

Equestrian Australia Equipment Annex

In conjunction with Section 5 of the Current Equestrian Australia Dressage Rules, the Equestrian Australia Dressage Committee seeks to provide the following information for clarification of permitted and non-permitted equipment for **all dressage competition**. This document is not intended to imply approval if the target item of equipment is not listed. The Dressage Rules provide clear guidelines as to the equipment permitted. Wherever possible, the EADC is guided by rulings from the EADC and FEI Equipment Committees.

For additional equipment queries, please do not hesitate to fill in the query application form ([found here](#)) or for information please do not hesitate to contact the Equestrian Australia National office karen.myers@equestrian.org.au

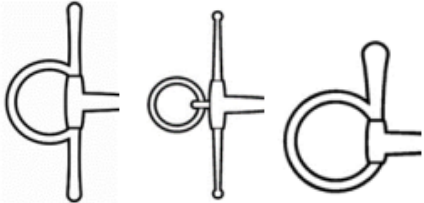

This document will be updated as required.

Version 21 – Updated: 17 January 2023, Effective 1 February 2023

Variant of Eggbutt cheeks	 INSERT VARIAT OF EGGBUTT CHEEKS	✓
Loose ring		✓
Loose Ring with sleeve fitted around part of the ring		✓

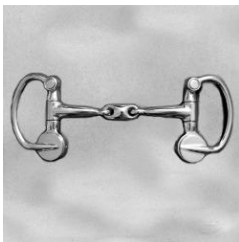

Full cheek with extra rings		 Elimination
Shaped sleeved Cheeks	 	 Elimination
Full cheek / Fulmer / Upper Cheek		
D-ring		
Various gag cheeks		 Elimination
Myler (or similar) Cheeks for use With hooks		 Elimination
Bevel Bit/Cheeks		 Elimination

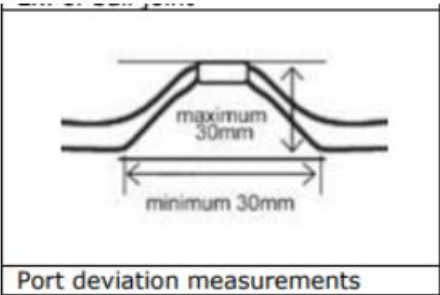

Section 2	BITS /MOUTHPIECES	STATUS
Ported Unjointed bit		✓
Mullen Mouth		✓
Flexible Mullen Mouth		✓
Double Jointed Snaffle		✓
Single jointed Snaffle (including lock up)		✓ Lock up snaffle must not to be used with a double bridle
Bits with a control plate as centre link		✗ Elimination
Cable double Jointed.		✗ Updated Jan 2023

Cable Single Jointed		 Updated Jan 2023
Ported barrel		
B-ring snaffle		 Elimination
Dr Bristol		 Elimination
Mouthpiece with rotating middle piece		
Elliptical central joint		
Turtle Top Snaffle		
Example of non-rigid bit		 Elimination

Myler permitted Snaffles		
Jointed bit with ball		
Pinchless Snaffle (central joint must have rounded edges)		 Elimination
Wavy bits are allowed as they have a smooth surface		 Updated Jan 2023
Beris Mullen Straight bar (Bits must have a smooth surface.)		 Elimination
Mouthpiece with holes (Bits must have a smooth surface.)		 Elimination
Flexible Mullen Straight bar with lip guards		 Elimination
Plastic covered Weymouth		

<p>Curb with downward height deviation (The deviation may be forward but not downwards)</p>		 Elimination
<p>Weymouth (largest and smallest ports illustrated). (Refer to measuring bits section below)</p>		
<p>Jointed, rotating mouthpiece on a curb (The rules do not allow for a jointed curb or a curb with rotation in the mouthpiece.)</p>		 Elimination Updated Jan 2023
<p>Curb bits with a ported/tilted mouthpiece. (The deviation may be forward but not downwards)</p>		
<p>Curb chain clasp (Curb chain hooks can be fixed or not fixed.)</p>		

Various mouthpieces not permitted		 Elimination
Bits with interference on the rings		 Elimination
Coloured Bits		 Minus 0.5%
Bit guards		 Elimination
Bit clips on ergonomic bridles		 Elimination
Measuring Bits for maximum deviation (top image)		Maximum height = 30mm Minimum width = 30mm

Measuring diameter of bits (bottom image)	 <p>Port deviation measurements</p> 	
Additions to bit (Bits may only be covered with rubber or latex.)		 Elimination
Bit Tape to cover the mouthpiece (latex or rubber)		
Bit Tape to create a bit guard		 Elimination

Section 3

BRIDLES & NOSEBANDS

STATUS

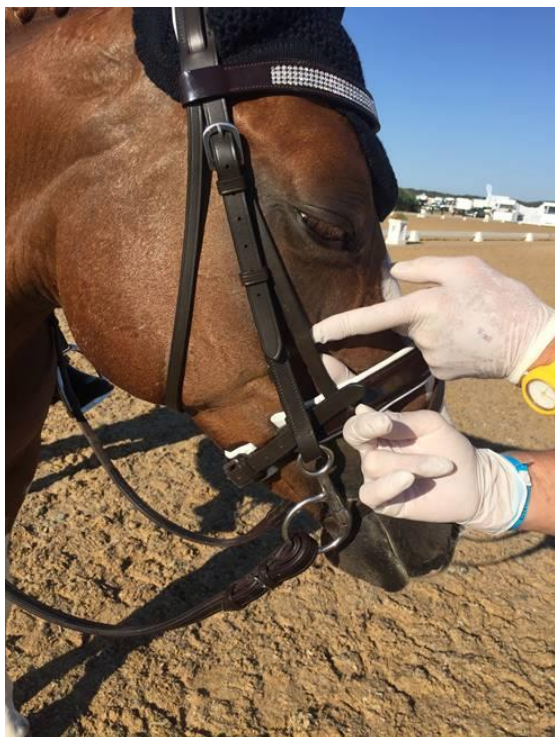

ALL BRIDLES MUST HAVE A THROAT LASH

Equestrian Australian Dressage Committee Statement

The Equestrian Australian Dressage Committee (EADC) wishes to reiterate that **welfare of the horse is paramount** in all that it does, whether developing rules for the sport or in training of its dressage stewards and judges – an active on-going program.

Nosebands that are too tightly fitted regardless of type are never acceptable. Nosebands must never be used in such a way that they interfere with a horse's breathing. Riders failing to loosen a noseband on request from a steward or judge will be **eliminated**.

- Noseband checking is done by a steward. It must be possible to place at least **one** finger between the horse's cheek and the noseband. *See illustration below.*
- Nosebands can be checked prior to or after the completion of a test
- Not all nosebands are required to be checked, if a visual assessment confirms that the noseband is **not** too tight.
- During a test if the Judge believes a noseband is too tight, they must at the end of the test instruct the rider to return to the gear check. The Steward must report back to the judge after checking the noseband.
- When checking bridle/noseband the steward must wear two clean disposable gloves
- The checking of the bridle/noseband must be done with the greatest caution, as some horses are very touchy and sensitive. Stewards must keep in mind that the safety and welfare of the horse and the Athlete are our highest priority and concern!
- The execution of adjustment of equipment must be done by the rider or the groom and **not** the steward.
- If the noseband is deemed too tight by a steward in warm up and is not loosened when requested a Yellow Warning Card will be issued.

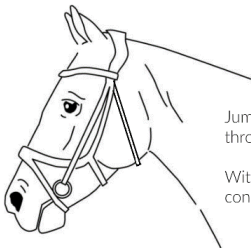

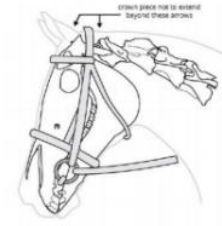

Measuring a cavason noseban

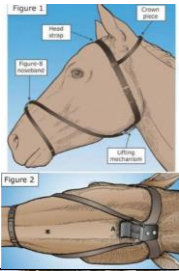

*Measuring a flash or drop
noseband 1*

Bridles with anatomical/padded headpiece		
PS of Sweden noseband (with throat lash)		
PS of Sweden Nirak (with Throat lash)		
PS Of Sweden Noseband, (with Throat Lash)	<p>PS of Sweden Noseband, only used WITH throat latch</p> 	
PS of Sweden High Jump Bridle	 <p>High Jump bridle with throat latch. Without elastic connections to the bit</p>	

<p>PS of Sweden Jump Off Bridle</p>	 <p>Jump Off bridle with throat latch.</p> <p>Without elastic connections to the bit</p>	
<p>PS of Sweden (Elastic Concept)</p>	<p>Elastic Concept for rein and cheek piece by PS of Sweden</p> <p>Here we have attached a durable and strong elastic band that is attached to the leather. The elastic touches NEVER the bit. The elastic helps the bit to be a little bit flexible and more dynamic in the mouth.</p> <p>Elastic is placed up here on the cheek piece and is hidden under the keeper.</p> <p>Leather</p> <p>Leather</p> <p>The bit will only and always be in contact with leather, never anything else.</p>  <p>PS of Sweden, 7th of March 2017</p>	
<p>Bridles with D Rings at the Poll</p>		
<p>Tota Comfort system noseband</p>		

<p>Noseband with metal sliding system attached to cheek piece Except for buckles and padding the headstall and noseband must be entirely of leather or leather-like material.</p>		 <p>Elimination</p> <p>Updated Jan 2023</p>
