5. FEI Qualification Procedure for the Tokyo 2020 Paralympics

Qualification Period:	Start: 1 January 2019
	End: 19 June 2020
Qualifying Events:	Any FEI Para-Equestrian 3* or above event listed on the FEI Calendar within the Qualification Period
Qualification Score:	Minimum 62% score in Team Test or Individual Championship Test
Judges:	Minimum of 3 FEI PE O or I-judges of different nationalities

6. Selection Criteria

- 6.1 The objective is to nominate horse and rider combinations that the Para-Equestrian Selection Panel believes will achieve the best possible result at the Tokyo 2020 Paralympics. The term 'best possible result' covers both an individual and a team result but must be based on the realistic expectation that a team finishes in the top 6 and individuals in the top 3. If selectors do not expect this to be achievable, they will not nominate a team to represent Australia in the Para-Equestrian Team competitions.
- 6.2 While the team must be nominated according to FEI regulations, the National Selection Panel will take into consideration the overall percentage achieved by combinations against the target scores as outlined in the competition criteria, to select the best possible team. These target scores are based on the average overall scores that achieved medals in each grade at the 2018 World Equestrian Games in Tryon.

7. Competition Criteria

- 7.1 To be eligible for consideration for nomination, rider and horse combinations must compete in no less than 4 Nomination events, with 2 or more to be in 2020 and have achieved the competition criteria as follows at the identified Nomination Events:

Have achieved an overall percentage of 67% or above in the Team or Individual test, and 70% or above in the Freestyle Test in at least four identified Paralympic

8. General Criteria

8.1 In considering the performances of combinations that have met the competition criteria, the EA Para-Equestrian National Selection Panel will consider the following general criteria:

8.1.1 Where the aspect of 'current form' is to be considered, performances at International CPEDI Events and/or at least 4 events nominated in the competition criteria will be taken into consideration

8.1.2 The age, soundness and fitness of the horse will be taken into consideration.

8.1.3 The Australian EA Para-Equestrian Team Veterinarian will be consulted regarding selection.

8.1.4 Target Scores for each grade to be taken into consideration for nomination of the AUS Team are:

Grade I	74.120%
---------	---------

Grade II	72.580%
----------	---------

Grade III	73.120%
-----------	---------

Grade IV	74.120%
----------	---------

Grade V	73.920%
---------	---------

8.1.5 Nomination Scores for each rider will be calculated by averaging the top two team scores and the top two individual scores (i.e. 4 scores in total) from the eligible nomination competitions above. These Nomination Scores will be compared to the Target Scores published for each grade above.

Note: Target Scores were calculated by averaging the medal scores for both team and individual events at WEG Tryon

8.2 If a combination is unable to attend the Nomination Events nominated in the competition criteria and have been granted dispensation as outlined under clause 7.2 and 7.4 of the competition criteria, the Selectors may take into consideration performances from Events nominated by the EA Para-Equestrian High-Performance Manager for this purpose.

8.3 TEAM COMPOSITION: As per FEI Rules, the team will contain a maximum of two athletes in any one grade, and must contain at least one combination from Grade I, II or III.

9. Post Nomination/Selection

- 9.1 In addition to the rules allowing substitutions of combinations as permitted with the Paralympic competition rules, if, in the opinion of the EA Para-Equestrian High Performance Manager and if agreed with the High Performance Director, Team Veterinarian (horse issues), Nominated Medical Practitioner (rider issues) and Chair of the National Para-Equestrian Selection Panel, should there be a loss of form by a nominated horse or an illness to a rider following the final team nomination or selection that may impact on the overall results of the team (including individual results), a substitution may be made.
- 9.2 Any such replacement must meet the requirements of the Para-Equestrian and Paralympic competition rules.
- 9.3 The reserve(s) will be identified by the National Para-Equestrian Selection Panel.
- 9.4 Up to three reserves may be named depending on the composition of the nominated/selected team. There are two situations in which substitutions may be made.
- 9.4.1 Prior to departure from Australia. If an athlete or horse is deemed unfit to travel with the team, a reserve combination will take their place.
In this instance the reserve combination:
- 9.4.1.1 may be either Australian or European based;
- 9.4.1.2 will be selected according to rankings; and
- 9.4.1.3 will be selected in accordance with Clause 8.3 above.
- 9.4.2 Post departure from Australia: If an athlete or horse is deemed unfit to compete, a reserve combination will take their place.
In this instance, the reserve combination:
- 9.4.2.1 will be either Australian or European based combination;
- 9.4.2.2 will be selected according to rankings; and
- 9.4.2.3 will be selected in accordance with Clause 8.3 above.
