order of Penalties and time in the 1 st round; Athletes retain their drawn order in case of equality of Penalties and time	Same as 2 nd round
3.4.2	Not Against the Clock	Against the Clock	Reverse order of Penalties in the 1 st round; Athletes retain their drawn order in case of equality of Penalties	Same as 2 nd round

221.4 Classification based on the above formulas is determined as follows:

221.4.1 Formula at table row 3.1: The classification will be established according to the Penalties and time in the jump-off. Classification of Athletes not qualified for the jump-off will be according to aggregate Penalties over both rounds and the time incurred in the first round.

221.4.2 Formula at table row 3.2: The classification will be established according to the Penalties and time in the jump-off. Classification of Athletes not qualified for the jump-off will be according to aggregate Penalties over both rounds.

221.4.3 Formula at table rows 3.3.1 and 3.3.2: The classification will be established according to aggregate Penalties over both rounds and the time incurred in the second round. Classification of Athletes not qualified for the second round will be (i) according to Penalties and time in the first round (if the first round is Against the Clock), or (ii) according to the Penalties incurred in the first round (if the first round is Not Against the Clock)

221.4.4 Formula at table rows 3.4.1 and 3.4.2: The classification will be established according to the Penalties and time in the jump-off. Classification of Athletes not qualified for the jump-off will be according to aggregate Penalties over both rounds and the time incurred in the second round. Classification of Athletes not qualified for the second round will be (i) according to Penalties and time in the first round (if the first round is Against the Clock) or (ii) according to Penalties in the first round (if the first round is Not Against the Clock).

ARTICLE 222 COMPETITION IN TWO PHASES

222.1 Normal Competition in Two-Phases

222.1.1 This Competition comprises two phases run without interruption, each at an identical or different speed, the finishing line for the first phase being identical with the starting line for the second phase. Athletes with no Penalties in the first phase continue to the second phase of the course, which finishes after crossing the second finishing line.

222.1.2 The first phase is a course of seven to nine obstacles with or without Combinations. The second phase takes place over four to six obstacles, which may include no more than one Combination.

222.1.3 Athletes with Penalties in the first phase are halted by ringing the bell after they have jumped the last obstacle in the first phase or (if the time allowed for the first phase has been exceeded) after crossing the finishing line of the first phase. These Athletes must stop after crossing the first finishing line and may not continue to the second phase.

222.1.4 The manner of judging this Competition must be specified in the Schedule in accordance with one of the following formulas:

#	First phase	Second phase	Placing
4.1	Table A Not Against the Clock	Table A Not Against the Clock	According to the Penalties in the 2 nd Phase. Athletes who do not qualify for the 2 nd Phase are placed according to the Penalties in the 1 st Phase.
4.2	Table A Not Against the Clock	Table A Against the Clock	According to the Penalties and time in the 2 nd Phase. Athletes who do not qualify for the 2 nd Phase are placed according to the Penalties in the 1 st Phase.
4.3	Table A Against the Clock	Table A Against the Clock	According to the Penalties and time in the 2 nd Phase. Athletes who do not qualify for the 2 nd Phase are placed according to the Penalties and time in the 1 st Phase.
4.4	Table A Not Against the Clock	Table C	According to the total time (Table C) of the 2 nd Phase. Athletes who do not qualify for the 2 nd Phase are placed according to the Penalties in the 1 st Phase.
4.5	Table A Against the Clock	Table C	According to the total time (Table C) of the 2 nd Phase. Athletes who do not qualify for the 2 nd Phase are placed according to the Penalties and time in the 1 st Phase.

222.1.5 Athletes stopped after the first phase may only be placed after Athletes who have taken part in both phases. Athletes who are Eliminated or who retire in the second phase will be placed equal last after all Athletes who completed the second phase.

222.1.6 In the event of equality for first place, the tied Athletes will be placed equal first.

222.1.7 In order to fulfil the eligibility requirement for Horses taking part in the Grand Prix (see JRs Art 219.3.4), it is sufficient to complete the first phase of Competitions conducted according to any of the formulas listed in JRs Art 222.1.4.

222.2 Special Two-Phase Competition

222.2.1 This Competition comprises two phases run without interruption, each at an identical or different speed, the finishing line for the first phase being identical with the starting line for the second phase. Athletes completing the first phase may continue to the second phase of the course, which finishes after crossing the second finishing line.

222.2.2 The first phase is a course of five to seven obstacles with or without Combinations. The total number of obstacles in both phases is a minimum of 11 and maximum of 13 obstacles. The second phase may include no more than one Combination.

222.2.3 This Competition must be judged in accordance with the following formula:

First phase	Second phase	Placing
Table A Not Against the Clock Minimum 5 - Maximum 7 obstacles	Table A Against the Clock Remaining obstacles (total of minimum 11 and maximum 13 obstacles in both phases)	According to the aggregate Penalties in both phases and, if necessary, according to the time of the 2 nd phase

222.2.4 Athletes who are Eliminated or retire from either the first or second phase will not be placed.

222.2.5 In the event of equality for first place, the tied Athletes will be placed equal first.

222.2.6 In order to fulfil the eligibility requirement for Horses taking part in the Grand Prix (see JRs Art 219.3.4), both phases of Competitions conducted according to JRs Art 222.2.3 must be completed.

ARTICLE 223 COMPETITION WITH WINNING ROUND

223.1 Competition with two rounds and winning round

223.1.1 In this Competition the best 16 Athletes of the first round qualify for the second round, in which they start in reverse order of the results (Penalties and time) of the first round. The best eight Athletes according to the total Penalties and time of both rounds, or of the second round only, participate in the winning round. The starting order in the winning round is in reverse order of total Penalties and time over both rounds, or of the second round only, according to the conditions of the Schedule. In the winning round, all Athletes start with zero Penalties. This Competition format may not be used for the Grand Prix or for the Competition with the highest prize money (if not the Grand Prix).

223.1.2 All three rounds are judged under Table A Against the Clock. If an Athlete/Horse Combination exceeds the time allowed in the winning round, they are penalised with one Penalty point for every second commenced.

223.1.3 The course of the second round may be different from that of the first round. The course of the winning round must be a shortened course over obstacles of the first and/or second round, and two new single obstacles may be added.

223.1.4 If an Athlete qualified for the winning round does not start in this round, they will not be replaced.

223.1.5 Refer to JRs Art 218.3 for details on the classification of Athletes who withdraw, retire, or are Eliminated from the winning round.

223.2 Competition with one round and winning round

223.2.1 In this Competition at least 25% and a minimum of ten Athletes of the first round qualify for the winning round, in which they start in reverse order of the results (Penalties and time) of the first round. In the winning round, all Athletes start with zero Penalties. This Competition format may not be used for the Grand Prix or for the Competition with the highest prize money (if not the Grand Prix).

223.2.2 The exact percentage or number of Athletes to return for the winning round must be specified in the Schedule, in accordance with the options below:

223.2.2.1 at least 25% or a set number of Athletes, in any case a minimum of ten Athletes, qualify for the winning round based on their Penalties and time in the first round; or

223.2.2.2 at least 25% or a set number of Athletes, in any case a minimum of ten Athletes, qualify for the winning round, based on their Penalties and time in the first round, and, in any event, all Athletes without Penalties in the first round, qualify for the winning round.

223.2.3 Both rounds are judged under Table A Against the Clock. If an Athlete/Horse Combination exceeds the time allowed in the winning round, they are penalised with one Penalty point for every second commenced.

223.2.4 The course of the winning round must be a shortened course over obstacles of the first round, two new single obstacles may be added.

223.2.5 If an Athlete qualified for the winning round does not start in this round, they will not be replaced.

- 223.2.6 Refer to JRs Art 218.3 for details on the classification of Athletes who withdraw, retire, or are Eliminated from the winning round.

ARTICLE 224 COMPETITION IN GROUPS WITH WINNING ROUND

- 224.1 In this Competition the Athletes are divided into groups. They can either be divided by draw, according to the results of a qualifying Competition, or according to a recent Jumping Ranking, to be specified in the Schedule. The way in which the Athletes are divided among the groups, and how the starting order within the groups is determined, must be specified in the Schedule. First, all Athletes in the first group start, then all Athletes in the second group and so on. The best Athlete of each group qualifies for the winning round. The OC may stipulate in the Schedule that a limited number of Athletes who have not obtained the best result in their group, but who are the next best of all Athletes, also qualify for the winning round. All Athletes in the winning round start with zero Penalties. Athletes in the winning round will retain their starting order of the first round or, if so specified in the Schedule, they will start in reverse order of the results (Penalties and time) in the first round. This Competition format may not be used for the Grand Prix or for the Competition with the highest prize money (if not the Grand Prix), or as a qualifying Competition for another Competition.
- 224.2 The first round and the winning round are judged under Table A Against the Clock.
- 224.3 All Athletes participating in the winning round must receive prize money.
- 224.4 If an Athlete qualified for the winning round does not start in this round, they will not be replaced.

ARTICLE 225 SPEED AND HANDINESS COMPETITION

- 225.1 These Competitions are judged under Table C. In the event of equality for first place, the Athletes will be placed equal first, unless there is specific provision for a jump-off in the Schedule of the Event.
- 225.2 Courses must be twisting, with varied obstacles (alternative obstacles allowed, giving the Athlete the opportunity to shorten their track, but by taking a more difficult obstacle).
- 225.3 The course plan must not set out a fixed track to be followed. The course plan must only be marked with a series of arrows showing the direction in which each obstacle must be jumped. Compulsory turning points are included on the course plan only if absolutely necessary.

ARTICLE 226 NATIONS CUP

226.1 Organisation

The Nations Cup is the official international team Competition. Its object is to compare the merit of Athletes and Horses from different NFs under the following conditions:

- 226.1.1 A Nations Cup may only be organised at a CSIO. In principle, the CSIO season in Europe is reserved for outdoor Events only, unless otherwise agreed by the FEI in exceptional circumstances.
- 226.1.2 At least three NFs must take part in this Competition for it to be recognised as a Nations Cup.
- 226.1.3 If, for any reason, this Competition is organised under another name, the words "Nations Cup" must be added as a subtitle.
- 226.1.4 It is the only Competition in which official teams represent NFs. To preserve its special character, there must be no individual placing.
- 226.1.5 The total prize money must be at least equal to 50% of the amount provided for the Grand Prix Competition or for the Competition with the highest prize money (if there is no Grand Prix), unless the FEI Secretary General approves otherwise.
- 226.1.6 Prize money must be awarded to all teams participating in the second round.
- 226.1.7 The Competition takes place over two rounds over the same course on the same day.
- 226.1.8 The Nations Cup is judged under Table A, with both rounds Against the Clock.

226.2 Different Categories of Nations Cup Competitions

A CSIO 5*, 4*, 3*, 2* or 1* may be held. The star level of the CSIO depends on the total amount of prize money for the Event, in accordance with Annex II.

226.3 Obstacles and other technical requirements

226.3.1 Subject to JRs Art 226.3.2, the number and dimensions of the obstacles and the length of the course must be within the following limits:

	5* NC	4* NC	3* NC	2* NC	1* NC
Number of obstacles	12	12	12	12	12

226.3.2 Nations Cup Competitions at CSIO4* Events and Nations Cup/Longines League of Nations™ Competitions at CSIO5* Events on the list of qualifying Events for the Olympic Games, World Championship, and/or Continental Championship for Seniors must also comply with the technical specifications established in JRs Art 281.3.3 and the Olympic Regulations. The dimensions of the obstacles in JRs Art 281.3.3 and the Olympic Regulations take precedence over the dimensions of obstacles set out in the table above.

226.3.3 The course must include a Water Jump, except that it is optional for indoor arenas (if used indoors, the spread may be less than indicated in the table above). Refer to JRs Art 236.1 and Annex IV for details relating to the construction of the Water Jump. The Water Jump may be omitted only in very exceptional circumstances and with the express permission of the FEI Secretary General. The measurements for the Water Jump given above include the take-off element.

226.3.4 No Combination obstacle may require more than three jumping efforts, except in the case of permanent obstacles, banks, mounds, or slopes at outdoor Events.

226.3.5 The course must include (i) one double and one treble Combination, (ii) two doubles, or (iii) three doubles.

226.3.6 The length of the course in indoor arenas may be shorter than indicated in the table above.

226.3.7 If the Ground Jury decides before the first or the second round that the course has been rendered impracticable as a result of unforeseen circumstances, it may direct that the dimensions of some obstacles be reduced or that they be moved slightly and/or that the required speed is reduced. In consultation with the Course Designer, the Ground Jury may also direct that the dimensions of some obstacles be increased for the second round if it considers that the course of the first round was too easy.

226.4 Athletes in Nations Cup

226.4.1 A full Nations Cup team comprises four Athletes each riding the same Horse throughout the Competition. If an NF invited with a team cannot provide a team of four Athletes, it may enter a team of three Athletes (see JRs Art 271). All members of each team must take part in the first round, except as specified in JRs Art 226.4.2 and in JRs Art 226.8.3 relating to a Fall prior to crossing the start line.

226.4.2 If a team comprising four Athletes cannot improve its placing in the first or second round after its third Athlete has completed their course, the fourth Athlete may be withdrawn.

226.5 Participation in Nations Cup

Participation in Nations Cup Competitions is subject to the following conditions:

226.5.1 The Athletes and Horses are chosen from the official team, declared by the Chef d'Equipe before the first Competition. The Chef d'Equipe will, on the day preceding the Nations Cup, declare the four Athletes and Horses, including their starting order within the team.

- 226.5.2 When a team can only provide three Athletes and three Horses, its Chef d'Equipe must start their three Athletes and Horses.
- 226.5.3 Except in circumstances beyond control recognised as such by the Ground Jury, participation in this Competition is compulsory for all NFs officially represented by a team of at least three Athletes. A team that abstains or withdraws and therefore fails to participate forfeits all prize money won during the entire Event and loses any right to claim accommodation expenses.
- 226.5.4 In the event of an accident or illness affecting an Athlete and/or Horse between the submission of the declaration and one hour before the start of the Competition, the Athlete and/or Horse may be replaced by another Athlete and/or Horse entered with the definite entries for the official team (see JRs Art 277) on production of a certificate from an officially recognised medical doctor and/or with the permission of the Veterinary Commission and after approval by the Ground Jury. In the event of substitution, the starting order remains unchanged.
- 226.5.5 If all NFs are permitted to enter individuals in addition to team members, substitution of an individual Athlete onto a team is permitted in the case of illness or accident where the maximum number of team members allowed to participate is four (see JRs Art 277).

226.6 **Starting order**

- 226.6.1 The starting order of the teams in the first round is determined by a draw in the presence of the Ground Jury and the Chefs d'Equipe. The draw will take place at a time fixed by the OC in agreement with the Ground Jury.
- 226.6.2 All the number ones start first in succession, then all the number twos and so on. The Chefs d'Equipe of teams comprising only three Athletes may choose in which of the three positions out of four they will start their Athletes.
- 226.6.3 The starting order of the teams in the second round will be in the reverse order of the total Penalties in the first round of the best three Athletes in each team. In case of equality of Penalties the teams will start in reverse order of the combined Penalties and times of their best three Athletes in the first round.
- 226.6.4 The Athletes in each team start in the same order as in the first round.

226.7 **Number of teams and Athletes in the second round**

- 226.7.1 At the discretion of the OC, the best six (minimum) to ten (maximum) teams after the first round take part in the second round with four Athletes per team, except as otherwise specified in JRs Art 226.4.2 and 226.5.2. If there are fewer than six teams participating in the first round, all teams, if not Eliminated in the first round, may take part in the second round with four Athletes per team, respectively with three Athletes if as provided in JRs Art 226.4.2 and 226.5.2.
- 226.7.2 Those teams equal on Penalties for sixth, seventh, eighth, ninth, or tenth place (depending on the number of teams to take part in the second round) will be separated by the total times of the three best Athletes of each team in the first round (see JRs Art 226.9.1).
- 226.7.3 The OC must indicate in the Schedule whether the home team will return for the second round as an extra team if it is not qualified among the six to ten teams eligible to take part. The home team will only be permitted to return for the second round if there is a difference of not more than eight Penalties between the home team and the last qualified team for the second round.

226.8 **Elimination, Disqualification, retirement, and withdrawal**

- 226.8.1 If two or more Athletes of a team participating with four Athletes in the first or second round are Eliminated, Disqualified, or retire, the whole team will be Eliminated in the round.
- 226.8.2 If one Athlete of a team participating with three Athletes in the first or second round is Eliminated, Disqualified, or retires, the whole team will be Eliminated in the round.
- 226.8.3 Teams Eliminated in the second round will be placed equal last in the second round and are eligible to receive prize money. Refer to JRs Art 226.1 for details relating to prize money in the second round.
- 226.8.4 If a team is qualified to take part in the second round, an Athlete Eliminated or retired in the first round may start in the second round. If a team qualified for the second round has an Athlete who did not take part in the first round due to a Fall of the Athlete and/or Horse prior to crossing the start line, the Athlete/Horse Combination is not Eliminated from the first round and will instead be listed in the results as "did not start". In such a case, the protocol in JRs Art 248.2 applies and the Ground Jury may exclude an Athlete who has fallen from participating further in the Competition and/or the Event in accordance with GRs Art 140.2. Refer to JRs Art 226.1 for details relating to prize money for teams Eliminated in the second round.
- 226.8.5 In case of a Fall in the Warm-Up Arena, the Ground Jury will give the Athlete in question a new starting position if considered necessary.

- 226.8.6 A team that is qualified to take part in the second round may only withdraw from the second round with the permission of the Ground Jury. In this case, the team will not receive prize money and will be placed according to its score in the first round (see JRs Art 226.9.1). It will not be replaced by another team.

226.9 **Placing and classification**

- 226.9.1 Classification is the ranking of all Athletes who participated in a Competition. Classification of teams is based on the total Penalties of the three best Athletes of each team. If the team did not participate in the second round, this will be based on the result in the first round. Teams with equality of Penalties are placed according to the combined Penalties and times of their best three Athletes.

- 226.9.2 Placing refers to those Athletes who receive prizes in accordance with the Schedule. The placing of teams after the second round is decided as follows:

- 226.9.2.1 In case of equality of Penalties for first place, there will be a jump-off in which one Athlete per team will participate. The Chef d'Equipe determines which member of their team will participate in the jump-off. Any one of the team members may take part in the jump-off. The jump-off takes place Against the Clock over a minimum of six obstacles. In case of equality of Penalties and time after the jump-off, the teams concerned will be placed equal first.

- 226.9.2.2 Teams with equality of total Penalties for other places after the second round are placed according to the total Penalties of their best three Athletes in both rounds and the combined times of their best three Athletes in the second round. In case of equality of total Penalties and combined times in the second round, the teams concerned will be separated by the combined times of their three best Athletes in the first round.

226.10 **Nations Cup at other Events**

If a Nations Cup is organised at other Events, such as CSIOY, CSIOJ, CSIOCh, or CSIOP, JRs Art 226.1 to 226.9 apply unless specified otherwise below or in Chapter XIV.

226.10.1 **CSIOCh and CSIOP Events**

- 226.10.1.1 The Nations Cup at CSIOCh and CSIOP Events is judged under Table A Not Against the Clock with a time allowed in both rounds.

- 226.10.1.2 For all CSIOCh and CSIOP Events, the classification of teams is based on the total Penalties of the three best Athletes of each team. If the team did not participate in the second round, this will be based on the result in the first round. Teams with equality of Penalties are placed equal.

- 226.10.1.3 The starting order of teams in the second round will be in the reverse order of the total Penalties in the first round of the best three Athletes in each team. In case of equality of Penalties, the teams will retain the same starting order as in the first round. The placing of teams after the second round is decided as follows:

- (a) In case of equality of Penalties for first place, there will be a jump-off in which all team Athletes may take part. The jump-off takes place Against the Clock over a minimum of six obstacles. Classification of the teams in the jump-off is based on the total Penalties of the three best Athletes of each team in the jump-off. Teams with equality of Penalties are placed according to the combined Penalties and times of their best three Athletes.
- (b) Teams with equality of total Penalties for other places after the second round are placed equal.

226.10.2 **CSIOY and CSIOJ Events**

- 226.10.2.1 The Nations Cup at CSIOY and CSIOJ Events is judged under Table A, both rounds Against the Clock.

- 226.10.2.2 For all CSIOY and CSIOJ Events, the classification of teams is based on the total Penalties of the three best Athletes of each team. If the team did not participate in the second round, this will be based on the result in the first round. Teams with equality of Penalties are placed according to the combined Penalties and times of their best three Athletes.

- 226.10.2.3 The starting order of teams in the second round will be in the reverse order of the total Penalties and time in the first round of the best three Athletes in each team. In case of equality of Penalties and time the teams will retain the same starting order as in the first round.

- 226.10.2.4 The placing of teams after the second round is determined as follows:

- (a) In case of equality of Penalties for first place, there will be a jump-off in which all team Athletes may take part. The jump-off takes place Against the Clock over a minimum of six

obstacles. Classification of the teams in the jump-off is based on the total Penalties of the three best Athletes of each team in the jump-off. Teams with equality of Penalties are placed according to the combined Penalties and times of their best three Athletes.

- (b) Teams with equality of total Penalties for other places after the second round are placed according to the total Penalties of their best three Athletes in both rounds and the combined times of their best three Athletes in the second round. In case of equality of total Penalties and combined times in the second round, teams will be placed according to the combined times of their three best Athletes in the first round.

ARTICLE 227 SPONSOR TEAM AND OTHER TEAM COMPETITIONS

227.1 Sponsor Team Competitions

- 227.1.1 Sponsor Team Competitions involve a Competition between sponsor teams (each with three or four Athletes) registered with the FEI in accordance with JRs Art 227.1.3 which must be run in accordance with the requirements specified in the Schedule and these JRs. Sponsor Team Competitions may not be arranged at CSIOs or CSI-W Events or Championships and may never be called a Nations Cup Competition or be run according to any Nations Cup format.
- 227.1.2 Sponsor Team Competitions may be arranged either as separate Competitions or within a Competition that also has an individual classification. Team Athletes participating in Sponsor Team Competitions must be listed in the starting list only by name and team rather than by name and NF.
- 227.1.3 Corporations or organisations, with the exception of political or religious organisations, may sponsor a team consisting of a minimum of three Athletes. In order to participate in Competitions, sponsor teams must be registered with the FEI and have paid the annual registration fee (this fee is CHF 10'000 for a team of up to four Athletes, which includes protection of the sponsor team jacket, plus CHF 1'000 for each additional Athlete). Each member of a sponsor team must have a written commercial agreement with the corporation or organisation under whose name the team competes.

227.2 Other Team Competitions

Other Competitions for teams may be organised, according to the conditions specified in the Schedule. However, they may never be called a Nations Cup Competition or Sponsor Team Competition and there can be no reference to representation of a nation.

ARTICLE 228 DERBY

- 228.1 A Derby Competition takes place over a distance of at least 1000 m and not more than 1300 m over a course comprising at least 50% of the efforts over natural obstacles. A Derby Competition must be run in one round only and may, if specified in the Schedule, be run with a jump-off.
- 228.2 A Derby Competition may be judged under Table A or Table C. If judged under Table C, there is no time allowed, just a maximum time limit. The maximum time limit may be increased at the discretion of the Ground Jury if the length of the course exceeds the requirements for establishing the time limit as set out in JRs Art 217.2.
- 228.3 Even if the Derby Competition has the highest prize money of the Event, each Athlete may ride a maximum of four Horses, subject to the conditions of the Schedule.

ARTICLE 229 ACCUMULATOR COMPETITION

- 229.1 This Competition takes place over six, eight, or ten obstacles with an increasing difficulty. Combination obstacles are not permitted. The increasing difficulty is not solely due to the height and spread of the obstacles, but also to the difficulty of the track.
- 229.2 Bonus points are awarded as follows: one point for obstacle number one not knocked down, two points for number two not knocked down, three points for number three not knocked down, etc. with a total of 21, 36 or 55 points. No point is awarded for an obstacle knocked down. Faults other than knock-downs are penalised as for Table A.
- 229.3 This Competition may take place with the following formats: (i) first round Against the Clock without a jump-off, (ii) first round Against the Clock with a jump-off in case of equality of points for first place following the initial round, or (iii) first round Not Against the Clock with a jump-off in case of equality of points for first place following the initial round. In case of a jump-off there must be a minimum of six obstacles, which may be increased in height and/or spread. The obstacles in the jump-off must be jumped in the same order as in the first round and retain their respective points allotted in the first round.
- 229.4 If the Competition takes place Not Against the Clock with a jump-off, Athletes not qualified for the jump-off are placed according to their points obtained in the first round, disregarding the time. If the Competition takes place with the first round Against the Clock and a jump-off, Athletes not qualified for the jump-off are placed according to Penalties and time obtained in the first round.

- 229.5 For the last obstacle of the course, an alternative obstacle may be provided, of which one element may be designated the Joker. The Joker must be more difficult than the alternative obstacle and carry double points. If the Joker is knocked down, these points must be deducted from the total points obtained so far by the Athlete. At the discretion of the Course Designer, two Jokers may be included instead of one as alternatives to the last obstacle jumped. In this case, the first Joker will carry 150% of the points of the last obstacle on the course; the second Joker must be more difficult than the first Joker and will carry 200% of the points of the last obstacle on the course. The Athlete may jump one of the two Jokers as an alternative to the last obstacle. If the Joker is correctly jumped, the Athlete earns 150%, respectively 200%, of the points of the last obstacle on the course. If the Joker is knocked down, 150%, respectively 200%, of the points of the last obstacle of the course must be deducted from the total points obtained so far by the Athlete.

ARTICLE 230 POWER AND SKILL COMPETITIONS

230.1 General

- 230.1.1 The aim of these Competitions is to demonstrate the ability of the Horse to jump a limited number of large obstacles.
- 230.1.2 These Competitions are judged under Table A.
- 230.1.3 In the event of equality for first place, there must be successive jump-offs. The obstacles in the jump-offs must always be the same shape, the same type, and the same colour as in the initial round. If, at the end of the third jump-off, there is no single winner, the Ground Jury may stop the Competition. After the fourth jump-off, the Ground Jury must stop the Competition and the Athletes left in the Competition are placed equal. If, after the third jump-off, the Athletes do not wish to continue, the Ground Jury must stop the Competition. There cannot be a fourth jump-off if Athletes have not had a faultless round in the third jump-off.
- 230.1.4 Time is never a deciding factor in the event of equality of Penalties. There is no time allowed and no time limit.

230.2 Puissance

- 230.2.1 The initial round must comprise four to six single obstacles of which at least one must be a vertical obstacle. The first obstacle must be at least 1.40 m in height, two obstacles from 1.60 m to 1.70 m, and one wall or vertical obstacle which may vary from 1.70 m to 1.80 m in height. Combination obstacles, Water Jumps, ditches, and natural obstacles are not permitted. It is permissible to use a wall with a sloping face on the take-off side (maximum slope of 30 cm offset at the base).
- 230.2.2 A vertical obstacle instead of a wall may be used, in which case, planks with a pole on top or a Combination of planks and poles with a pole on top or all poles may be used as a substitute.
- 230.2.3 In the event of equality for first place, there must be successive jump-offs over two obstacles, which must be a wall or a vertical obstacle and a spread obstacle (see JRs Art 218.2). In the jump-offs, both obstacles must be increased regularly in height and the spread obstacle also in spread. The vertical obstacle or wall may be increased in height only if Athletes equal for first place have not been penalised in the preceding round (see JRs Art 218.2).

230.3 Six Bar

- 230.3.1 In this Competition, six vertical obstacles are placed in a straight line with approximately 11 m between each obstacle. The number of obstacles may be reduced to a minimum of four if required due to the size of the Competition Arena.
- 230.3.2 The obstacles must be identically constructed and composed only of poles of the same type. The cups supporting the poles must have a maximum depth of 20 mm.
- 230.3.3 The height of the obstacles may be set as follows:
- 230.3.3.1 all obstacles set at the same height (for example 1.20 m); or
 - 230.3.3.2 each obstacle set at progressively increasing heights (for example 1.10 m, 1.20 m, 1.30 m, 1.40 m, 1.50 m, 1.60 m); or
 - 230.3.3.3 the first two obstacles set at 1.20 m, the next two at 1.30 m, and so on.
- 230.3.4 In the event of a Refusal or Run-out, the Athlete must restart the course at the obstacle where the Fault was made.
- 230.3.5 The first jump-off must take place over the six (or minimum four) obstacles (per JRs Art 230.3.1), which must be raised in height unless the Athletes who are equal for first place were penalised in the first round. After the first jump-off, the number of obstacles may be reduced to a minimum of four (the lower obstacles should be withdrawn) but the distance between them must be kept at about 11 metres as required initially.

ARTICLE 231 COMPETITION OVER COMBINATIONS

- 231.1 The course must consist of six obstacles; a single obstacle as the first obstacle and five Combinations. At least one obstacle must be a treble Combination.
- 231.2 The Competition over Combinations may be judged under Table A or Table C.
- 231.3 If there is a jump-off according to the conditions of the Schedule, the jump-off course must comprise six obstacles. It must include either (i) a double Combination, a treble Combination, and four single obstacles, or (ii) three double Combinations and three single obstacles. To achieve this, some elements of the Combination obstacles for the first round must be removed.
- 231.4 JRs Art 241.2.4 does not apply to this Competition. However, the length of the course may not exceed 600 m.

CHAPTER V OBSTACLES

ARTICLE 232 OBSTACLES - GENERAL

- 232.1 An obstacle consists of the faultable part and may have supporting parts. In vertical and spread jumps, the faultable part corresponds to the flagged section of the obstacle. At least the upper quarter of the faultable part consists of knock-down top elements (poles/planks/wall boxes). The side parts that hold up the knock-down elements (standards) correspond to the supporting parts of the obstacle and do not form part of the faultable part of the obstacle.
- 232.2 The obstacles must be inviting in their overall shape and appearance, varied, match their surroundings, and be designed with horsemanship and fairness in mind. Both the obstacles themselves and their constituent parts must be such that they can be knocked down, while not being so light that they fall at the slightest touch or so heavy that they may cause Horses to Fall or be injured.
- 232.3 Poles and other parts of the obstacles are held up by supports (cups). The pole must be able to roll on its support; the support must have a depth of 18 mm minimum and a depth of 20 mm maximum. These requirements also apply to safety cups used for spread obstacles (see JRs Art 235 for details). For special obstacle material and planks, balustrades, barriers, gates, etc, the diameter of the supports must be more open or even flat.

EA:

- 1.1 The first obstacle and the first obstacle of the first combination may be 10cm (4 inches) lower than the minimum recommended height.
- 1.2 Any jump off under Table A must include a combination and must not be raised more than 10cm in height or width, than the previous round.
- 1.3 The spread should be at least the same in height as in spread. The spread should never be more than one third greater than the height. (The exception is for triple bars).
- 1.4 The minimum starting height for Young Riders is 1.3 metres
- 1.5 These dimensions also apply for Speed Classes.

ARTICLE 233 HEIGHT OF OBSTACLES

- 233.1 Under no circumstances may any obstacle exceed 1.70 m in height, except in Six Bar and Puissance Competitions. Spread obstacles must not exceed 2.00 m in spread except for triple bars which may have a maximum spread of 2.20 m. The Water Jump may not exceed 4.00 m in spread including the take-off element. The height of obstacles at indoor Competitions must never exceed 1.65 m under any circumstances, except in Six Bar and Puissance Competitions.
- 233.2 Any minimum or maximum limits on the height and spread of obstacles specified in these JRs and in the Schedules applicable to specific Competitions and Championships must be strictly complied with. However:
- 233.2.1 If a maximum dimension has been marginally exceeded as a result of the material used for construction and/or by the position of the obstacle on the ground, the maximum dimensions set out will not be considered as having been exceeded, provided that every effort has been made to not exceed the maximum dimensions specified in the Schedule with the material available.
- 233.2.2 In Competitions for which the Schedule indicates a maximum height of 1.45 m or more, the height of obstacles in the Competition may, at the discretion of the Course Designer, exceed the height indicated in the Schedule by maximum 3 cm.

ARTICLE 234 VERTICAL OBSTACLE

A vertical obstacle is an obstacle that requires an effort in height, where the poles or planks (or other construction) are placed vertically without any spread. An obstacle whatever its construction may only be called a vertical when Faults are judged on the same vertical plane.

ARTICLE 235 SPREAD OBSTACLE

- 235.1 A spread obstacle is an obstacle that is built in such a manner that it requires an effort both in spread and in height. All spread obstacles may only have one pole at the back. Spread obstacles include oxers and triple bars.
- 235.2 FEI-approved safety cups must be used as support for the back pole of spread obstacles and in case of a triple bar to support the centre and back poles of the obstacle. The maximum depth of the safety cups for the top back pole of a spread obstacle is 18 mm; safety cups used for the centre poles of a triple bar or for lower poles of other obstacles may have a maximum depth of 20 mm. Approved safety cups must be used in the Competition Arena and Training Arena.
- 235.3 The President of the Ground Jury is responsible for enforcing the rules relating to safety cups. The Foreign Judge will report any non-compliance of the rules to the FEI. The name of the company that supplies the FEI approved safety cups to be used at the Event must be specified in the Schedule.

ARTICLE 236 WATER JUMP, WATER JUMP WITH VERTICAL, AND LIVERPOOL

236.1 Water Jump

- 236.1.1 For an obstacle to be called a Water Jump, there must be no obstacle in front, in the middle, or behind the water. The water must have a minimum spread in excess of 2.00 m. The Water Jump must be dug into the ground. See Annex IV for details on how the Water Jump must be constructed. A take-off element (brush, small wall), with a minimum height of 40 cm and a maximum height of 50 cm, must be erected on the take-off side. The width of the front of the Water Jump must be at least 30% greater than the length. If the bottom of the Water Jump is made of concrete or hard material, it must be covered with a softer non-slip material such as a coconut or rubber mat.

EA:

Maximum spread of 3.60 m. The water jump may be sited on top of the ground. The width of the front of the water jump must be at least 4 metres and greater than the length. This may include floral decorations.

EA:

At the Australian Jumping Championships the landing side of the water jump must be defined by a lath, at least six centimetres in width and not exceeding eight centimetres, covered with a bed of contrasting coloured plasticine about one centimetre thick. This plasticine must be replaced each time a Horse touches it. Several spare laths must be provided together with extra plasticine so that a lath, which has been marked by a Horse, may be replaced at any time. The lath must be placed at the edge of the water, properly fixed to the ground; at the time of the inspection of the course by the Ground Jury, the entire length of the lath must touch the water.

Alternative material to plasticine for the lath may be used in competitions where the total prizemoney is less than \$5,000.00, which includes corflute (plastic coated cardboard) or a white rubber strip.

1. EA: The water must be coloured sky blue.

- 236.1.2 At Olympic Games, Continental Games, Regional Games, Championships, CSIOs and CSIs, the landing side of the Water Jump must be defined by a lath, at least six centimetres in width and not exceeding eight centimetres, covered with a bed of contrasting coloured plasticine about one centimetre thick. This plasticine must be replaced each time a Horse touches it. Several spare laths must be provided together with extra plasticine so that a lath that has been marked by a Horse may be replaced at any time. The lath must be placed at the edge of the water, properly fixed to the ground; at the time of the inspection of the course by the Ground Jury, the entire length of the lath must touch the water.
- 236.1.3 A Fault at the Water Jump occurs when:
- 236.1.3.1 the foot or shoe of the Horse touches the lath and leaves an impression (impression of the fetlock joint or boot does not constitute a Fault); and/or
- 236.1.3.2 a Horse touches the water with one or several feet.
- 236.1.4 Striking, knocking down, or displacing the brush or take-off element of a Water Jump will not constitute a Fault.
- 236.1.5 If one of the four flags is knocked down or displaced, the Water Jump Judge will decide whether or not there has been a Run-out depending on which side of the flag the Horse has passed. If the Water Jump Judge considers that there has been a Run-out, the bell will be rung and the clock stopped while the flag that has been knocked down or displaced is put back and the Athlete/Horse Combination will receive a Penalty of six seconds in accordance with JRs Art 256 (regardless of whether the round is Table A or Table C). The decision of the Water Jump Judge is final. For this reason they must be a member of the Ground Jury.
- 236.1.6 The Water Jump Judge must register the identification number of Horses penalised at the Water Jump and the reason for the Penalties.
- 236.1.7 The Technical Delegate or (if there is no Technical Delegate) the Foreign Judge may, at their discretion, decide whether the Water Jump may be used in Competitions held under floodlight.

236.2 **Water Jump with vertical**

If the Water Jump does not meet the requirements of Annex IV, a vertical obstacle must be placed over the water. Only a vertical obstacle of not more than 1.50 m in height having any number of poles but all with the use of FEI-approved safety cups (see JRs Art 235) may be placed over open water. The depth of the safety cups for the top pole of the vertical is 18 mm; the safety cups for the lower poles may have a maximum depth of 20 mm. The vertical obstacle must not be placed further than two metres from the front of this obstacle. This obstacle is judged as a vertical obstacle and not as a Water Jump. For this reason it is not necessary to use a lath or other arrangement to define its limits. If a lath is used it is to be considered a visual aid only; Penalties will not be incurred for any imprints on the lath. The same applies if the take-off element is displaced. Only poles with a minimum length of 3.50 m may be used for a vertical placed over a Water Jump.

236.3 **Liverpool**

Subject to JRs Art 236.2, if water is used under, in front of, or behind an obstacle, the total spread of the obstacle (including the water) may not exceed two metres (this obstacle is called a "**Liverpool**"). Open water with a spread of more than two metres may not be used as a Liverpool. For all Liverpool obstacles, the front edge of the water tray must be placed either in alignment with the same vertical plane as the front poles or in front of the vertical plane of the front poles.

EA: If water is used under, in front of or behind an obstacle (a so-called "Liverpool") the total width of the obstacle (including the water) may not exceed two metres. For all Liverpool obstacles, the front edge of the water tray must be placed either in alignment with the same vertical plane as the front poles, or in front of the vertical plane of the front poles.

EA: The minimum length of the arena for using a water jump is 80 metres.

EA: There must not be any obstacle before or after the water jump less than 25 metres (6 strides) except at the National Jumping Championships

EA: If an open water is to be included in a Competition the water jump must be used prior to that competition with rails above the water by those Athletes who will jump the open water.

EA: The Course Designer must be EA Level 3 or FEI Level 2 or above accredited to include a water jump in the course.

ARTICLE 237 COMBINATION OBSTACLES

- 237.1 Combinations mean a group of two or more obstacles, with distances between the obstacles of a minimum of seven metres and a maximum of 12 metres (except for Speed and Handiness Competitions judged under Table C and for permanent fixed obstacles where the distance may be less than seven metres which require two or more successive efforts). The distance is measured from the base of the obstacle on the landing side to the base of the next obstacle on the take-off side.
- 237.2 In Combinations, each element of the group must be jumped separately and consecutively, without circling around any element.
- 237.3 When there is a Refusal or Run-out, the Athlete/Horse Combination must re-jump all of the elements of the Combination unless it is a closed Combination or partially closed Combination (see JRs Art 238) or a Six Bar.
- 237.4 Penalties for Faults made at each element of a Combination and during different attempts are counted separately and added together.
- 237.5 In a Combination, a triple bar may only be used as the first element.

ARTICLE 238 CLOSED COMBINATIONS AND PARTIALLY CLOSED COMBINATIONS

- 238.1 A Combination is considered to be completely closed if the sides that surround it can only be surmounted by jumping. A closed Combination may be in the form of an in-and-out, sheep pen, square or hexagonal, or any similar obstacle considered as a closed Combination by decision of the Ground Jury.
- 238.2 A Combination is considered as partially closed if one part of the Combination is closed and the other part is open.
- 238.3 Disobediences
- 238.3.1 In the event of a Disobedience with a knock down and/or displacing of the obstacle at any part, a six second Penalty will be applied. The six second Penalty is added to the time when the clock is restarted and the Athlete resumes their round.
- 238.3.2 In the event of a Refusal in a closed Combination, the Athlete/Horse Combination must jump out in the direction of the course.
- 238.3.3 In the event of a Refusal or Run-out in a partially closed Combination: (i) if the Disobedience occurred in the closed part, the Athlete/Horse Combination must jump out in the direction of the course; or (ii) if the Disobedience occurred in the open part, the Athlete/Horse Combination must re-jump the whole Combination obstacle again. Failure to comply with these requirements results in Elimination.
- 238.4 The Ground Jury must decide before the Competition whether the Combination is to be considered as closed or partially closed. This decision must be shown on the course plan.
- 238.5 If a Combination is not mentioned on the course plan as closed or partially closed, it must be considered as an open Combination and judged as such.

ARTICLE 239 BANKS, MOUNDS, AND RAMPS

- 239.1 Subject to JRs Art 239.2, banks, mounds, ramps, and sunken roads constitute Combination obstacles, irrespective of whether they include any sort of obstacle and in whatever direction they should be taken.
- 239.2 A bank or mound without an obstacle or with only one or several poles over it may be jumped in one effort. This method of jumping the obstacle incurs no Penalty.
- 239.3 No banks, mounds, sunken roads, talus, slopes, or ramps, except table banks not exceeding one metre in height, may be used at indoor Events.

ARTICLE 240 ALTERNATIVE OBSTACLES AND JOKER

- 240.1 When in a Competition two obstacles on the course have the same number, the Athlete has the choice of jumping either of those obstacles:
- 240.1.1 If there is a Refusal or Run-out without a knock-down or displacing of the obstacle, at their next attempt the Athlete is not obliged to jump the obstacle at which the Refusal or Run-out occurred. They may jump the obstacle of their choice.

- 240.1.2 If there is a Refusal or Run-out with a knock-down or displacing of the obstacle, they may only restart their round when the obstacle knocked down or displaced has been replaced and when the Ground Jury gives them the signal to start. They may then jump the obstacle of their choice.
- 240.2 Red and white flags must be placed at each of the elements of the alternative obstacle.
- 240.3 The Joker is a difficult optional obstacle that may only be used in an Accumulator Competition. The Athlete/Horse Combination will accumulate more points if they choose to jump the Joker rather than the alternative standard obstacle. Joker obstacles must be designed with horsemanship and fairness in mind.

CHAPTER VI ARENAS

ARTICLE 241 COMPETITION ARENA

241.1 General

- 241.1.1 The Competition Arena must be enclosed. While a Horse is in the Competition Arena during a Competition, all entrances and exits must be physically closed.
- 241.1.2 An indoor Competition Arena must have minimum size of 1'200 m² with a minimum width on the short side of 25 m. An outdoor Competition Arena must have a minimum size of 4'000 m² with a minimum width on the short side of 50 m. An exception to this rule may be granted by the FEI Jumping Director in consultation with the Chair of the Jumping Committee where circumstances warrant.

241.2 Course and measuring

- 241.2.1 The Ground Jury must walk the course to inspect it before the start of the Competition. The course is the track that the mounted Athlete must follow when competing from passing the start in the correct direction up to the finish. The length must be measured accurately to the nearest metre taking account of the normal line to be followed by the Horse. This normal line must pass through the middle of the obstacle and take account of normal turns.
- 241.2.2 In Olympic Games, Youth Olympic Games, Regional Games, all Championships, FEI Jumping World Cup™, Nations Cup/Longines League of Nations™ and Grand Prix Competitions, the President of the Ground Jury or their designee must ensure that the Course Designer has properly measured the course using a wheel. In exceptional cases, the Ground Jury may alter the time, if the conditions set out in JRs Art 241.2.3 apply.
- 241.2.3 Once the Competition has started only the Ground Jury in consultation with the Course Designer, and the Technical Delegate if present, may decide that a significant error has been committed in the measurement of the course. This may be done at the latest after three Athletes have completed the course without a Disobedience or any other interruption, having started their course prior to the 45-second countdown elapsing and before the next Athlete has started. In this case, the Ground Jury may alter the time allowed. If the time allowed is increased, the score of the Athletes who have jumped the course before the time was altered will be adjusted accordingly, if applicable. If the time allowed is decreased, this may only be done to the extent that no Athlete having previously completed their round receives time Penalties due to the alteration of the time allowed.
- 241.2.4 The total length of the course in metres may never exceed the number of obstacles in the Competition multiplied by 60.
- 241.2.5 The starting and finishing lines may not be more than 15 metres or less than six metres from the first and last obstacle. These two lines must each be marked with an entirely red flag on the right and an entirely white flag on the left. The start line and finish line must also be marked with markers with the letters S (= Start) and F (= Finish).

241.3 Course plan

- 241.3.1 The Course Designer must give the Ground Jury a copy of the course plan showing accurately all details of the course. An exact copy of the course plan given to the Ground Jury must be posted as close as possible to the entrance of the Competition Arena and should be posted at least 30 minutes before the beginning of each Competition. If applicable, the time allowed should be added to the course plan no later than 30 minutes before the start of the Competition as soon as the Course Designer has finished measuring the course. For all Competitions, the track as measured by the Course Designer must be indicated on the course plan that is posted prior to the Competition.
- 241.3.2 The obstacles are numbered consecutively in the order in which they must be jumped, except in certain Competition formats, as specified in the JRs.
- 241.3.3 Combination obstacles bear only a single number. This number may be repeated at each element for the benefit of the Ground Jury and Athletes. In this case, distinguishing letters will be added (for example: 8A, 8B, 8C, etc.).
- 241.3.4 The course plan must indicate the following:
- 241.3.4.1 the position of the starting and finishing lines. During a round, unless otherwise indicated, these may be re-crossed without Penalty;
 - 241.3.4.2 the relative position, type (e.g. vertical, oxer, triple bar), numbering, and lettering of obstacles;
 - 241.3.4.3 any compulsory turning points marked by a white flag on the left side and a red flag on the right;

- 241.3.4.4 the track to be followed by Athletes marked either by a continuous line (in which case it must be followed precisely) or by a series of arrows showing the direction in which each obstacle must be jumped (in which case the Athlete is free to choose their own track). If there is a compulsory section in an otherwise unrestricted course, both methods must be used on the same plan;
- 241.3.4.5 the table of Penalties to be used (Table A or Table C);
- 241.3.4.6 the speed for the Competition if applicable;
- 241.3.4.7 the length of the course;
- 241.3.4.8 the time allowed and the maximum time limit for the round(s), if any, or any fixed time applicable to a training session;
- 241.3.4.9 the obstacles, the length, the time allowed, and the maximum time limit for the jump-off;
- 241.3.4.10 the Combinations considered as closed or partially closed; and
- 241.3.4.11 all decisions and/or modifications made by the Ground Jury in relation to the course.

241.4 Alterations to the course

- 241.4.1 If the circumstances make it necessary to alter the course plan after it has been posted, the change may only be made after agreement of the Ground Jury. In this case the Chefs d'Equipe and all individual Athletes must be advised of the alterations to the course plan.
- 241.4.2 Once the Competition has begun, the conditions under which it is run may not be altered and the course and its obstacles may not be changed unless specified otherwise in the JRs (including this JRs Art 241.4). If it becomes necessary to interrupt the Competition (e.g. because of a storm or bad lighting) it must subsequently be continued using the same obstacles and course and as far as possible under the same conditions and at the exact point where it was interrupted. However, for Nations Cup/Longines League of Nations™ Competitions, JRs Art 226.3.7 applies.
- 241.4.3 An obstacle may be re-sited during a round or between rounds of a Competition, if in the opinion of the Ground Jury a deterioration in the state of the ground/footing or other special circumstances necessitates such action. Obstacles that cannot be re-sited, such as Water Jumps, ditches, or permanent obstacles, must be taken out of the course. If an obstacle has been taken out of the course during a round, the scores of all previous Athletes penalised during this round at that obstacle must be adjusted by cancelling jumping Penalties and time corrections incurred at that obstacle. All Eliminations and time Penalties already incurred will stand. If necessary, a new time allowed and maximum time limit will be fixed for the course as altered.

241.5 Flags

- 241.5.1 Solid-colour red flags and white flags must be used to mark the limits of the obstacles. One red flag and one white flag must be placed at vertical obstacles, and at least two red and two white flags must be placed to define the limits of spread obstacles. Flag poles defining the limits of the landing side of the Water Jump must be made of material that cannot shatter or splinter and must bend when hit; flags must have no sharp points or corners.
- 241.5.2 The flags may be attached to any part of the standards of the obstacles or stand independently. For walls or any other types of obstacles that do not have traditional standards, the installation of tall flags is mandatory. These flags must stand a minimum of 60 cm above the height of the obstacle and clearly define the boundaries of the obstacle to ensure proper visibility and correct negotiation by Athletes. Tall flags are also required to provide the Ground Jury with a clear reference for evaluating whether the obstacle has been approached and jumped in accordance with the rules.
- 241.5.3 At the obstacles, the starting and finishing lines, and the compulsory turning points, the Athlete must pass between the flags with the red flag on their right and the white flag on their left.
 - 241.5.3.1 Flags on obstacles with standards: If an Athlete passes the flags on the wrong side, they must retrace their steps and pass them on the correct side before continuing their round. If the Athlete does not correct this mistake, they will be Eliminated.
 - 241.5.3.2 Flags on obstacles without standards: If it is not clear to the Ground Jury whether the Athlete and Horse stayed within the tall flags, the Ground Jury shall allow the Athlete to continue the round and determine whether they should be Eliminated only once the round has been ended. If it is clear to the Ground Jury that the Athlete and Horse did not stay within the flags, they shall be Eliminated immediately.
- 241.5.4 Subject to JRs Art 241.5.5, knocking down a flag anywhere in the Competition Arena does not incur a Penalty. If a flag marking the limits of an obstacle or compulsory turning point or the finishing line has been knocked down following a Disobedience, (without passing these lines) or as a result of unforeseen circumstances, the

flag will not be replaced immediately; the Athlete must continue their round and the obstacle/compulsory turning point will be judged as if the flag was in its original place. The flag must be replaced before the next Athlete is given the signal to start.

241.5.5 If a flag defining the limits of the Water Jump or of a natural obstacle is knocked down following a Disobedience or as a result of unforeseen circumstances and in all cases where the nature of the obstacle is changed by knocking down the flag, the Ground Jury will interrupt the round of the Athlete. The clock must be stopped while the flag is replaced and six seconds will be added in accordance with the procedure provided for in JRs Art 256.

241.5.6 In certain Competitions, the starting and finishing lines may be crossed in both directions. In this case the lines must be provided with four flags; a red and a white flag at each end of these lines.

241.6 **Bell**

241.6.1 The bell is used to communicate with the Athletes. One of the members of the Ground Jury is in charge of the bell and responsible for its use. The bell is used:

241.6.1.1 to give permission to the Athletes to enter the Competition Arena when the course is ready for their inspection and to signal when the course inspection time is over;

241.6.1.2 to give the signal to start and to activate a 45-second countdown shown in the timing equipment on the scoreboard or on another display beside the Competition Arena.

The 45-second countdown sets the time that the Athlete is given before they must commence their round by crossing the starting line in the correct direction. The Ground Jury has the right to interrupt the 45-second countdown if unforeseen circumstances occur. Incidents such as Disobediences occurring between the signal to start and up until the moment the Athlete/Horse Combination crosses the starting line in the correct direction are not penalised (see JRs Art 246.6.2). However, in the event of a Fall of an Athlete and/or Horse at any time from the moment the Athlete/Horse Combination enters the Competition Arena up until the moment they cross the starting line in the correct direction, whether or not the signal to start has been given, the Athlete/Horse Combination will not be permitted to start in the round or Competition in question and the bell must be rung accordingly.

After the bell has rung, crossing the starting line in the correct direction for a second time before jumping the first obstacle is counted as a Disobedience.

However, if the situation so warrants, the Ground Jury may decide not to activate the start or to cancel the starting procedure, give a new signal to start, and restart the countdown;

241.6.1.3 to stop an Athlete for any reason or following an unforeseen incident and to signal to them to continue their round after an interruption (see JRs Art 245.3 and 257);

241.6.1.4 to indicate to the Athlete that an obstacle knocked down following a Disobedience has been rebuilt (see JRs Art 257); and

241.6.1.5 to indicate by prolonged and repeated ringing that the Athlete has been Eliminated.

241.6.2 If the Athlete does not comply with a signal to stop, they may be Eliminated by the Ground Jury (see JRs Arts 257.2 and 263.5).

241.6.3 If, after an interruption, the Athlete restarts and jumps or attempts to jump an obstacle without waiting for the bell to ring, they will be Eliminated (see JRs Art 263.4.15).

ARTICLE 242 WARM-UP ARENA

242.1 The OC must provide a Warm-Up Arena with practice obstacles where Athlete/Horse Combinations can warm-up prior to a Competition. The Warm-Up Arena must be close to the Competition Arena.

242.2 **Number of Horses permitted**

The number of Horses allowed inside the Warm-Up Arena must be directly related to the size of the arena. The Chief Steward has the authority to limit the number of Horses based on the size of the arena and safety considerations.

242.3 **Steward supervision**

The Warm-Up Arena(s) must always be supervised when in use by at least one Steward.

EA: All persons must abide by the “Code of Conduct for Jumping Warm Up Areas”.

CODE OF CONDUCT FOR JUMPING WARM UP ARENAS:

- *Respect must be shown to all officials and fellow Athletes at all times.*
- *Follow instructions from the Ring Marshal at all times. Remember: Abuse of officials is a reportable offence.*
- *Always consult the ring Marshal before entering the warmup arena*
- *Inform the Office and Ring Marshal if you are scratching.*
- *Inform the Office and Ring Marshal if there is an Athlete change.*
- *If there is any reason Athlete wants to change draw order, this must immediately be forward onto Marshal and Judge for approval.*
- *Follow the published starting order.*
- *Abide by the Show's recommended number of Athletes in the warmup arena at any one time. For classes up to 1.30m there is a maximum of 10 Athletes. For all classes 1.30m and above there is no restriction.*
- *Only Athletes involved in the current Competition can use the warmup arena.*
- *Replace all rails you knock down in the warmup arena*
- *Warm up fences cannot be set more than 10cm higher and wider than the maximum dimensions of the current class*
- *Athletes to place warm up fences back to original height when finished*
- *The nearest Horse to go on course has priority to use ONE warm up fence*
- *Do not return to the warmup fence after completing your round or have been eliminated.*
- *Do not dismount and hold your Horse in the warmup arena unless you are adjusting riding equipment/tack. In this case you must be clear of any jumps.*
- *No earphones can be worn in jumping competitions. Athletes, grooms or any other person may wear one earphone at any other time while mounted.*

242.4 Requirements for practice obstacles in the Warm-Up Arena

- 242.4.1 The use of obstacle material not provided by the OC is prohibited (failure to comply may result in Disqualification and/or a fine, see JRs Art 264.3.5 and 262.1.5). Practice obstacles may only be jumped in the direction for which they are flagged. No part of the practice obstacles may be physically held by any person.
- 242.4.2 There must be a minimum of one vertical and one spread obstacle in the Warm-Up Arena. The ground has to be in proper condition for the training of Horses. When there are many Athletes and sufficient space, additional obstacles should be provided. All obstacles must be constructed in the usual manner and provided with red and white flags. However, the flags may be replaced by tape or paint in order to provide a white and a red top to the standards or uprights.
- 242.4.3 For all Competitions (except Pony Events, see JRs Art 305.5.2) where the maximum obstacle height is 1.40 m or less, the obstacles in the Warm-Up Arena may not exceed in height and width 10 cm more than the actual maximum height and width of the obstacles of the Competition in progress. If the obstacle height of the Competition in progress is greater than 1.40 m, the obstacles in the Warm-Up Arena may not exceed 1.65 m in height and 1.80 m in width.

- 242.4.4 Ground poles may be placed directly underneath the first part of an obstacle or up to 1.00 m away on the take-off side. If there is a ground pole on the take-off side of a vertical obstacle, a ground pole may be placed on the landing side of the vertical obstacle at an equal distance up to a maximum of 1.00 m. A ground pole may never be used on the landing side of a spread obstacle.
- 242.4.5 Any obstacles 1.30 m or higher must have a minimum of two poles on the take-off side of the obstacle, regardless of whether or not a ground pole is used. The lower pole must always be below 1.30 m. One end of the lower pole of a practice obstacle must be in a cup. The other end may rest on the ground.
- 242.4.6 Guide poles (i.e. parallel pole(s) perpendicular to the obstacle standards on the take-off or landing side) may be used during the warm-up for a Competition to guide a Horse in a straight line to and from the obstacle.
- 242.4.7 Placing Poles, V poles, and any other poles placed approximately 6.0 metres or more from an obstacle on either side or on both sides are not permitted in the Warm-Up Arena.
- 242.4.8 If crossed poles are used as the top part of an obstacle, they must be able to fall individually. The top end of the poles must be in a cup. However, there can be a horizontal top pole behind the crossed poles, which must be at least 20 cm higher than the centre of the crossed poles.
- 242.4.9 The top poles of an obstacle must always be in cups at both ends. If the pole is resting on the edge of a cup it must be on the far edge and never on the near edge.
- 242.4.10 It is not permitted to walk Horses over poles when these are elevated or placed in cups at one or both ends.
- 242.4.11 The OC may provide material to simulate a water ditch in the Warm-Up Arena.
- 242.4.12 Gymnastic/training exercises are not permitted during the warm-up for a Competition.
- 242.4.13 Combinations are not permitted during the warm-up for any Competitions, except for Six Bar Competitions.

ARTICLE 243 TRAINING ARENA

- 243.1 The OC must provide at least one Training Arena with practice obstacles that is sufficiently large for optimal training conditions. The terms "Training Arena" or "training" may also be referred to as the "Schooling Area" or "schooling" in certain regions of the world. The Training Arena may be part of a large arena that is divided into a Warm-Up Arena and Training Arena or an entirely separate arena. Whenever possible, the Training Arena should be made available for several hours in the morning. If the Training Arena is situated in an area accessible to the public, for safety reasons a buffer zone of approximately one meter must be created around its perimeter to keep the public from direct contact with the Horses.
- 243.2 **Steward supervision**
The Training Arena(s) must always be supervised when in use by at least one Steward.
- 243.3 **Requirements for practice obstacles in the Training Arena**
 - 243.3.1 There must be a minimum of one vertical and one spread obstacle in the Training Arena. The ground has to be in proper condition for the training of Horses. When there are many Athletes and sufficient space, additional obstacles should be provided. All obstacles must be constructed in the usual manner and provided with red and white flags. However, the flags may be replaced by tape or paint in order to provide a white and a red top to the standards or uprights.
 - 243.3.2 If there is sufficient space, Placing Poles may be used and placed on the ground not closer than 2.50 metres on the take-off side of a vertical obstacle not exceeding 1.30 m in height. A Placing Pole may be used on the landing side not closer than 2.50 metres when the vertical obstacle is jumped at the trot or 3.0 metres if at the canter. Any pole placed approximately 6.0 metres or more from an obstacle on either side or on both sides is not considered a Placing Pole and may be used with both vertical and spread obstacles.
 - 243.3.3 Athletes may train their Horses over gymnastic exercises using Placing Poles on the ground, but obstacles used for this purpose may not exceed 1.30 m in height. Training exercises consisting of a line of vertical obstacles in succession without a stride in between (in-out/bounce exercises) are permitted if there is sufficient space. A maximum of three verticals with a height not exceeding 1.00 m may be used for in-out/bounce exercises, with a minimum distance between verticals of 2.50 metres and a maximum distance of 3.00 metres. Spread obstacles may not be used for in-out/bounce exercises.
 - 243.3.4 Combinations are permitted in the Training Arena if there is sufficient space and they are built with correct distances. When Training Arenas are crowded Athletes may only use single obstacles.
 - 243.3.5 Athletes may make minor changes to obstacles provided that they comply with this JRs Art 243.3, but any significant changes require the permission of the Steward supervising the Training Arena.

ARENA, SCHOOLING AREAS AND PRACTICE OBSTACLES

The arena must be enclosed. While a Horse is in the arena during a Competition, all entrances and exits must be physically closed EA: *or an arrangement as listed immediately below is set up for the entry and exit point.*

At the discretion of the Organising Committee and under the direct supervision of the gate marshal and/or judge the next Horse may enter the competition arena while the preceding Horse and Athlete combination is still completing their round and the previous combination is leaving the arena.

EA: Athletes distracting the Athlete /combination on course may be eliminated at the discretion of the judge (see JRs Art. 264.5.6)

EA: It is recommended that an obstacle is placed a few metres inside the arena in front of the entry/exit gate so that the gate may be left open.

The obstacle is placed so that the Horse must make two turns (a serpentine) in order to enter/exit the arena

CHAPTER VII PENALTIES DURING A ROUND

ARTICLE 244 PENALTIES - GENERAL

- 244.1 Unless specified otherwise in the JRs, Penalties are incurred for the following Faults during a round, each as explained in more detail in subsequent Articles:
- 244.1.1 knocking down an obstacle;
 - 244.1.2 a Fault at the Water Jump (see JRs Art 236.1.3);
 - 244.1.3 a Disobedience;
 - 244.1.4 a deviation from the course;
 - 244.1.5 a Fall of a Horse and/or Athlete;
 - 244.1.6 unauthorised assistance; and
 - 244.1.7 exceeding the time allowed or the time limit.
- 244.2 The number of Penalties incurred for each Fault depend on whether the Competition is judged according to Table A (JRs Art 217.1) or Table C (JRs Art 217.2).

ARTICLE 245 KNOCK DOWN

- 245.1 A knock-down of an obstacle occurs (and is penalised) when, through a mistake of the Athlete/Horse Combination:
- 245.1.1 the whole or any upper part of the same vertical plane of it falls, even if the part that falls is stopped in its fall by any other part of the obstacle; or
 - 245.1.2 at least one of its ends no longer rests on any part of its support.
- When a vertical obstacle or part of an obstacle comprises two or several parts placed one above the other and positioned in the same vertical plane, only the fall of the top part is penalised.
- When a spread obstacle that requires only one effort comprises parts that are not positioned in the same vertical plane, the fall of one or several top parts only counts as one Fault whatever the number and position of the parts that have fallen.
- 245.2 Knock-downs occur between the time the Athlete/Horse Combination crosses the starting line and finishing line, except that a knock down of the last obstacle will be penalised if the upper element falls from one or both of its supports after the Athlete/Horse Combination crosses the finishing line, but prior to the Athlete leaving the Competition Arena or the ringing of the bell for the next Athlete to start their round, whichever occurs first.
- 245.3 If any part of an obstacle that has been knocked down is likely to impede an Athlete/Horse Combination in jumping another obstacle, the bell must be rung and the clock stopped while this part is picked up and the way is cleared.
- 245.4 The knock down or displacement of an obstacle and/or a flag as a result of a Disobedience is penalised as a Refusal only. In the event of the displacement of any part of an obstacle (except the flags) as a result of a Disobedience, the bell will be rung and the clock stopped while the displacement is re-adjusted. This does not count as a knock down and is only penalised as a Disobedience and corrected by time in accordance with JRs Art 256.
- 245.5 The following will not incur knock-down Penalties:
- 245.5.1 touches and displacements of any part of an obstacle not covered by JRs Art 245.1, in whatever direction, while in the act of jumping (however, note that displacing a closed Combination will result in Elimination in accordance with JRs Art 263.4.24). If in doubt the Ground Jury should decide in favour of the Athlete;
 - 245.5.2 knocking down, touching, or displacing the flags on an obstacle, in whatever direction, while in the act of jumping (note that a six second Penalty may be imposed under JRs Art 241.5.5 for the Water Jump);
 - 245.5.3 an Athlete/Horse Combination jumps an obstacle correctly but the obstacle has been improperly built; and
 - 245.5.4 knocking over the filling of an obstacle (e.g. trees, hedges, etc.).

ARTICLE 246 DISOBEDIENCES (REFUSAL, RUN-OUT, RESISTANCE, CIRCLING)

246.1 The following are considered Disobediences:

246.1.1 a Refusal;

246.1.2 a Run-out;

246.1.3 a Resistance; and

246.1.4 a more or less regular circle or group of circles no matter where they occur on the course or for whatever reason. It is also a Disobedience to circle around the last obstacle jumped unless the track of the course so requires. However, circling for up to 45 seconds after a Run-out or a Refusal (no matter if the obstacle needs to be rebuilt or not) to get into position to jump an obstacle is not a Disobedience.

246.2 Refusal

246.2.1 Subject to JRs Art 246.2.2, it is a Refusal when a Horse stops in front of an obstacle that it must jump, whether or not the Horse knocks it down or displaces it.

246.2.2 It is not a Refusal if a Horse stops in front of an obstacle without moving backwards and without knocking it down, and then immediately jumps the obstacle from a standstill. If the stop is prolonged, if the Horse steps back, either voluntarily or not, even a single pace, it counts as a Refusal.

246.2.3 If a Horse slides through an obstacle, the Judge in charge of the bell must decide immediately if it is to count as a Refusal or as an obstacle knocked down.

246.2.3.1 If the Judge decides that it is a Refusal, the bell is rung at once and the Athlete must be ready to attempt the obstacle again as soon as it has been rebuilt. If the bell has been rung and the Athlete jumps other elements of a Combination in their stride, they will not be Eliminated or incur further Penalties even if they knock down this element of the Combination (however, once the obstacle is rebuilt they must attempt the entire Combination again at which point any Penalties incurred then will count).

246.2.3.2 If the Judge decides that it is not a Refusal, the bell is not rung and the Athlete must continue their round. The Athlete is then penalised as for an obstacle knocked down.

246.3 Run-out

246.3.1 It is a Run-out when the Horse escapes the control of its Athlete and avoids an obstacle that it must jump or a compulsory turning point that it must pass.

246.3.2 It is also a Run-out if a Horse or any part of a Horse goes past the extended line of an obstacle to be jumped, or of an element of a Combination, or of the finishing line or of a compulsory turning point.

246.3.3 When a Horse jumps an obstacle between two red flags or between two white flags, the obstacle has not been jumped correctly. In such circumstances, the Athlete/Horse Combination will be penalised as for a Run-out and must jump the obstacle again correctly.

246.4 Resistance

246.4.1 It is a Resistance when the Horse refuses to go forward, stops for any reason, makes one or several relatively regular or complete half turns, or rears or steps backwards for whatever reason.

246.4.2 It is also a Resistance when the Athlete stops their Horse at any moment and for any reason, except in the event of an incorrectly built obstacle or to indicate unforeseen circumstances to the Ground Jury (see JRs Art 257.3.2).

246.4.3 If there is Resistance from the Horse for 45 consecutive seconds, the Athlete/Horse Combination will be Eliminated. Otherwise, a Resistance of shorter duration is penalised as a Refusal.

246.5 The clock is not stopped in the event of a Refusal, Run-out, or Resistance, unless the bell is rung because an obstacle needs to be rebuilt.

246.6 Disobediences during interrupted time

246.6.1 The time of a round is interrupted only in accordance with JRs Art 256 and 257.

246.6.2 Disobediences are not penalised during interrupted time, except for the second Refusal following a Refusal with a knock-down.

246.6.3 The provisions concerning Elimination remain in force during interrupted time.

ARTICLE 247 DEVIATION FROM THE COURSE

247.1 It is a deviation from the course when the Athlete:

247.1.1 does not follow the course as set out on the published course plan;

247.1.2 does not cross the starting line or the finishing line between the flags in the correct direction;

247.1.3 omits a compulsory turning point;

247.1.4 does not jump the obstacles in the order or in the direction indicated, except in certain special Competitions;

247.1.5 jumps or attempts to jump an obstacle that does not form part of the course; or

247.1.6 omits an obstacle.

247.2 The clock is not stopped in the event of a deviation from the course.

247.3 An uncorrected deviation from the course will result in Elimination of the Athlete/Horse Combination (see JRs Art 263.4). While obstacles not included in the course should be crossed in the course plan (so that it is clear they are not part of the course), failure to do so by the OC/ground crew will not preclude the Elimination of an Athlete for jumping an obstacle that does not form part of the course.

ARTICLE 248 FALLS

248.1 **Definition of a 'Fall'**

248.1.1 Fall of an Athlete in the Competition Arena: An Athlete is considered to have fallen when the Athlete is separated from their Horse, either voluntarily or involuntarily, in such a way that they touch the ground or need to use some form of support or outside assistance to get back in the saddle. If it is not clear that the Athlete has used some form of support or outside assistance to prevent their Fall, the benefit of doubt must be given to the Athlete.

248.1.2 Fall of an Athlete anywhere outside of the Competition Arena: An Athlete is considered to have fallen when the Athlete is separated from their Horse involuntarily. If an Athlete has dismounted voluntarily, it is not considered a Fall.

248.1.3 Horse: A Horse is considered to have fallen when the shoulder and quarters have touched the ground or the obstacle and the ground.

248.2 **Protocol in case of a Fall**

248.2.1 In case of a Fall of an Athlete and/or a Horse at any time in the Competition Arena, in the Warm-Up Arena, or elsewhere within the grounds of the Event:

248.2.1.1 the Athlete must be checked by the Event's medical service (or by a medical doctor if the medical service is not available) before they may be permitted to mount a Horse again or take part in the round in progress or in the next round or Competition at the Event; and

248.2.1.2 the Horse must be cleared by the Veterinary Delegate before it may be permitted to take part in the next round or Competition at the Event.

248.2.2 Consequences of a Fall

248.2.2.1 Fall in the Competition Arena prior to starting the round: The Athlete/Horse Combination is not Eliminated but will not be permitted to start in the round in question. The Athlete/Horse Combination must be listed in the results as "did not start" in that round.

248.2.2.2 Fall in the Competition Arena during the round: The Athlete/Horse Combination is Eliminated (see JRs Art 263.4.26).

248.2.2.3 Fall in the Competition Arena after crossing the finish line: A Fall of the Athlete and/or Horse after crossing the finish line does not incur Elimination. However, the following applies:

- (a) If there is an immediate jump-off, the Athlete/Horse Combination is Eliminated from the jump-off and will be placed equal last in the jump-off with Athletes who have withdrawn, retired, or been Eliminated from the jump-off.
 - (b) If the jump-off is not immediate or there is a second round of Competition to follow, the Athlete/Horse Combination may participate in such jump-off/second round only if cleared after the checks under JRs Art 248.2.1.
- 248.2.2.4 Fall in the Warm-Up Arena: The Athlete/Horse Combination may participate in the Competition only if cleared after the checks under JRs Art 248.2.1.
- 248.2.3 In case of a Fall of an Athlete and/or a Horse during the Event, the Ground Jury may:
- 248.2.3.1 give the Athlete a later starting position if considered necessary;
 - 248.2.3.2 delay a jump-off (if applicable) for a reasonable amount of time to allow for the checks under JRs Art 248.2.1; or
 - 248.2.3.3 exclude the Athlete and/or Horse from participating further in a Competition and/or Event.

EA: In case of a fall of the Athlete after crossing the finish line of a jump-off, or after crossing the finish line of the initial round if the combination did not qualify for the jump off, or after crossing the finish line in a Competition with no jump-off, the Athlete and/or the Horse must be checked respectively by the Event's medical service, by the Veterinary Delegate, before the Athlete and/or Horse can be permitted to take part in any further Competition at the Event.

ARTICLE 249 UNAUTHORISED ASSISTANCE

- 249.1 Any physical intervention by a third party between the crossing of the starting line in the correct direction and the crossing of the finishing line after jumping the last obstacle, whether solicited or not, with the object of helping the Athlete or their Horse is considered to be unauthorised assistance. This includes (for example) any help given to a mounted Athlete to adjust their tack or equipment or to hand them a whip while mounted during the round. Unauthorised assistance during a round will result in Elimination.
- 249.2 The following does not constitute unauthorised assistance:
- 249.2.1 Handing a mounted Athlete their Protective Headgear and/or glasses during their round.
 - 249.2.2 In certain exceptional cases, the Ground Jury may authorise the Athlete to enter the Competition Arena on foot or with the help of another person, without this being considered as unauthorised assistance.
 - 249.2.3 If the airbag in an Athlete's safety vest deploys as a result of a Disobedience that disrupts an obstacle (resulting in the Judge ringing the bell and stopping the clock), the Athlete may remove the vest, assisted by a person on the ground if necessary. The Judge will not ring the bell to resume the round until the vest is removed.
 - 249.2.4 If the airbag in an Athlete's safety vest deploys at any other time while on the course, the Athlete may stop and remove the vest, assisted by a person on the ground if necessary. The Athlete will not be penalised for stopping the Horse, but the Judge will not stop the clock.

ARTICLE 250 TIME PENALTIES

- 250.1 The Athlete/Horse Combination will incur time Penalties if they exceed the time allowed for a round.

CHAPTER VIII TIME AND SPEED

ARTICLE 251 TIME OF THE ROUND

- 251.1 The time of a round, recorded in seconds and in hundredths of a second, is the time taken by an Athlete/Horse Combination to complete the round, plus any time corrections (see JRs Art 256), calculated as follows:
- 251.1.1 The time starts running either (i) when the Athlete/Horse Combination crosses the starting line in the correct direction for the first time after the bell has been rung, or (ii) when the 45-second countdown to start the round expires (see JRs Art 241.6.1.2), whichever occurs first. A display board showing the 45-second countdown must be clearly visible for the Athlete.
- 251.1.2 The time stops running when the Athlete/Horse Combination crosses the finishing line in the correct direction, after having jumped the last obstacle.
- 251.2 Further provisions relating to timing at Jumping Events are set out under Annex VI.

ARTICLE 252 TIME ALLOWED

The time allowed for a round in a Competition is determined in relation to the length of the course and the speeds set out under JRs Art 258 and Annex V.

ARTICLE 253 TIME LIMIT

The (maximum) time limit is equal to twice the time allowed for a Competition in which a time allowed has been specified.

ARTICLE 254 RECORDING THE TIME

- 254.1 Each Competition at an Event must be timed by the same system or by means of the same type of timing equipment.
- 254.2 FEI-homologated timing equipment is mandatory for all Olympic, Continental and Regional Games, Championships, FEI Jumping World Cup™ Finals, CSIOs, and CSIs, unless the FEI Jumping Director authorises otherwise. In addition, the use of certified service providers may be required in accordance with GRs Art 109.12.
- 254.3 The timekeeper must record the number of the Horse and the time taken to complete the round by means of an electronic timing system. The time must be recorded to the one-hundredth of a second.
- 254.4 The President and a member of the Ground Jury must have a digital stopwatch while officiating in case the electronic timing system breaks down. The Ground Jury must also have an additional (third) watch to measure (i) the time taken to resume the round after the bell has been rung for Disobediences or other interruptions, (ii) the time taken between two consecutive obstacles, and (iii) the duration of a Resistance.
- 254.5 In any Competition where the time is recorded by stopwatches (including because of a breakdown of the electronic timing equipment), the time must be registered in seconds and in hundredths of a second (for details see Annex VI). If two timekeepers are used, only the time of one will be used for the official timing (the time of the second timekeeper will be used as a back-up).
- 254.6 A video recording may never be used to establish the time of an Athlete's round.
- 254.7 If the crossing of the starting and/or finishing line by the Athlete cannot be judged clearly from the Ground Jury box, one or two persons, one at the starting line and one at the finishing line, with a flag, must be positioned at both lines to signal the crossing of the Athlete.

ARTICLE 255 INTERRUPTED TIME

- 255.1 While the clock is stopped, the Athlete/Horse Combination remains free to move around until the bell rings, giving them permission to resume the round.
- 255.2 The clock is restarted when the Athlete reaches the place on the course where the clock was stopped, except in case of a Disobedience with a knock-down to which JRs Art 256 applies.
- 255.3 Only the Judge in charge of the bell may start and stop the clock. The timing equipment must be such that this procedure can be followed. The timekeeper may not be made responsible for this function.
- 255.4 The electronic timing system must register the time of the Athlete's round and any time corrections.

ARTICLE 256 TIME CORRECTIONS

If, as the result of a Disobedience, an Athlete displaces or knocks down any obstacle or a flag defining the limits of the Water Jump or natural obstacle, or in all cases where the nature of the obstacle is changed by knocking down the flag, the bell is rung and the clock is stopped until the obstacle has been rebuilt. When the obstacle has been rebuilt the bell is rung to indicate that the course is ready and that the Athlete may continue the round. The Athlete is penalised for a Refusal and a time correction of six seconds is added to the time taken by the Athlete to complete their round. The clock is restarted when the Horse leaves the ground at the obstacle where the Refusal occurred. If a Disobedience with the knock-down occurs at the second or subsequent part of a Combination the clock is restarted when the Horse leaves the ground at the first element of the Combination.

ARTICLE 257 STOPPING THE ROUND

- 257.1 If the Ground Jury considers it necessary to stop an Athlete/Horse Combination in their round for any reason or due to unforeseen circumstances, the bell should be rung to stop them. As soon as it is evident that the Athlete is stopping, the clock will be stopped. As soon as the Ground Jury consider that the course is ready again, the bell will be rung, and the clock will be restarted when the Athlete reaches the precise place on the course where the clock was stopped. In such circumstances, no Penalty is incurred and six seconds are not added to the Athlete's time.
- 257.2 If the Athlete does not stop when the bell is rung, the Athlete continues at their own risk, and the clock should not be stopped. The Ground Jury must decide whether the Athlete is to be Eliminated for ignoring the order to stop, or whether, under the circumstances, they should be allowed to continue. If the Athlete is not Eliminated, and is allowed to continue their round, the scores obtained at the obstacles preceding and following the order to stop will count.
- 257.3 If the Athlete stops voluntarily to signal to the Ground Jury that the obstacle to be jumped is wrongly built or if due to unforeseen circumstances beyond the control of the Athlete they are prevented from continuing their round under normal circumstances, the clock must be stopped immediately.
- 257.3.1 If the dimensions are correct and the obstacle in question has been properly built or if the alleged unforeseen circumstances are not accepted as such by the Ground Jury, the Athlete will be penalised as for stopping during the round (see JRs Art 246.4) and the time of their round will be increased by six seconds.
- 257.3.2 If the obstacle or part of the obstacle needs to be rebuilt or if the unforeseen circumstances are accepted as such by the Ground Jury, the Athlete is not penalised. The time of the interruption must be deducted and the clock stopped until the moment when the Athlete takes up their track at the point where they stopped. Any delay incurred by the Athlete must be taken into consideration and an appropriate number of seconds deducted from their recorded time.

ARTICLE 258 SPEED

- 258.1 The speeds for Competitions are as follows:
- 258.1.1 General (unless specified otherwise below): 325 m per minute minimum and 400 m per minute maximum.
- 258.1.2 CSIOs (unless specified otherwise below): 400 m per minute for 5* Nations Cup/Longines League of Nations™ and 4* Nations Cup Competitions outdoors; 375 m per minute for 3* and 2* Nations Cup Competitions outdoors, 350 m per minute for 1* Nations Cup Competitions outdoors and also for all indoor Nations Cup Competitions.
- 258.1.3 Young Horse Competitions: 325 m per minute minimum.
- EA: 4yo and 5yo horses: 325 m per minute minimum*

EA: 6yo and above horses: 350 m per minute minimum
- 258.1.4 Longines Ranking Competitions counting for Longines Ranking point groups AA through D at CSIs and CSIOs: 375 m per minute minimum and 400 m per minute maximum outdoors and 350 m per minute minimum indoors. In outdoor arenas measuring 65 m x 85 m or smaller the speed may be reduced to 350 m per minute.
- 258.1.5 Longines Ranking Competitions counting for Longines Ranking point groups E at CSIs and CSIOs: 350 m per minute minimum and 400 m per minute maximum.
- 258.1.6 Power and Skill Competitions: no minimum speed required.
- 258.2 If the condition of the footing becomes bad, the Ground Jury may alter the speed provided for in the Schedule before the start of the first Athlete of the Competition.

EA: The speed of the Competition may be changed if the arena is of insufficient size or if the Competition arena footing does not allow the Competition to be conducted fairly and or safely at the speed published in the event schedule. The decision to change the speed of the Competition is made by the Course Designer and President of the Ground Jury in consultation.

EA: The speed at which the competition is to be conducted should be published in the event schedule.

EA: Competitions with a maximum height less than 1.05m in the first round to be conducted at a speed of 325m per minute. Competitions with a height of 1.05m up to and including 1.30m in the first round to be conducted at a speed of 350m per minute. Competitions above 1.30m in the first round to be conducted at 375m per minute outdoors; 350m per minute indoors the speed may also be reduced to 325m per minute in indoor arenas providing it is stated in the Schedule.

CHAPTER IX FINES, WARNINGS, ELIMINATIONS, DISQUALIFICATIONS, AND ABUSE OF HORSE

The consequences set out in this Chapter apply cumulatively and in addition to any other consequences(s) that may be imposed in accordance with the FEI Rules and Regulations.

ARTICLE 259 JUMPING RECORDED WARNINGS

- 267.1 The placing of an individual Athlete is determined based on the scoring for the Competition (Table A or Table C), the instructions included in the Schedule and any amendments specified on the course plan.
- 267.2 Prize winners must take part in the prize giving ceremony and should do so with the placed Horses. The Ground Jury, however, for safety reasons, may make exceptions. If a prize winner fails, without plausible excuse to take part in the prize giving ceremony, the Ground Jury may allow the OC to withhold the Athlete's prize(s).

All Athletes selected by their NF, in accordance with the JRs and as specified in the Schedule, must be accepted by the OC. OCs may not accept any other entries other than those received from NFs. For the avoidance of doubt, entries confirmed by an NF directly through the FEI online invitation system are considered as entries made by the NF and must be accepted by the OC.
- 272.2.4 NFs are responsible for selecting and entering qualified and eligible Horses and Athletes in accordance with GRs Arts 117 and 118 and in accordance with the requirements on entries in GRs Art 116.

EA ENTRIES

1. Athletes and Horses jumping in Competitions and the Horse's owner/s must meet the membership requirements as set out in the Equestrian Australia regulations.
2. Entries for events must be made on the forms provided by the OC.
3. At the time of entry Athletes must provide the required details of the Horse's registration.
4. **Starts**
The same horse may be ridden by Senior, Young Rider, Junior or Child at the same event provided this is not restricted in the schedule. However, horses are restricted to two Competition starts per day unless the Schedule states that more are permitted. A maximum of 3 competition starts are allowed per day
5. **Hors Concours.**
A Horse, which is not fully eligible for a particular Competition, may be allowed to take part in that Competition Hors Concours, subject to the following conditions.
 - 5.1 Permission is entirely at the discretion of the OC.
 - 5.2 The Judge must be informed that permission has been given.
 - 5.3 The Athlete is subject to the rules as if he/she were an athlete in the Competition, except as provided in this rule.
 - 5.4 The Owner, Athlete and Horse must meet the membership requirements as set out in the EA General Regulations Art 100, Art 113, Art 139
 - 5.5 A Horse, which has competed at an Event Hors Concours, is not allowed to compete subsequently for prizes on that day at that Event in the same ring.

STARTING ORDER

- 1.1 EA: In normal competitions there must be a draw for the order of starting of the athletes. If an individual Athlete has more than one Horse taking part in a competition, the Ground Jury will adjust the starting order in such a manner that, wherever possible, an interval of at least ten athletes is provided between these individual Horses for the first round.
- 1.2 EA: If a random draw has been done for the first round, then riders with multiple rides must ride their horses in draw order unless permission is given otherwise.

272.3 Entry deadlines

- 272.3.1 Entries for Championships and Games must be made in accordance with GRs Art 116.2.
- 272.3.2 For all other Events including CSIOs, definite entries must be made within the deadlines indicated below. Other deadlines for NFs to indicate their intent to participate may be requested by the NF/OC in the Schedule.
- 272.3.3 Definite entries must be made by the date mentioned in the Schedule. This date may not be earlier than four weeks prior to the beginning of the Event or later than four days preceding the beginning of the Event. These represent the final selection of Athletes and Horses that will travel to the Event. The definite entries may not exceed the number listed and represent the final selection of Athletes and Horses that may participate in the Event, except if the maximum number of Horses that may be entered (based on the number of Athletes invited multiplied by the number of Horses allowed per Athlete) has not been reached at the closing of entries, the OC may invite additional Athletes. If no qualification system for the Grand Prix or Competition with the highest prize money is specified in the Schedule, the OC may not invite such additional Athletes in excess of the maximum number of starters allowed to take part in the Competition concerned as specified in the Schedule. Refer also to Annex III.
- 272.3.4 Following receipt of the definite entries, substitutions of Horses and/or Athletes may only be made with the express permission of the OC. The OC must print in the Schedule the latest date for substitution of Horse(s) and Athlete(s), which may not be later than the day of the Horse inspection.

272.4 Entry Fees

Refer to the definition of Entry Fees and to Annex II for information on Entry Fees and other fees that may be charged at CSI/CSIO Events.

272.5 No shows, withdrawals, and changes to entries

- 272.5.1 Teams or individual Athletes that have been definitely entered by their NFs at any Event and fail to take part without valid excuse must be reported by the Foreign Judge/Technical Delegate to the FEI Secretary General for consideration by the FEI Tribunal. Competing at another Event staged at the same time does not constitute a valid excuse for failure to participate at an Event. However, and notwithstanding anything to the contrary in the GRs, if a definitely entered CSI-Athlete is selected to replace a CSIO-Athlete (unable to compete for a valid reason) on the same weekend, this late nomination will be considered a valid excuse for failure to participate in the originally foreseen CSI.
- 272.5.2 An NF may not make definite entries for the same Athlete to more than one OC of Events held in the same calendar week on Penalty of Disqualification of the Athlete from the Events in which the Athlete participates unless and notwithstanding anything to the contrary in the GRs both OCs concerned have given their agreement (exception see JRs Art 272.5.1). The Horse(s) of Athletes entered in more than one Event on the same weekend must be present at the first Horse inspection of the respective Events (see also JRs Art 275.1.3.1).
- 272.5.3 At an Event, an Athlete may withdraw any or all of their Horses from a Competition, but they may not add a Horse not previously entered for that Competition without the approval of the OC and the Ground Jury (GRs Art 116.5).
- 272.5.4 Where an NF has made a nominated entry of a team but will be unable to send a team, it must immediately inform the OC (GRs Art 116.6).
- 272.5.5 Athletes who withdraw any Horses after the date of definite entries or no-shows will be liable to reimburse the OC for the financial loss incurred by the OC as follows:
- 272.5.5.1 Withdrawal after the date of definite entries up until the last date for substitutions: the OC may charge the Athlete for the cost of stabling per Horse withdrawn, as well as hotel expenses (if covered by the OC) and Horse flights (if Horse flights are at the expense of the OC); however, the OC may only charge the withdrawn Athlete for these costs if the OC has not been able to substitute them and where the OC has actually incurred the costs and cannot obtain a refund/reimbursement.
- 272.5.5.2 Withdrawal (or no-show) after the last date for substitutions: the OC may charge the Athlete the full Entry Fee per Horse withdrawn as well as hotel expenses (if covered by the OC) and Horse flights (if Horse flights are at the expense of the OC) only where the OC has actually incurred the cost and cannot obtain a refund/reimbursement.
- 272.5.6 If the Athlete does not reimburse the OC for the relevant expenses under JRs Art 272.5.5 within four weeks of receiving the invoice, the OC may send the invoice to the NF of the Athlete and the NF shall be required to pay that invoice on behalf of the Athlete within four weeks of receiving the invoice.

ARTICLE 273 REQUIREMENTS FOR CSIS/CSIOS

Requirements for the organisation of CSIs and CSIOs (for Seniors) are set out in Annex II. Requirements for the organisation of CSIs and CSIOs (for Youth, Veterans, and Amateurs) are set out at Chapter XIV.

ARTICLE 274 STABLING

All Horses must be stabled in the official stables provided by the OC for the duration of the Event.

ARTICLE 275 HORSE INSPECTIONS AND CONTROLS AT COMPETITIONS

275.1 Veterinary examinations, Horse inspections and passport control

275.1.1 The Horse inspections, veterinary examinations, and passport control must be conducted in accordance with the VRs and as set out below.

275.1.2 Examination on arrival and passport control

275.1.2.1 The examination on arrival and passport control must be conducted in accordance with VRs Art 1028 to 1031.

275.1.2.2 For any significant passport irregularities see VRs Art 1031.

275.1.2.3 When verifying the details in the passport, the age of the Horse must be checked, if the Event or any Competition is limited to Horses of a specific age.

275.1.3 Horse inspection

275.1.3.1 The Horse inspection must be carried out within 24 hours of the start of the first Competition. Chefs d'Equipe and/or Persons Responsible should arrange a specific time for their Horses to be inspected within the time specified in the Schedule. This should be available at the Secretary's Office at least two days before the first Competition to avoid unnecessary delay for all concerned. Where circumstances warrant, the Ground Jury, in consultation with the Veterinary Delegate, may at its discretion allow another Horse inspection to be held at a later time for Horses that could not be present at the first Horse inspection due to exceptional, unforeseen circumstances.

275.1.3.2 At Olympic and Continental Games, FEI Jumping World Cup™ Finals, and World and Continental Championships for all Categories, a second Horse inspection will be scheduled prior to the start of the Individual Final Competition.

275.1.3.3 Each Horse must be presented in either a snaffle or double bridle. Any other harness or equipment (i.e. rugs, bandages, etc.) must be removed. No exception to this can be allowed.

275.1.3.4 No Horse may be presented with its identity concealed in any manner by the application of paint or dye.

275.1.3.5 Chefs d'Equipe must be present with their team Horses in addition to their grooms and/or their Athletes.

275.1.3.6 Persons Responsible (Athletes) must be present with individual Horses, in addition to their grooms.

275.1.3.7 At FEI Jumping World Cup™ Finals, Longines League of Nations™ Finals, Championships and Games, the Athlete or a person designated by the Athlete must present their Horse(s) at the Horse inspection and (in any event) the Athlete must be present at the Horse inspection when their Horse(s) are presented. Any Athletes who fail to comply with this provision may be fined CHF 2'000.

275.1.3.8 This is not a detailed veterinary examination and it should be completed as quickly as possible.

275.1.4 Ground Jury and Veterinary Commission liaison

275.1.4.1 A selection of Horses are to be sampled for EADCM testing (see VRs Art 1066 and 1067).

275.1.4.2 At Olympic and Continental Games, FEI Jumping World Cup™ Finals, Longines League of Nations™ Finals, and World and Senior Continental Championships, sufficient Horses must normally be sampled to ensure that the following samples are available for analysis:

(a) in all Final Competitions for Individuals, the first three placed Horses; and

- (b) in Final Jumping Competitions for teams, one Horse from among all the Horses in each of the first three placed teams.

275.2 Medication control of Horses

The medication control of Horses must be conducted in accordance with the GRs and the VRs, the Equine Anti-Doping and Controlled Medication Regulations, and any other applicable FEI Rules or Regulations.

275.3 Horse passports and identification numbers

275.3.1 See GRs Art 137 and VRs Arts 1001, 1030 and 1031 for Horse passport requirements.

275.3.2 Each Horse is assigned an identification number by the OC. Athletes must ensure that the Horse always wears the same number whenever it leaves the stables (from arrival throughout the Event), so that it may be identified by all officials including the Stewards. Failure to display this identification number clearly will first incur a warning and, in the case of repeated offences, a fine imposed on the Athlete by the Ground Jury (see JRs Art 262.1.6).

ARTICLE 276 STARTING ORDER

276.1 Draws

276.1.1 Individual Competitions at CSIs and CSIOs: In individual Competitions at CSIs and CSIOs, there must be a draw for the starting order of the Athletes. If it happens that one or more Athletes have to ride two Horses too close together, the Ground Jury on its own authority or on request of the Athlete or of the Chef d'Equipe may alter the starting order as far as these Athletes only are concerned, in such a manner that if possible an interval of at least ten Athletes is provided between these individual Horses.

276.1.2 Team Competitions at CSIOs: For team Competitions, a separate draw must take place each time. See JRs Art 226.6 for details on the draw for the starting order for Nations Cup Competitions at CSIOs.

276.1.3 In each case, the starting order may not be drawn in alphabetical order of the names of the Athletes or of the Horses.

276.2 Rotating the starting order in individual Competitions

276.2.1 Rotation is mandatory but the system of rotation to be applied is at the discretion of the OC. In order to achieve the rotation of the starting order in the individual Competitions included in the programme, it is recommended that the procedure set out below be followed.

276.2.2 At Events where the Athletes are allowed to ride two or three Horses in individual Competitions, the following procedure is acceptable to achieve rotation of the starting order in the individual Competitions included in the programme:

276.2.2.1 If the Schedule provides that the same Horse is allowed to take part in more than one individual Competition per day and throughout the Event, the number of Horses must be divided by the number of individual Competitions.

276.2.2.2 If the Schedule provides that the same Horse is allowed to take part in only one Competition per day and throughout the Event, the number of Horses must be divided by the number of days on which individual Competitions take place.

276.2.3 At Events where the Schedule provides that Athletes are allowed to ride only one Horse in each individual Competition, the Athletes are drawn and their Horses carry successive numbers:

First Athlete: 1, 2, 3 (number of their Horses)

Second Athlete: 4, 5

The rotation follows the same procedure as in JRs Art 276.2.2.1 and 276.2.2.2, but in this case the number of Athletes must be divided by the number of individual Competitions or by the number of days on which individual Competitions take place.

276.3 Starting order in Grand Prix Competitions or Competitions with qualifiers

276.3.1 The starting order for all Grand Prix Competitions or Competitions with qualifiers must be established according to one of the following methods:

276.3.1.1 the starting order is determined by a separate draw; or

276.3.1.2 if there is a special ranking for the best Athlete or the best Athlete/Horse Combination at the Event, the ranking in reverse order before the Grand Prix may be used as the starting order.

276.3.2 The President of the Ground Jury must be present during the draw for the Grand Prix. The method to be used must be mentioned in the Schedule.

276.4 **Change to starting order**

276.4.1 Horses that lose a shoe prior to starting in a Competition will be given a later starting position. In a jump-off a Horse that loses a shoe prior to starting will be given a new starting place three positions later. If the Horse in question has not had its shoe replaced by that time, the Ground Jury will decide whether the Horse in question should receive a later starting place or be Eliminated.

276.4.2 The Ground Jury may also give a later starting position in case of a Fall (JRs Art 248.2.3).

ARTICLE 277 DECLARATION OF STARTERS

277.1 At all Events, Chefs d'Equipe (at CSIOs) or individual Athletes (at CSIs and CSIOs) must declare the starters for the next day's Competitions by the deadline specified by the OC.

277.2 At CSIOs, on the day before the first Competition, the Chefs d'Equipe must designate in writing to the OC the Athletes and Horses that make up the official team (minimum three, maximum six) and the names of individual Athletes and their Horses (see JRs Art 271). In the event of accident or illness preventing an Athlete and/or their Horse being declared as a member of the official team, Chefs d'Equipe may substitute them from among the individual Athletes (if there are any), one hour at the latest before the start of the first Competition of the Event. An Athlete or a team Horse that has been substituted may not start as an individual. See JRs Art 226.5 for details on the declaration of Athletes and Horses (minimum three, maximum four, selected from the official team) that may take part in the Nations Cup Competition, and for details on substitution in the event of accident or illness to an Athlete and/or Horse declared for the Nations Cup.

ARTICLE 278 ADVERTISING

278.1 Advertising may appear on obstacles and on the sides of the Competition Arena provided that any applicable broadcast, internet, or similar law or agreement permits such advertising and provided that it does not contain or relate to a Prohibited Category.

278.2 The OC may display the name and/or logo of a Competition and/or Event sponsor(s) at the Event Venue, including on clothing of members of the OC crew and Officials and on stable rugs in the Competition area and during the prize-giving ceremonies.

278.3 Any other advertising or publicity by the OC is subject to the agreement of the FEI and subject to applicable law. No advertising may contain or relate to a Prohibited Category.

ARTICLE 279 EXPENSES

279.1 Expenses for Chefs d'Equipe, team veterinarians, Athletes, grooms, and Horses

279.1.1 OCs of World and Continental Championships for Seniors must cover the costs for accommodation and meals from one day before the Horse inspection until one day after the Event and for travel expenses of Chefs d'Equipe, team veterinarians, Athletes, and Horses belonging to the official Teams and of their grooms, from the border of the host NF's country, or the point of arrival in the host NF's country, to the place of the Event, including the cost of loading on and unloading from a ship or aircraft, of quarantine as well as customs duties in the host NF's country. The same applies for the return journey.

279.1.2 OCs of CSIOs are responsible for covering the costs for accommodation and meals from one day before the first official Competition until one day after the Event for Chefs d'Equipe, Athletes, and Horses belonging to the official teams, and of their grooms. Reimbursement of travel expenses is not mandatory for CSIOs. At the discretion of the OC, the same conditions as above may be offered, in whole or in part, to any individual Athletes entered in addition to the official teams at CSIOs.

279.1.3 OCs of CSIOs are responsible for covering the costs for meals from one day before the first official Competition until one day after the Event for team veterinarians.

279.1.4 OCs are under no obligation to cover any of these expenses beyond the time limits published in the Schedule, or to cover any travel or accommodation expenses of any other persons who may be associated with the official teams.

279.1.5 Unless otherwise specified in the FEI Rules and Regulations, the scale of expenses (to cover reasonable costs) for the travel and accommodation of Athletes and grooms, and for the stabling and feed of Horses, must be published in the Schedule.

279.1.6 For expenses at other Championships, FEI Jumping World Cup™ Finals, Longines League of Nations™ Finals, and Olympic Games see the specific rules for these Events. Expenses at Continental and Regional Games are left to the discretion of the OC.

279.2 Expenses for Officials

The OCs must cover the travel, accommodation, and meal expenses of all Officials as follows:

279.2.1 Reimbursement of travel costs

Officials should be offered a convenient travel solution, where total travel time and number of stops are minimised. Proposed travel plans must be submitted to the OC by the Officials for approval before bookings are made. For non-stop flights with a duration of six or more hours, business class must be offered. In any case individual air travel arrangement can be made between the OC and the Official, e.g. a higher per diem for travelling in economy class.

279.2.2 Transportation

Suitable arrangements for airport and hotel transportation should be made in advance with the Official. Transportation to and from the home airport and parking expenses at the home airport must be reimbursed by the OC. If transportation is not provided by the OC from the arrival airport/station to the hotel/venue, all costs incurred will be reimbursed to the Official.

279.2.3 Accommodation

This should be provided in a minimum 3* hotel and include breakfast. Officials shall not be required to share a room with another Official(s).

279.2.4 Meals

Two proper meals a day (in addition to breakfast included as part of accommodation expenses above) must be provided to all Officials during the period of the Event. If the OC fails to provide these, the Official will be entitled to an additional daily allowance of EUR 25 per meal.

279.2.5 Per diem (daily allowance) for all Officials except the Technical Delegate

A per diem allowance per day per Official as displayed below must be offered to all Officials during the period of the Event. For Events where more than one CSI or CSIO Event is organised, the minimum per diem to be offered must be according to the highest star level at that Event. This remuneration for miscellaneous costs is to be provided net after relevant taxes being borne by the OC. A per diem will be paid in addition for a maximum of one travel day if the Official's travel day(s) is/are different from the officiating days.

CHAPTER XII CONTINENTAL AND WORLD CHAMPIONSHIPS (TEAMS AND INDIVIDUALS) FOR SENIORS

ARTICLE 280 ORGANISATION

- 280.1 Every two years, in the uneven years between Olympic Games, and every four years, in the even years between Olympic Games, respectively, the Continental Championships (team and individual) and the World Championship (team and individual) for Seniors may be organised under the authority of the FEI according to the following principles:
- 280.1.1 These Championships must be organised in compliance with the FEI Rules and Regulations, including the GRs and JRs.
 - 280.1.2 From the Monday of the week of, and all days during, these Championships, it is not permitted to host an FEI Jumping World Cup™ Event, a Longines League of Nations™ Event, a CSI4*, a CSIO4*, a CSI5*, or a CSIO5* on the same Continent as the Championship.
 - 280.1.3 These Championships must be held outdoors.
 - 280.1.4 The Continental Championship may be held with a CSI but not with a CSIO. At the discretion of the FEI, authorisation may be granted for the World Championship to be held with a CSI but not with a CSIO. If the Continental or World Championship is held together with a CSI, the training session on the first day is only open to Athlete/Horse Combinations participating in the Championship.
- 280.2 Modification to rules for Continental Championships outside of Europe may be accepted by the FEI Jumping Director in consultation with the chair of the Jumping Committee. The applicable conditions must be set out in the Schedule.
- 280.3 Any references to Championship(s) in this Chapter are to the Continental Championships and World Championship for Seniors, unless specified otherwise. Regional Championships are organised in accordance with the rules applicable to those Championships.

Certificates of Capability must be received by the FEI for Athletes and Horses not later than the date specified for nominated entries or other date specified by the FEI. Athletes and Horses for whom Certificates of Capability have not been received will not be allowed to be entered for the Championship concerned.

281.3 Minimum eligibility requirements

- 281.3.1 Athletes and Horses are not required to qualify as combinations.
- 281.3.2 For the World Championship, and for Continental Championships that have the status of a qualifying Event for achieving the minimum eligibility requirements for the Olympic Games and/or World Championship, Athletes/Horses must achieve the minimum eligibility requirements between 1 January of the year preceding the relevant Championship until the closing date for nominated entries or other date specified by the FEI. Those who achieve the results according to any of the following paragraphs will obtain a Certificate of Capability (for JRs Arts 281.3.2.5 through 281.3.2.8, the Certificate of Capability may only be validated after the Event upon confirmation that the course of the respective Competitions met the requirements of JRs Art 281.3.3):
 - 281.3.2.1 Athletes and Horses with a score of not more than eight Penalties in the Individual Final at the last Olympic Games;
 - 281.3.2.2 Athletes and Horses with a score of not more than eight Penalties in the first team Competition (Team Qualifier) or in the second team Competition (Team Final) at the last Olympic Games.
 - 281.3.2.3 Athletes and Horses with a score of not more than eight Penalties in the team Competition (first or second round) at the last European or World Championship or Pan American Games or other Continental Championship for Seniors (provided that the Continental Championship has the

status of a qualifying Event for achieving the minimum eligibility requirements for the Olympic Games and/or World Championship).

281.3.2.4 Athletes and Horses that have completed the Individual Final at the last World Championship, or the Individual Final at the last European Championship or Pan American Games or other FEI Jumping Continental Championship for Seniors (provided that the Continental Championship has the status of a qualifying Event for achieving the minimum eligibility requirements for the Olympic Games and/or World Championship).

281.3.2.5 **FEI Jumping World Cup™ Competitions**

(a) Athletes and Horses that have completed, with a score of four Penalties or less, the first round of three FEI Jumping World Cup™ Competitions conducted at a height of 1.55 m at:

- selected CSI(O)1* to 3*-W outdoor Events; or
- CSI(O)4* to 5*-W outdoor Events.

(b) Athletes and Horses that have completed, with a score eight Penalties or less, the first round of three FEI Jumping World Cup™ Competitions conducted at height of 1.60 m at:

- selected CSI(O)1* to 3*-W outdoor Events; or
- CSI(O)4* to 5*-W outdoor Events.

281.3.2.6 **Grand Prix Competitions**

(a) Athletes and Horses that have completed, with a score of four Penalties or less, the first round of three Grand Prix Competitions conducted at a height of 1.55 m at:

- selected CSI(O)3* (-W) outdoor Events; or
- CSI(O)4* to 5* (-W) outdoor Events.

(b) Athletes and Horses that have completed, with a score of eight Penalties or less, the first round of three Grand Prix Competitions conducted at a height of 1.60 m at:

- CSI(O)4* to 5* (-W) outdoor Events.

281.3.2.7 **Nations Cup and Longines League of Nations™ Competitions**

(a) Athletes and Horses that have completed, with a score of four Penalties or less, the first or second round of three Nations Cup Competitions conducted at a height of 1.55 m at CSIO4* to 5* (-W) outdoor Events.

281.3.2.8 For the avoidance of doubt, Athletes and Horses that need to achieve a minimum score in the first round of a Grand Prix Competition, FEI Jumping World Cup™ Competition, or in the first or second round of a Nations Cup/Longines League of Nations™ in order to earn a Certificate of Capability may count the results obtained in the respective Grand Prix/FEI Jumping World Cup™/Nations Cup/Longines League of Nations™ Competition towards the overall total of minimum results required. For example, Athletes and Horses with a score of four Penalties in the first round of one FEI Jumping World Cup™ Competition at 1.55m, a score of four Penalties in the first round of one Grand Prix Competition 1.55 m Event, and a score of eight Penalties in the first or second round of a Nations Cup/Longines League of Nations™ Competition at 1.60 m are considered to have fulfilled the minimum requirements for earning a Certificate of Capability.

281.3.3 Courses of selected Nations Cup/Longines League of Nations™, Grand Prix, and FEI Jumping World Cup™ Competitions (as selected by the FEI) must comply with the technical specifications below in order to count as qualifying Events. The Course Designer must clearly identify on the course plan of the Competition the specific obstacles that must be included as per the technical specifications, e.g. planks, wall, gate, narrow obstacle, etc.

Nevertheless, no more than 55% of the obstacles may be vertical and no more than 60% of the obstacles may be spread obstacles, including the Water Jump if there is one (NB: a Water Jump is mandatory in Nations Cup/Longines League of Nations™ Competitions, see JRs Art 226.3 and Longines League of Nations™ Rules Arts 4.11 and 6.13);
- depth of cups for the top pole must comply with the following: minimum 50% of cups must have a depth of 18 mm, for special obstacles material cups may be shallower (see JRs Art 232.3); depth of cups maximum 20 mm; and
- a minimum course length of 400 meters with a minimum speed of 375m/min.

At least three of the following five obstacles must be included in the course:

- a set of planks on flat cups or a vertical of poles with a plank on flat cups as the top element;

- a related distance bend or straight line of up to eight strides leading to the triple Combination or up to seven strides following the triple Combination;
- one of the Combinations must have a related distance (maximum seven strides) with an obstacle (before or after the Combination) in a straight line.

Dimension of the obstacles:

	Comp. at 1.55 m	Comp. at 1.60 m

For Nations Cup/Longines League of Nations™ Competitions, the above technical specifications relating to the dimensions of the obstacles take precedence over the dimensions of the obstacles established in JRs Art 226.3 and Longines League of Nations™ Rules Arts 4.11 and 6.13.

281.3.4 At Nations Cup/Longines League of Nations™ and Grand Prix Competitions at selected CSIOs, at FEI Jumping World Cup™ Competitions and at CSI 3*/4*/5* Grand Prix Competitions, the Foreign Judge is responsible for ensuring that the course is built to the required dimensions and will confirm to the FEI that the technical specifications have been respected. If the course is not built according to the required specifications, the minimum requirements for obtaining Certificates of Capability will not have been achieved and the Competition will be removed from the list of qualifying Competitions for the Olympic Games, World Championship, and Continental Championship, as applicable.

- 281.3.5 For CSI, CSI-W / CSIO-W, and CSIO Events, selection of qualifying Events will be made by the FEI from Events that take place from 1 January the year preceding the Olympic Games or Championship until the closing date for nominated entries, or a date to be fixed by the FEI. A list of Events will be published by the FEI in the year preceding the Olympic Games or Championship.
- 281.3.6 NFs not represented by a team at any of the CSIOs will be allowed to enter individuals who will be allowed to compete "hors concours" in round 1 and round 2 of the Nations Cup/Longines League of Nations™ Competition, should the NF need the opportunity for their Athlete(s) and/or Horse(s) to attempt to fulfil the minimum eligibility requirements for the Olympic Games, World Championship, or Continental Championship. The "hors concours" participation provided for in this Article and/or in any special rules of the Jumping Discipline are permitted pursuant to GRs Art 117.6.

ARTICLE 282 ENTRIES

282.1 Invitations and replacements/substitutions

- 282.1.1 After approval of the Schedule by the FEI Secretary General (for the World Championship) or FEI Jumping Director (for Continental Championships for Seniors), the invitations for the Championship together with the Schedule are sent by the host NF to all NFs affiliated to the FEI worldwide or in the Continent where the Championship is to take place, as applicable.

282.2 Teams

A team comprises at least three Athletes and three Horses and at most five Athletes and five Horses. Each NF may enter a maximum of fifteen Athletes and fifteen Horses with its nominated entries and a maximum of five Athletes and five Horses with its definite entries; however, each NF may only send a maximum of five Athletes and five Horses. ARTICLE 283 DECLARATION AND SUBSTITUTION OF STARTERS (TEAMS AND INDIVIDUALS)

283.1 Draw – Horse inspection and training session

A draw will take place prior to the first Horse inspection to determine the order of nations for the first Horse inspection. All nations participating, whether with a team or individuals, will be included in this draw. Nations must present themselves in the order determined by the draw and in alphabetical order of the Athletes' last name within their nation. The same order will be used for the training session (see JRs Art 284).

283.2 Declaration

- 283.2.1 The declaration of starters for the first Competition will take place after the training session, which must be provided on the day preceding the first Competition of the Championship. At a time fixed by the OC, the Chefs d'Equipe must designate in writing the members of their team (three or four) and/or their individual Athlete(s) and the names of their Horses (a single and same Horse for each Athlete for the three Competitions of the Championship) as starters in the Competitions of the Championship.

283.2.2 The declaration of the starting order of Athletes within each team for the second Competition will take place after the first Competition. At a time fixed by the OC, the Chefs d'Equipe must designate in writing the order in which they wish their team Athletes to start in the second Competition. The Chefs d'Equipe of the teams with only three Athletes may choose in which of the three places out of four they will start their Athletes. The starting order of the teams is determined in accordance with JRs Art 287.2.1.2.

283.3 **Substitution**

In addition to substitutions under JRs Art 282.1, in the event of an accident or illness of an Athlete and/or Horse between the submission of declarations and one hour before the start of the first Championship Competition, the Athlete and/or the Horse may, on production of a certificate from an officially recognised doctor and/or with the permission of the Veterinary Commission and after approval of the President of the Ground Jury, be replaced by another Athlete and/or Horse formally entered with the definite entries or substituted according to JRs Art 282.1.

ARTICLE 284 TRAINING SESSION

284.1 On the day prior to the first official Competition, the OC must provide a training period in the Competition Arena with a course consisting of approximately eight obstacles including a Combination.

284.2 The starting order for the training session will be the same as for the Horse inspection (see JRs Art 283.1). Only Horses that have passed the first Horse inspection are permitted to participate in the training session.

284.3 Each Athlete is permitted a maximum of 90 seconds per Horse.

284.4 Dress is informal, but boots (with a heel), breeches, shirt, and Protective Headgear must be worn.

284.5 The public may not be charged to enter and prizes of any kind may not be offered.

ARTICLE 285 CHAMPIONSHIP COMPETITIONS

285.1 The Championship comprises three Competitions, each taking place on a different day. The total Penalties incurred by the three best placed Athletes of each team in the first Competition and in each round of the second Competition count towards the team placing, and the total Penalties incurred by each Athlete in each of the three Competitions count towards the individual placing.

285.2 The design and construction of all obstacles with regard to safety and technical suitability must be approved by the Technical Delegate and Course Designer. The minimum diameter of poles used in all Championship Competitions must be at least 9 cm. Should a dispute arise in relation to these obstacles, the Technical Delegate has the final decision.

285.3 The Water Jump must be used a minimum of two times and a maximum of three times in the official Competitions of the Championship, unless in the opinion of the Course Designer and the Technical Delegate it is unsafe to include it. It is mandatory in the first round of the second Competition. The Course Designer will, at their discretion, decide in which other Competitions the Water Jump will be used.

285.4 Refer to JRs Arts 286.4, 287.6, and 288.7 for the specifications of each Championship Competition (including those relating to conduct, tables, speed, obstacles and course length).

ARTICLE 286 FIRST COMPETITION (TEAMS AND INDIVIDUALS)

286.1 **Participation**

The Athletes and Horses declared as starters for the team and individual Championships are qualified to take part in this first Competition.

286.2 **Starting order - draw**

286.2.1 The starting order in the first Competition is drawn in the presence of the Ground Jury, the Foreign Technical Delegate, and the Chefs d'Equipe at a time specified by the President of the Ground Jury in agreement with the OC after the training session.

286.2.2 The draw for the starting order for individuals and teams will be conducted in accordance with the following procedure:

286.2.2.1 A draw will first take place to determine the starting order of the individual Athletes, regardless of their nationality.

286.2.2.2 A second draw will then take place to decide the starting order of the NFs that have entered teams. Each Chef d'Equipe will then fix the order in which they wish their team Athletes to start

in the order of the NFs. These Athletes will be inserted in sequence in the remaining spaces between the individual Athletes.

286.2.3 The Chefs d'Equipe of the teams with only three Athletes may choose in which of the three places out of four they will start their Athletes.

286.3 Penalties

The score obtained by each Athlete in the first Competition will be converted into Penalties according to the following method. Each Athlete's time will be multiplied by the coefficient 0.50 and converted into points; the points must be rounded to two decimal places. The second decimal place will be rounded up from .005 and rounded down from .004. The Athlete with the lowest number of points after this conversion will be given zero Penalties, the other Athletes being credited with the number of Penalties representing the difference in points between each of them and the leading Athlete.

If an Athlete is Eliminated or retires, they will be penalised with 20 Penalties more than the Athlete who has been the most severely penalised after the times of all Athletes who completed the Competition have been converted into Penalties.

287.1.2.2 **Teams**

- (a) Round two of the second Competition is open to the 10 best placed teams (and those teams equal on Penalties for 10th place) after round one of the second Competition. Teams that withdraw before the start of round two will not be replaced.
- (b) Members of teams who are not among the top 60/50 Athletes, as applicable, following the first Competition and the first round of the second Competition may take part in round two only for the purpose of having their score count for the team classification.

287.2 **Starting order**

287.2.1 **Round one**

287.2.1.1 **Individuals**

First to start in round one of the second Competition are all individuals. The starting order of individual Athletes in round one of the second Competition is according to the reverse order of individual classification in the first Competition. In case of equality of Penalties for any place, Athletes retain the same starting order as in the first Competition.

287.2.1.2 **Teams**

The starting order of the teams is set according to the reverse order of the total Penalties of the best three Athletes per team incurred in the first Competition. Teams with equality of Penalties retain the same starting order as in the first Competition. The starting order of the Athletes within each team will be determined in accordance with JRs Art 283.2.2.

287.2.2 **Round two**

287.2.2.1 **Individuals**

First to start in round two of the second Competition are qualified individuals. The starting order of the individuals qualified to compete in round two is set according to the reverse order of total Penalties incurred in the first Competition and the first round of the second Competition. In case of Athletes with equality of Penalties, the score of the first Competition will decide their starting order.

287.2.2.2 **Teams**

The starting order of the teams qualified to compete in round two is set according to the reverse order of total Penalties of the best three Athletes per team incurred in the first Competition and of the best three Athletes per team in round one of the second Competition. Teams with equality of Penalties retain the starting order of round one. The starting order of the Athletes within each team will revert to the starting order in the first round of the second Competition.

287.3 **Team placing**

- 287.3.1 Teams that participate in round two of the second Competition receive their placing by adding the Penalties incurred by the best three Athletes in each team in the first Competition and the Penalties incurred by the three best Athletes in each of the two rounds of the second Competition. The team that has obtained the least number of Penalties will be placed first and declared 'Team Champion'.
- 287.3.2 In the event of equality of Penalties between teams for first place in the World Championship (or first, second, and/or third place for Continental Championships), there will be a jump-off Against the Clock in which all team Athletes may take part, over at least six obstacles, which may be increased in height and/or spread, and at a speed of 400 m per minute. At the discretion of the Technical Delegate, depending on the size of the Competition Arena, the speed may be reduced to 375 m per minute.
- 287.3.3 For Continental Championships, in the case of equality of Penalties for any of the Olympic team qualification places, there will be a jump-off Against the Clock, in which all team Athletes may take part, according to the same provisions as the jump-off for first, second, and/or third place. In case of equality of Penalties for any other placing, teams will be placed equal.
- 287.3.4 For the World Championship, teams on equality of Penalties for any other placing will be placed according to the combined times of their three best Athletes in round two of the second Competition, the team with the faster time being placed ahead of the team with the slower time.

- 287.3.5 The score in the jump-off is obtained by adding the Penalties incurred by the three best Athletes in each team, but in the event of further equality of Penalties, the times of these three Athletes in the jump-off added together will decide the winning team, as well as those placed second or third in the Continental Championships. The score of this jump-off is only to determine the placing of the teams and will not count towards the final scores of the individual Athletes.
- 287.3.6 If two jump-offs are required in the Continental Championships, the jump-off for the third place shall precede the jump-off for the first and the second place.
- 287.3.7 If after the jump-off there is equality of Penalties and time, the teams concerned will be placed equal.

ARTICLE 300 THIRD COMPETITION (INDIVIDUAL FINAL)

300.1 Participation

300.1.1 Round A

300.1.1.1 Young Riders, Juniors, Children, and Pony Riders

In each case according to the cumulative Penalties of the first and second Competitions, Round A of the third Competition is open to:

- (a) For combined Championships outside of Europe for Young Riders and Juniors: the 25 best placed Athletes (including those tied for 25th place);
- (b) For combined Championships outside of Europe for Children: the 15 best placed Athletes (including those tied for 15th place); and
- (c) In all other cases: the top 60% of Athletes (including those tied for the last qualifying place) according to the cumulative Penalties over the first and second Competitions. The number of Athletes permitted to participate in round A must be at least 15, even if 60% of the Athletes is less than 15, and no more than 30. However, all Athletes with equal Penalties for the last qualification place are permitted to participate in round A of the third Competition even if the number of starters would then be more than 30.

Athletes must have taken part in the first Competition (completed or not) and have completed both rounds of the second Competition (without having been Eliminated or having retired). If for any reason one or more of the qualified Athletes are unable to start, they will not be replaced.

300.1.1.2 Veterans

Round A of the third Competition is open to the 25 best-placed Athletes and Horses (including those with equality of Penalties for 25th place) according to the cumulative Penalties over the first and second Competitions. Athletes must have taken part in the first Competition (completed or not) and have completed both rounds of the second Competition (without having been Eliminated or having retired). If for any reason one or more of these 25 best placed Athletes are unable to start, they will be replaced by the next best placed Athlete(s) from the reserve list of five Athletes.

300.1.2 Round B

300.1.2.1 Subject to JRs Art 300.1.2.2, all Athletes who complete round A go forward to round B. The Penalties in both rounds are added together.

300.2 Inspection of round B course

Athletes will be invited to inspect the course of round B at the conclusion of round A.

300.3 Starting order

300.3.1 The starting order for round A of the third Competition will follow the reverse order of Penalties incurred in the first and second Competitions. In the event of equality of Penalties for any placing, the score of the first Competition will determine the starting order. The lowest placed Athlete qualified will therefore start first.

300.3.2 The starting order for round B of the third Competition will follow the reverse order of the total Penalties incurred in round A of the third Competition as well as in the first and second Competitions. The Athlete with the greatest number of Penalties will start first, the Athlete with the least Penalties will start last. In the event of Athletes with equality of Penalties, the score of the first Competition will decide their starting order.

300.4 Classification and prizes for the third Competition

In addition to the overall individual classification, there will be a separate classification (with prizes) for Athletes taking part in the third Competition for the Youth Categories (this does not apply to Veterans). For this classification, only the results from rounds A and B count. Athletes with equality of Penalties are placed equal.

300.5 Individual placing

- 300.5.1 The overall individual classification is determined by adding together for each Athlete the Penalties incurred in the first Competition, as well as the two rounds of the second Competition (disregarding the Penalties incurred in the jump-off if there is one), and rounds A and B of the third Competition. The Athlete with the least Penalties will be placed first and declared the 'Individual Continental Champion'.
- 300.5.2 In case of equality of Penalties for the first, second, and/or third place, there will be a jump-off Against the Clock.
- 300.5.3 If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the second and first place. In case of further equality of Penalties and time, the Athletes will be placed equal. Athletes with equality of Penalties for any other placing will be placed equal.
- 300.5.4 Athletes not qualified for or not competing in the third Competition will be placed by adding the Penalties incurred in the first and second Competitions. Athletes with equality of Penalties for any other placing will be placed equal.

300.6 Elimination, retirement, and withdrawal

- 300.6.1 Athletes having withdrawn from any round of the second or third Competition or not having qualified for round two/B of the second or third Competition will be placed according to their total Penalties obtained up until their last round they competed in.
- 300.6.2 Athletes Eliminated or who retire in any round of the second or third Competition will be placed according to their total Penalties obtained up until their previous round they competed in. THE FOLLOWING PROVISIONS ARE APPLICABLE TO CSIs WORLDWIDE:

NB for new CSI5* Events: OCs without proven experience at organising FEI high level Events must first successfully organise a CSI4* at the same venue before permission to host a CSI5* will be granted. Prize money for the new CSI5* must be secured by a deadline established by the FEI prior to the Event. Permission to host a new CSI5* without first organising a CSI4* at the same venue may be granted (upon application from the NF of the OC) to OCs with proven experience at organising FEI high level Events. For new CSI5* Events, and/or for new OCs of existing CSI5* Events, the FEI reserves the right to appoint a Technical Delegate to visit the venue prior to the Event, at the OC's expense, to ensure the organisation and infrastructure meet the technical standards for a CSI5* before the Event will be accepted in the Calendar. At the discretion of the Jumping Committee the same may apply to new CSI4* Events. Refer to JRs Art 200.5 for details relating to date scheduling clashes.

The FEI reserves the right to appoint a Technical Delegate to visit the venue of CSI Tours prior to the start of the first Event, at the OC's expense, to ensure that the infrastructure and organisation meet the required standard to cope with the large number of Athletes and Horses invited to these Events.

¹ Prize money cannot be cumulated from multiple Events held at the same venue during the same week to establish star level. CSI-5* maximum duration is 5 days. Events at same venue over several weekends are considered separate CSIs. For these Events, the star level of the Event will be determined by the combined prize money of maximum 12 Competitions per Event, instead of the overall prize money per Event.

² Maximum 100 starters per Competition other than the Grand Prix (see maximum number of starters in the Grand Prix according to the star level of the Event in the table above). If more than 100 starters are declared, the OC must split the Competition into the number of groups required to ensure that there are no more than 100 starters in any group, and provide the same amount of prize money as indicated for the original Competition for each group. The additional prize money provided by the OC is not taken into consideration with regard to the overall prize money that determines the star level of the Event or the Longines Ranking point group of the Competition, if applicable.

OCs may apply either of the following methods for splitting the Competition:

- The Competition is split into the number of groups required before it starts. There may be Athletes with multiple Horses in each group but all Horses of any one Athlete must be in the same group. If it is not possible to have groups of equal size there may be a different number of starters in each group; or
- The Competition is run as one single Competition and split afterward into the number of groups required to ensure that there are no more than 100 starters in any group, and the classification established as follows: the Athlete with the best score is the winner of the first group, the Athlete with the second best score is the winner of the second group and so on until prizes have been allocated to 25% of the total number of starters. *NB: In this case separate results must be sent to the FEI for each of the groups, e.g. results for Competition 1a and for Competition 1b (and for Competition 1c if the original Competition was split into three groups, etc.).*

In both cases above each group must offer the same amount of prize money as indicated for the original Competition. For the avoidance of doubt, it is the number of declared starters in the Competition, not the final number of starters that determines whether the Competition must be split.

³ As all FEI Jumping World Cup™ Competitions have the status of a Grand Prix, the minimum prize money requirements indicated above for the Grand Prix are applicable to the FEI Jumping World Cup™ Competition. For CSI-W Events with a Grand Prix Competition in addition to the FEI Jumping World Cup™ Competition, the minimum prize money requirements for the Grand Prix apply only to the FEI Jumping World Cup™ Competition; the Grand Prix Competition at such Events cannot offer more prize money than the prize money offered for the FEI Jumping World Cup™ Competition. This provision also applies to the Competition with the highest prize money if no Grand Prix is organised.

⁴ Height restrictions for CSI1* and CSI2* Events: Upon request the FEI may grant dispensation to height restrictions. In countries hosting numerous CSI3* and higher level Events exemptions for the maximum height of obstacles at CSI1* and CSI2* Events will only be granted for sporting reasons, not for prize money reasons. If NFs need an exemption in order to provide their Athletes with the opportunity to obtain Certificates of Capability, an exemption will be granted, but if NFs that regularly host CSIs of 3* level and higher wish to organise Competitions at a height greater than 1.45m without offering minimum 3* prize money an exemption will not be granted.

⁵ Maximum height restrictions as stated apply except for the final Competition of an FEI-approved Series which may be 1.65 m if so specified in the Schedule. For all CSI5* Events, the Schedule must indicate a height of obstacles of 1.60m for the Grand Prix, except for the final Grand Prix of an FEI-approved Series, for which an exception may be allowed to indicate a height of 1.65 m.

WEL = Western European League; PM = prize money; b/fast = breakfast; max. = maximum; min. = minimum; n/a = not applicable

¹ Prize money cannot be cumulated from multiple Events held at the same venue during the same week to establish star level. CSI-5* maximum duration is 5 days. Events at same venue over several weekends are considered separate CSIs. For these Events, the star level of the Event will be determined by the combined prize money of maximum 12 Competitions per Event, instead of the overall prize money per Event.

² Maximum 100 starters per Competition other than the Grand Prix (see maximum number of starters in the Grand Prix according to the star level of the Event in the table above). If more than 100 starters are declared, the OC must split the Competition into the number of groups required to ensure that there are no more than 100 starters in any group and provide

the same amount of prize money as indicated for the original Competition for each group. The additional prize money provided by the OC is not taken into consideration with regard to the overall prize money that determines the star level of the Event or the Longines Ranking point group of the Competition, if applicable.

OCs may apply either of the following methods for splitting the Competition:

- The Competition is split into the number of groups required before it starts. There may be Athletes with multiple Horses in each group but all Horses of any one Athlete must be in the same group. If it is not possible to have groups of equal size there may be a different number of starters in each group; or
- The Competition is run as one single Competition and split afterward into the number of groups required to ensure that there are no more than 100 starters in any group, and the classification established as follows: the Athlete with the best score is the winner of the first group, the Athlete with the second best score is the winner of the second group and so on until prizes have been allocated to 25% of the total number of starters. NB: In this case separate results must be sent to the FEI for each of the groups, e.g. results for Competition 1a and for Competition 1b (and for Competition 1c if the original Competition was split into three groups).

In both cases above each group must offer the same amount of prize money as indicated for the original Competition. For the avoidance of doubt, it is the number of declared starters in the Competition, not the final number of starters that determines whether the Competition must be split.

³ As all FEI Jumping World Cup™ Competitions have the status of a Grand Prix, the minimum prize money requirements indicated above for the Grand Prix are applicable to the FEI Jumping World Cup™ Competition. For CSIO-W Events with a Grand Prix Competition in addition to the FEI Jumping World Cup™ Competition, the minimum prize money requirements for the Grand Prix apply only to the FEI Jumping World Cup™ Competition; the Grand Prix Competition at such Events cannot offer more prize money than the prize money offered for the FEI Jumping World Cup™ Competition. This provision also applies to the Competition with the highest prize money if no Grand Prix is organised. Refer to the FEI Jumping World Cup™ rules for details relating to date of implementation of this rule at CSIO-W Events.

⁴ For all CSIO5* Events, the Schedule must indicate a height of obstacles of 1.60 m for the Grand Prix, except for the final Grand Prix of an FEI-approved Series, for which an exception may be allowed to indicate a height of 1.65 m.

ANNEX III CSI INVITATION RULES

Invitation Rules for CSI2*/CSI3*/CSI4*/CSI5* Events (Worldwide)

The following rules apply for all CSI2* (with Longines Ranking Competitions*)/CSI3*/CSI4*/CSI5* Events at which the number of invited Athletes as indicated in the Schedule is restricted, except for CSIs that are part of an FEI-approved series for which the invitation rules have been explicitly approved by the FEI Board. The CSI Invitation Rules do not apply to other Categories of CSI Events (e.g. CSI1*, CSI-Am, CSIY, CSIJ etc) or to CSIOs.

For all Events at which the CSI Invitation Rules apply, a certain percentage of Athletes must be invited in descending order of the Longines Ranking, a certain percentage of Athletes are home Athletes selected by the host NF and a certain percentage are Athletes invited by the OC; the percentages for each invitation group are established for each star level as follows:

* NB:CSI2* Events may be organised as regular CSI2* Events with Longines Ranking Competition(s), in which case the 30%/30%/40% quotas below for CSI2* apply if the number of invited Athletes is restricted, or may be organised as CSI2* Open Events without Longines Ranking Competitions, in which case the 0%/20%/80% quotas below for CSI2* Open Events apply if the number of invited Athletes is restricted. CSI2* Events entered in the Official Calendar less than nine weeks prior to the Event must be organised as CSI2* Open Events without Longines Ranking Competitions and the 0%/20%/80% quotas below for CSI2* Open Events apply if the number of invited Athletes is restricted.

Event Level	Athletes from the Longines Ranking	Athletes selected by the host NF	OC Invitations
CSI5*	60%	20%	20%
CSI4*	50%	25%	25%
CSI3*	40%	30%	30%
CSI2*	30%	30%	40%
CSI2* Open, option with no Longines Ranking Competitions, if the number of invited Athletes is restricted	0%	20%	80%
CSI2* Open, option with no Longines Ranking Competitions, if the number of invited Athletes is unrestricted	N/A, CSI invitation quotas do not apply to CSI Events at which the number of Athletes invited is not restricted.		

For all Events at which the CSI Invitation Rules apply, the CSI invitation quotas will be managed through the FEI online invitation system. Athletes entered for CSI2*/CSI3*/CSI4*/CSI5* Events at which the number of Athletes invited is not restricted, automatically have the right to participate in the Event and will be automatically accepted in the Entry System.

Please refer to the "Implementation of the FEI Online Invitation System for Jumping Guidelines" (Implementation Guidelines) which are published on the FEI website for technical details and further information.

For each Event the OC/host NF must provide certain details to the FEI at least 12 weeks prior to the week of the Event for the system to manage the CSI Invitation Rules correctly. This information must also be included in the Schedule. Refer to the Implementation Guidelines published on the FEI website for further information.

Certain Events have conditions that will require special settings (e.g. overseas Horse transportation); please refer to the Implementation Guidelines published on the FEI website for further information.

Section 1 Compulsory Invitations

1.1. Percentage of Athletes to be selected in descending order of the Longines Ranking

For the purpose of invitation of Athletes in descending order of the Longines Ranking, the Longines Ranking list established three months prior to the week of the Event is to be used. The OC must indicate in the Schedule the number of the Longines Ranking list that applies for the invitation of Athletes.

The percentage of Athletes to be invited in descending order of the Longines Ranking depends on the star level of the Event. The following percentages apply:

CSI5*	CSI4*	CSI3*	CSI2*	CSI2* Open with no Longines Ranking Competitions
60%	50%	40%	30%	No compulsory invitations
Athletes tied on Longines Ranking points will be separated as follows: <ul style="list-style-type: none"> - Priority will be given to the Athlete who has earned the same amount of points with fewer results. If there is still a tie: - Priority will be given to the Athlete with the greater number of highest points within their results counting for the Longines Ranking. If there is still a tie: - Priority will be given to the Athlete with the greater number of highest placings in the Competitions within their results counting for the Longines Ranking. If there is still a tie: - Priority will be given to the Athlete with the higher rank on the previous Longines Ranking. If there is still a tie, priority will be given to the Athlete with the higher rank on the preceding Longines Ranking and so on until the tie is broken. 				

1.2. Individual Jumping medal winners Olympic Games and World Championship

The individual Jumping medal winners of (respectively) the most recent Olympic Games and World Championship at the time of the reference ranking when applicable for the concerned Event must receive an invitation to all CSIs according to the following timeframes:

- The gold medal winner of (respectively) the most recent Olympic Games and World Championship must receive an invitation to all CSIs for the four-year period between the Olympic Games/World Championship at which the medal was won and the next Olympic Games/World Championship.
- The silver medal winner of (respectively) the most recent Olympic Games and World Championship must receive an invitation to all CSIs for maximum of two years following the Olympic Games/World Championship at which the medal was won.
- The bronze medal winner of (respectively) the most recent Olympic Games and World Championship must receive an invitation to all CSIs for maximum one year following the Olympic Games/World Championship at which the medal was won.

These invitations are included in the quota for compulsory invitations established under section 1.1 of this Annex, regardless of the position of the individual Jumping medal winners on the Longines Ranking.

Refer to the Implementation Guidelines published on the FEI website for technical details regarding the timelines, management, and confirmation of compulsory invitations.

Section 2 Home Athletes selected by the host NF

2.1. Percentage of home Athletes

The percentage of home Athletes that may be selected by the host NF depends on the star level of the Event. This percentage does not include the home Athletes invited under Section 1 (*Compulsory Invitations*) and Section 3 (*OC Invitations*) of this Annex. The following percentages apply:

CSI5*	CSI4*	CSI3*	CSI2*	CSI2* Open with no Longines Ranking Competitions
20%	25%	30%	30%	20% if the number of invited Athletes is restricted; (n/a if the number of invited Athletes is unrestricted)

Refer to the Implementation Guidelines published on the FEI website for technical details regarding the timelines, management and confirmation of home Athletes.

Section 3 OC Invitations

3.1. Percentage of OC Invitations

The percentage of Athletes that may be invited by the OC depends on the star level of the Event. The following percentages apply:

CSI5*	CSI4*	CSI3*	CSI2*	CSI2* Open with no Longines Ranking Competitions
20%	25%	30%	40%	80% if the number of invited Athletes is restricted; (n/a if the number of invited Athletes is unrestricted)

Refer to the Implementation Guidelines published on the FEI website for technical details regarding the timelines, management and confirmation of OC invitations.

Section 4 FEI Invitations for Foreign Athletes or home Athletes domiciled outside the home country

The FEI has the right to allocate an invitation to two Athletes for CSI2*/CSI3*/CSI4* Events and one Athlete for CSI5* Events. The FEI invitations are included in the quota for compulsory invitations established under Section 1.1 of this Annex. The level of the nominated Athlete must be of the required standard for the Event in question. OCs must accept the entries of Athletes to whom the FEI has allocated an FEI invitation. For Events that are on the list of qualifiers for the Olympic Games published on the FEI website, the FEI has the right to allocate an additional FEI invitation to an Athlete attempting to earn a Certificate of Capability for the Olympic Games. The additional FEI invitation for Athletes attempting to earn a Certificate of Capability for the Olympic Games is not included in the overall quota of Athletes invited at the Event. This Athlete will be allowed to participate in all Competitions in addition to the number of starters allowed provided that the Athlete fulfils any qualification or participation requirement (for example, if the Competition is a Grand Prix, the Athlete will be allowed to participate provided that they have completed, with their Grand Prix Horse, the initial round of at least one Competition covered by JRs Art 219.3.4 prior to the Grand Prix).

The maximum number of times an Athlete can be nominated during the same season for this section is three.

Section 5 Timeline for declaration of Horses

Refer to the Implementation Guidelines published on the FEI website for technical details regarding the timeline for declaration of Horses.

Section 6 General

NFs are responsible for entering qualified Horses and Athletes. This includes the fitness and capability of the Horses and the Athletes to participate in the Events/Categories for which they are entered.

Refer to GRs Art 115.1 for details relating to remuneration in exchange for an invitation to an Event (Pay Card, as defined in the GRs) and appearance fees.

OCs will be permitted to invite a limited number of additional Athletes if, at the closing of entries, the maximum number of Horses that may be entered has not been reached. If no qualification system for the Grand Prix or Competition with the highest prize money is foreseen in the Schedule, the OC may not invite such additional Athletes in excess of the maximum number of starters allowed to take part in the Competition concerned as specified in the Schedule. These additional Athletes are not taken into consideration for the calculation of the percentages of Athletes to be invited under Sections 1-3 of this Annex. This provision applies to all categories.

OCs of Events that include small and/or medium Tour Competitions may invite a limited number of additional Athletes only for the small and/or medium Tour Competitions; Athletes invited only for the small and/or medium Tour Competitions are not included in the total number of Athletes used for the calculation of percentages for the invitation of Athletes under Sections 1-3 of this Annex, and may not participate in any Competitions counting for the Longines Ranking, including if any Athletes so invited have qualified for a Longines Ranking Competition through one or more non-Longines Ranking Competition(s). Any Athlete so invited whose name appears in the results of a Longines Ranking Competition will earn no Longines Ranking points and will be Disqualified retroactively from the Competition. The Horses of Athletes invited for the small/medium Tour Competitions are not counted in the maximum number of Horses that may be entered for the CSI; if any of the Athletes invited for the small/medium Tour Competitions do not enter the maximum number of Horses permitted per Athlete, the OC may not invite additional Athletes for the CSI to fill the vacant stable places of small/medium Tour Horses.

OCs of CSI2*/3*/4*/5* Events that are part of Tours at which the number of Athletes to be invited is limited must respect the CSI Invitation Rules. OCs of Tours that run over consecutive weeks overlapping from one month to another may use the Longines Ranking established three months prior to the first Event of the Tour for the invitation of Athletes under Section 1 for all Events of the Tour and may give priority to Athletes who have accepted the invitation to all Events of the Tour. Alternatively, OCs of Tours that overlap from one month to another may use the Longines Ranking established three months prior to the start of the respective Events of the Tour for the invitation of Athletes under Section 1 (*Compulsory Invitations*) of this Annex for each Event.

Refer to the Implementation Guidelines published on the FEI website for technical details regarding the FEI online invitation system.

National events

OCs that wish to organise a National Event must comply with the FEI rules for National Events. These include the restrictions on the number of foreign Athletes and the number of NFs represented by Athletes.

Consequences

If prior to an Event it is known that the Event will not follow the FEI technical conditions and the CSI Invitation Rules, the Event may be removed from the Official Calendar at the discretion of the FEI.

The following fines will be imposed on OCs that do not comply with the CSI Invitation Rules: 1st offence CHF 20'000; 2nd offence CHF 40'000; and at the 3rd offence, the Event will not be permitted to take place. These fines will be payable directly by the OC concerned to the FEI.

If sufficient proof can be established after the Event that the FEI technical conditions and the CSI Invitation Rules have not been complied with, CSI status may be refused for the following season.

An Athlete and/or Horse, even if registered with the FEI, is not eligible to participate in an Event (and so may not be invited by an OC to such Event or entered by an NF in such Event) if that Athlete and/or Horse has participated, in the six months prior to the first day of the Event in question, in an Unsanctioned Event (see GRs Art 113.4).

1.3. Type of System Authorised

- The connection of the timer to the photocells can be wireless. The timer is connected to the downstream processing system by wire.
- For Games and Championships and other Events it is optional to have photocells connected by wire to a synchronised time-of-day timer.
- For CSI 4* and CSIO 4* Events and of a higher Category a split-timing system is required.

2. TIMING AT FEI JUMPING EVENTS

For all Jumping Events in the Official Calendar, electronic timers, photocells, and wireless transmission systems homologated by the FEI must be used. A list of these approved devices is published on the FEI website. Events using timing equipment other than those on the homologated FEI list will not be considered for FEI evaluation unless an exception has been authorised by the FEI Jumping Director (see JRs Art 254).

2.1 Timing at FEI Jumping Events

2.1.1. Timing at the sensors

With electronic timing, the time is taken when a Horse crosses the start or finish line and triggers the beam between the photocells. Time must be taken on the breast of the Horse. If the rider pushes the Horse's head first there will be no correction. With hand timing the time will be taken as above. The height of the sensors must be identical at the start and finish lines.

If a time base is used in conjunction with the photocell, either integrated or separate, then it must be set in time of day and be synchronised with the main timer before the start of each Competition. Synchronisation to time of day must take place within 60 minutes before the start of the Event and must be maintained throughout the Event. Timers may not be resynchronised during any Competition but may be resynchronised between Competitions.

2.1.2. Recording the time

All time of day times must be immediately and automatically sequentially recorded on printed strips to at least the 1/1000th (0.001) precision on dedicated directly attached or integrated printers. The electronic timing systems must furnish time data to allow for the calculation of elapsed times by the mathematical comparison of each Athlete's start time to finish time. The recorded times are truncated to 1/100th second after calculation of the elapsed time. The final result for each Athlete's round is expressed to 1/100th (0.01) precision.

2.1.3. Hand timing

Manual (hand) timing, completely separate and independent of the electronic timing, must be used for all Competitions listed in the Official Calendar. Stopwatches or hand operated battery powered timers that are installed at both the start and the finish and capable of expressing times to at least 1/100th (0.01) precision qualify as proper hand timing devices. Printed records, either automatic or handwritten, of recorded hand times must be immediately available at the start and at the finish. Elapsed time on course is derived from the mathematical comparison of start and finish times. The times taken by hand timing may be used in the official results after a correction has been calculated.

2.1.4. Calculation of the hand timing correction

Calculate the difference between the times taken by hand and the electronic times of the 5 Athlete/Horse Combinations starting before the missing time and the 5 starting after or if necessary the 10 nearest Athlete/Horse Combinations. The sum of the 10 time difference is divided by 10 to give the correction that must be applied to the hand time of the Athlete/Horse Combination without an electronic time.

2.1.5. Time corrections within the timer

When the official printing timer allows manual input or correction of an Athlete/Horse Combination's time, some type of indication (star, asterisk, or other) concerning any effected change must be printed on all relevant timing documentation to indicate that manual intervention has been applied.

2.1.6. Print-out of time

The official timing strips from the printer will be given to the Foreign Judge for review. They will be kept by the Event Organiser until the official approval of the Event or resolution of any appeal dealing with timing or Event results. At Events where a complete back-up system is required this also applies.

The Foreign Judge must indicate by their signature on the results form and in their report to the FEI their approval of the Event. All printed records from system A, system B and hand timing must be retained by the OC for a period of three months after the Event or until resolution of any appeal dealing with timing or Event results.

2.1.7. Presentation of times

Organisers shall provide appropriate facilities for continuous presentation of all registered times of all Athlete/Horse Combinations.

2.2 Timing at Olympic Games and World Championships**2.2.1. Electronic timing**

For Olympic Games, and World Championships, two synchronised electronically isolated timing systems with printers, directly connected to the start and finish photocells and operating in time-of-day must be used. One system will be designated system A (main system), the other system B (back-up system) prior to the beginning of the Event. System A must be connected to its respective A photocell contact. System B must be separately connected to another electronically isolated B photocell contact.

2.2.1.1. Recording the time

Refer to Art 2.1.2. Both systems A and B must furnish time data to allow for the calculation of elapsed times by the mathematical comparison of each Athlete's start time to their finish time. All times used for the final result must be from system A. If there is a failure of the main electronic timing system (system A), a calculated elapsed time from system B must be used following the same procedure as set out above. It is not permitted to substitute time-of-day times from system B for use with system A for the purpose of elapsed time calculations. In the case that calculated elapsed times from either system A or system B are not available for an Athlete/Horse Combination, the calculated net manual time as per Art 2.1.4 will be considered valid.

2.2.1.2. Synchronisation of the timing systems

Synchronisation of the timing systems must occur within 60 minutes prior to the commencement of each Event and synchronisation of all systems must be maintained every day throughout each Event. Timers may not be resynchronised during any Competition but may be resynchronised between Competitions.

2.2.1.3. Other Games and Championships

For all other Games and Championships the same systems approach is highly recommended.

2.2.2. Photocells

For Olympic Games and World Championships there must be two photocell systems homologated by the FEI, installed at the start and finish line. At each location, one is connected to system A. The other is connected to system B. The photocells for the respective systems at the start and finish must be arrayed identically and be placed as close together as physically possible, and in any case no more than 0,5 m apart.

2.2.3. Hand Timing

Refer to Art 2.1.3. The stopwatches or battery powered hand timing devices used must be synchronised prior to the start of each Event, preferably with the same time-of-day as system A and system B.

2.3 Timing without cable for all Events

The FEI recognises the importance of wireless impulse transmission systems in the arenas of Events and encourages their use to facilitate the ease of set-up and functionality of modern jumping. It should be noted however that any wireless system is more prone to failure than a hardwired connection from the timer to the photocells.

ANNEX VII MEDICAL SERVICES

This Annex outlines the medical service coverage requirements to be implemented by Organising Committees (OCs) of FEI Jumping Events. These requirements are applicable throughout the Event.

It must be read in conjunction with GRs Art 109.10.1, the General Medical Coverage requirements for FEI Events available on the FEI website, the FEI Key Event Requirements No.11 available on the FEI website, and any guidance issued by the FEI for the medical coverage of Events.

MEDICAL SERVICES REQUIREMENTS

1. Chief Medical Officer (CMO)

1.1 Role

The CMO is appointed well in advance of the Event and works closely with the Organising Committee (OC) when planning for Event medical coverage and participate in the preparation of the Serious Incident Management Plan (SIMP) for the Event.

At Championships the CMO will arrange a meeting for the international team doctors and medical personnel in order to familiarise them with the venue and available medical resources and provide the necessary contact information to access the medical services.

1.2 Qualifications

The CMO does not have to be a physician, but is suitably experienced in the planning of medical coverage for equestrian events and has knowledge of the available local emergency medical resources and applicable local regulations.

2. First aid for spectators and workforce

First aid services for spectators and workforce must be provided in compliance with the locally applicable legislation and guidelines and following consultation with the CMO and local emergency medical service personnel.

3. On-site medical personnel

On-site medical personnel as detailed in the table below must be available during the hours of Competition and training periods. They must be able to cover all training and Competition areas, stables, and on-site accommodations.

A reliable communication system must be in place throughout the entire Event, to alert the on-site emergency medical providers and/or the local emergency medical service, including communication with the Event officials.

ANNEX VIII TACK, EQUIPMENT, AND ARTIFICIAL AIDS

1. RULES FOR SENIORS - ARTIFICIAL AIDS

1.1 Spurs

- (a) Anywhere within the grounds of the Event, the Athlete when mounted may wear only one spur on each boot.
- (b) Rowel spurs, that is spurs with a notched or serrated rotating disc, are not authorised anywhere within the grounds of Events; spurs with a rotating disc that is not notched or serrated are allowed.

1.2 Whip

- (a) Anywhere within the grounds of the Event, the Athlete when mounted may carry only one whip.
- (b) Athletes are allowed to use a dressage whip when working on the flat but are strictly prohibited to use or carry a whip which is weighed down at the end at any time, or to carry or use one which is more than 75 cm in length in the Competition Arena, Warm-Up Arena, and Training Arenas when riding over poles or any obstacle. No substitute for a whip may be carried.

1.3 Please also refer to the FEI Tack, Equipment and Dress Database and the FEI TackApp.

2. RULES FOR SENIORS – TACK AND EQUIPMENT

2.1 In the Competition Arena, the following provisions apply:

- (a) Blinkers and fly masks that cover the Horse's eyes are prohibited.
- (b) Leather, sheepskin, or similar material may be used on each cheek piece of the bridle provided that the material does not exceed three centimetres in diameter measured from the Horse's cheek.
- (c) Only unrestricted running martingales are allowed; no more than one martingale stopper per rein may be used. Reins may not be configured in such a way as to cause a running martingale to function as a standing martingale.

EA: Correctly adjusted Standing martingales are permitted in National competitions up to and including 1.30m

- (d) There are no restrictions on bits or nosebands. However, the Ground Jury has the right, based on veterinary advice, to forbid the use of a bit or noseband that may cause injury to the Horse. Art 1044.8 of the Veterinary Regulations applies in relation to the permitted tightness of the noseband.
- (e) Reins must be attached to the bit(s) or directly to the bridle. A maximum of two pairs of reins may be used. If two pairs of reins are used, one pair must be attached to the bit or directly to the bridle. Gags and hackamores are allowed.
- (f) Draw reins (running reins) *EA: and market-harborough* are prohibited in the Competition Arena except during prize giving ceremonies and march-past parades.
- (g) Failure to comply with any of the provisions above at paragraphs 2.1(a) to (f) will incur Elimination (see JRs Art 263.4.22).

2.2 Anywhere within the grounds of the Event (restricted area) under control of the OC, the following provisions apply:

- (a) In the interests of safety, the stirrup iron and the stirrup leather (this also applies to safety stirrups) must hang freely from the bar of the saddle and the outside of the flap. The Athlete must not directly or indirectly tie any part of their body to the saddlery.
- (b) The total maximum weight of equipment allowed to be placed on a Horse's leg, front or hind (single or multiple boots, fetlock rings, etc), may not exceed 500 grams (shoe or substitute for a shoe excluded) under any circumstances, including when the equipment is wet.

- (c) For all international/EA Jumping Competitions for Young Horses (five, six, seven, and eight year old Horses), the following criteria must be respected in relation to hind boots worn:
- (i) Hind boots that have a rounded protective element on the inside only are the only type of hind boot allowed. The boot must have a maximum interior length of 16 cm; the width of the fastener must be at least five centimetres. Hind boots with additional protection for the pastern that extends below the rounded shell on the inside of the boot are allowed provided that the protection is made of soft pliable material. The pastern protection that extends below the rounded shell on the inside is not taken into account when measuring the length of the boot (refer to FEI Jumping Stewards' Manual on the FEI website for photographs).
 - (ii) Boots must be designed in such a way that both sides can be bent to fit around the Horse's leg without effort. The rounded protective element of the boot must be placed around the inside of the fetlock.
 - (iii) The inside of the boot must be non-abrasive and smooth, that is, the surface must be even and there may not be any pressure points, i.e. there may be no pads or blocks under the lining, on the inside of the boot; for the avoidance of doubt, stitching on the inside of the protective element that attaches the inner lining to the boot, is permitted. Sheepskin linings are allowed.
 - (iv) Only non-elastic velcro-type fasteners are permitted; no hooks, buckles, clips or other methods of attaching the fasteners may be used. The inside surface of the fastener that is in direct or indirect contact with the horse's skin must be non-abrasive. The fastener must be one-directional, that is, the strap must be attached directly from one side of the boot to the fastening component on the other side of the boot but must not wrap around the entire boot. The fastener may be secured with another Velcro-type strap extending vertically over the fastener where it is attached to the fastening component (for examples, refer to the FEI Tack, Equipment and Dress Database or the FEI TackApp).
 - (v) No additional elements may be added to or inserted in the boot itself. The use of Vet Wrap or similar lightweight bandaging material under hind boots is permitted; when possible it should be applied in the presence of the Steward. A member of the Stewarding team has the right at any time to require the VetWrap/bandaging material to be removed and re-applied in their presence.
 - (vi) Fetlock rings may be used for protective purposes provided that they are properly adjusted and loose, and provided that the total weight of equipment on the horse's leg does not exceed 500 grams under any circumstances, including when the equipment is wet (see Art 2.2(d) below). Pastern bands may be used around the pastern provided that they are not overtightened.
- (d) At all international/EA Jumping Events and at all FEI World Jumping Challenge Events, only hind boots meeting the following descriptions may be used:
- (i) Boots as described in Art 2.2(c) above.
 - (ii) Boots that have a rounded protective element on the inside only, and boots with a rounded protective element on the inside and outside, that is, double-shell boots that wrap around the back of the fetlock, are permitted provided that they meet the following criteria:
 - All boots must be designed in such a way that both sides can be bent to fit around the Horse's leg without effort. For double-shell boots specifically, the boots must be pre-moulded to the shape of a horse's fetlock, i.e. the boot must be pre-moulded in a "U" shape, in such a way that the boot naturally wraps around the fetlock. Double shell boots that require the fastener(s) to be attached to permit the boot to wrap around the fetlock are not permitted. The boot must have a maximum length of 20 cm at its longest point. Hind boots with additional protection for the pastern that extends below the rounded shell on the inside of the boot or on both sides of the boot are allowed provided that the protection is made of soft pliable material. The pastern protection that extends below the rounded shell on the inside is not taken into account when measuring the length of the boot (refer to the FEI Tack, Equipment and Dress Database or the FEI TackApp for instructions on how to measure the length of the boot correctly).
 - The rounded protective part of the boot must be placed around the fetlock (for boots with a protective element on one side only, the protective element must be placed around the inside of the fetlock).
 - The inside of the boot must be non-abrasive and smooth, that is, the surface must be even and there may not be any pressure points on the inside of the boot; for the avoidance of doubt, stitching on the inside of the protective element that attaches the inner lining to the boot, is permitted. Sheepskin linings are allowed.

- The boot may have no more than two fasteners. Only the following types of fasteners are permitted:

<p>Velcro-type fasteners:</p> <ul style="list-style-type: none"> - Each strap must: <ul style="list-style-type: none"> o Have a Velcro or Velcro-type fastening system o Have a minimum width of 2.5 cm if there are two straps or o Have a minimum width of 5 cm if there is only one strap - For boots with a protective element only on the inside of the fetlock, straps may be elastic or non-elastic - For double-shell boots, the straps must be elastic 	
<p>Stud-type fasteners:</p> <ul style="list-style-type: none"> - Each strap must: <ul style="list-style-type: none"> o Be made of elastic o Have a minimum width of 2.5 cm o Have holes that fit over a stud on the boot 	
<p>Hook-type fasteners:</p> <ul style="list-style-type: none"> - Each strap must: <ul style="list-style-type: none"> o Be made of elastic o Have a minimum width of 2.5 cm o Have a hook at the end that fits into an "eyelet" on the boot 	

- The inside surface of the fastener that is in direct or indirect contact with the horse's skin must be non-abrasive. All fasteners must be one-directional, that is, the strap must be attached directly from one side of the boot to the fastening component on the other side of the boot but must not wrap around the entire boot. Velcro-type fasteners may be secured with another Velcro-type strap extending vertically over the fastener where it is attached to the fastening component (for examples, refer to FEI Tack, Equipment and Dress Database or the FEI TackApp). No mechanism that allows the fastener to double back on itself or that allows leverage of any kind to be applied to the fastener is permitted.
- No additional elements may be added to or inserted in the boot itself. The use of Vet Wrap or similar lightweight bandaging material under hind boots is permitted; when possible it should be applied in the presence of the Steward. A member of the Stewarding team has the right at any time to require the VetWrap/bandaging material to be removed and re-applied in their presence.
- Fetlock rings may be used for protective purposes provided that they are properly adjusted and loose, and provided that the total weight of equipment on the horse's leg does not exceed 500 grams under any circumstances, including when the equipment is wet. Pastern bands may be used around the pastern provided that they are not overtightened.

(e) Plastic shields that cover the horse's eyes (i.e. glasses or sunglasses for horses) are prohibited at any time when mounted or when exercising the Horse, including when lunging. They may be used in the stable area and grazing areas.

(f) The use of a tongue-strap is prohibited. For the use of tongue guards, see VRs Art 1044.5.

2.3 Failure to comply with any provisions of Article 2.2 of this Annex in the Competition Arena will incur Elimination (see JRs Art 263.4.22).

2.4 JRs Art 207.2.5 applies with regard to restrictions on advertising on tack and equipment. Please also refer to the FEI Tack, Equipment and Dress Database and the FEI TackApp.

5.5. A Steward must be appointed to check the tack and equipment of each Pony before it enters the Competition Arena.

6. RULES FOR CHILDREN'S EVENTS – ARTIFICIAL AIDS

6.1. Spurs are optional but if used must be made of smooth metal. If there is a shank it must not be more than 4 cm long, measured from the boot to the tip of the spur, and must point only towards the rear; the end of the shank must be blunt. If the shank is curved, the spurs must be worn only with the shank directed downwards. Rowel spurs are not permitted. Hammer spurs are allowed provided that they meet the above requirements. Metal or plastic "Impulse spurs" with round hard plastic or metal knobs and "Dummy spurs" with no shank are allowed. Spurs with flat disks are allowed. 3.4 Participation

Participation in team Competitions is subject to the following conditions:

- 3.4.1 The Athletes and Horses that will start are chosen the day before the Competition from the list drawn up by the Chef d'Equipe or Team Captain and declared to the Secretary, by 6 p.m. on the day before the Competition, including their starting order.
- 3.4.2 In the event of an accident or illness of an Athlete and/or Horse, between the submission of the declaration and one hour before the start of the Competition, the Athlete and/or Horse may, on production of a certificate from an officially recognised medical doctor and/or with the permission of the officially recognised veterinarian and after approval by the Ground Jury, be replaced by another Athlete and/or Horse. In the event of substitution the starting order remains unchanged. During the Competition no substitution will be allowed in any circumstances.
- 3.4.3 Should a team be able to produce only three Horses, its captain may enter three Horses and Athletes.
- 3.4.4 No Horse or Athlete may compete in more than one team in the one Competition.

3.5 Order of starting

- 3.5.1 The starting order for the Teams is determined by a draw in the presence of the Ground Jury and the Chef d'Equipe or Team Captains. The draw will take place the day before the competition at a time fixed by the Ground Jury in agreement with the Organising Committee.
- 3.5.2 All the number ones start first in succession, then the number twos and so on. The Chef d'Equipe of the teams comprising only three Athletes may choose in which of the three positions out of the four they will run Athletes.
- 3.5.3 The starting order of the teams in the second round will be in the reverse order of the total Penalties incurred by the best three Athletes in each team in the first round. Teams that tie after the first round will take the same order of starting as in the first round.
- 3.5.4 The Athletes in each team start in the same order as in the first round.

3.6. Number of Athletes in the second round.

- 6.1 If there are more than 6 teams in the first round a reduced number of teams will take part in the second round with the same Athletes from the first round. This will be determined by the EAJC and the Organising Committee
- 6.2 Those teams that are equal will be separated by the total times of the best three Athletes of each team in the first round.

3.7 Elimination and abandonment

- 3.7.1 If two or more Athletes of a team, participating with four Athletes in the first or second round, are eliminated or retire, the whole team is eliminated.
- 3.7.2 If one Athlete of a team participating with three Athletes in the first or second round is eliminated, the whole team of three is eliminated.
- 3.7.3 If a team is qualified to take part in the second round, an Athlete eliminated in the first round may start in the second round.
- 3.7.4 A team which is qualified to take part in the second round, may only withdraw from the second round, with permission of the Ground Jury. In this case the team will not receive prize money. It will be replaced by another team.
- 3.7.5 However the President of the Ground Jury, in consultation with the Organising Committee when only three or less teams are taking part, may allow eliminated teams to continue by giving competitors who have been eliminated the highest score of a completed competitor plus 20 penalties.

3.8 Placing and Classification

- 3.8.1 Classification of the teams not taking part in the second round is based on the total Penalties of the best three Athletes of each team in the first round. Teams with equality of points are placed equal.
- 3.8.2 Placing of teams after the second round is decided as follows:
 - 8.2.1 Formula One: The total Penalties of the best three Athletes of each team in the first round are added to the total Penalties of the best three Athletes in the second round. If there is equality of Penalties for two or more teams at the completion of the second round the times of the three Athletes contributing to the team score in the second round are added together with the lowest total time being placed first.
 - 8.2.2 Formula Two: The total Penalties of the best three Athletes per team in the first round are added to the total Penalties of the best three Athletes per team in the second round. In the case of equality of Penalties for first place, there will be a jump-off in which one Athlete per team will participate. The Chef d'Equipe determines which member of the team will participate in the jump-off. Any one of the team members can take part in the jump-off. The jump-off takes place against the clock over a minimum of six obstacles. In the case of equality of Penalties and time after the jump-off, the teams are placed equal first. Teams with equality of total Penalties for other places are placed equal.

Minimum Medical Response Requirements (MMRR) for Jumping Competition

Organising Committees are encouraged to provide the highest practical level of support for their competition but must provide minimum medical support levels as detailed below. Requirements are based on the number of riders entered per day.

Competitors must be advised of the level of medical support available at the show on the event entry form.

1. On-site medical personnel as detailed in the table below must be available during the hours of competition and official training periods.
2. A suitable communication system must be established to notify medical services of incidents
3. To determine the required level of medical support organisers must make reasonable estimates of the numbers of entries expected based on historical or other data.
4. If the medical service is unable to respond to an incident competition should be paused.
5. In larger shows Organising Committees should position and plan for sufficient medical support such that a 3-minute response time can be expected
