Starting the conversation of 'top up' insurance with Gow-Gates

Whilst the EA Coach insurance policies themselves cannot be extended to cover non-coaching activities, Gow-Gates can arrange additional "top-up" policies to cover EA Coaches for their additional business activities. There are numerous benefits to EA Coaches arranging cover for their additional business activities with Gow-Gates:

- The policy is tailored to fit around the existing EA Coach Insurance. This ensures that there are no gaps in cover between the EA Coach Insurance and the cover for the additional business activities. It also ensures that there are no double ups in cover where premium is charged for unnecessary cover.
- Consistency in claims service and advice to EA Coaches.
- Expert knowledge of the industry and understanding of the areas which fall within and outside the underlying EA Coach Insurance.
- Discounts of up to 25% available for EA Coaches.

If you would like Gow-Gates to contact you regarding cover for your additional business activities, please complete this form, send it to Gow-Gates via equestrian@gowgates.com.au and Gow-Gates will contact you to start the conversation.

Additional policies are rated based on the specific business activities and exposures of the individual coach and business.
